New Pine Creek

Inspired by the request of a good friend and loved one who faced death calmly, bravely and with the hope that his community would do all it could to help fight the dread disease of cancer, the Davis Creek grange has responded by dedicating its big dance to the cause of fighting cancer.

The Davis Creek Cancer Fund ball will be this Saturday night, June 25, and in the spirit of Ted Thompson, who died a week ago last Friday, everyone should, who can, turn out to help turn the tide to victory over the world's number one killer and taker of human lives.

Although Ted Thompson was a resident of Alturas and in business there, his kindness and outstanding friendship was deeply felt at Davis Creek where his wife's parents, Mr. and Mrs. Omar Hammersley, and other kind folk live. In the conduct of his firm implement sales service business he performed a work always helpful and to the interest of those whom he served.

In a letter to Maude Butler, word was received that Mrs. Beattie F. Woods, a former resident of New Pine Creek, has been in the Alvin Jack sanitarium at San Jose, Calif., for quite some time suffering from tuberculosis in one lung. Her condition seems to have improved considerably since taking treatments at the sanitarium and she hopes to be out in about a month. Her many friends here wish her a speedy recovery and any who wish to write her can reach her at the above address, box 71.

New Pine Creek now has four stages daily stopping at the stage depot. The Lakeview-Redding stages on June 16 inaugurated a two-bus service between Alturas and Lakeview each way, north and south. The first southbound stage leaves Lakeview at 7 a. m., arriving at New Pine Creek at 7:30 a. m. The second southbound leaves Lakeview at 11 a. m., arriving at the state line at 11:35. The first northbound stage leaves Alturas at 1:30 p. m., arriving in New Pine Creek at 3:05 p. m. The second northbound leaves Alturas at 9:30, arriving here at 11:05. The third southbound stage leaves Lakeview at 7 p. m., arriving in New Pine Creek at 7:30 p. m. The fourth southbound leaves Lakeview at 10:30 and arrives here at 11 p. m.

The Happy Hour club met at the home of Mrs. Alice Allen, Tuesday afternoon, June 21, with Mrs. Gladys Porter as hostess.

Thirteen members and nine children were present. After the business meeting, the ladies enjoyed a guessing game containing the names of flowers. First prize was won by Fannie Fisher and low prize by Margaret Carter. Jessie McLain received her anniversary gift from her secret pal. The next meeting will be with Clara Cloud on Tuesday afternoon, July 12.

Mr. and Mrs. R. M. Keller enjoyed a nice vacation fishing at East Lake last week. They got a nice bunch of fish and were gone five days. The weather, however, was a little cool and the lake got pretty rough at times, but it was a lot of fun.

Preliminary to the installation of inside toilets at the Kelly creek schoolhouse a 95-foot well has been bored at about the middle of the building at the east side where a pressure pump will be installed in the basement. When this work has been completed the plumbing and carpenter work will then be taken care of so that the inside toilets will be ready for use when school begins next fall.

The Charlie Vincent family and Susan Paris returned late Sunday from a two-week visit and vacation into Canada. The party went as far as Smithers which is about 120 miles from Alaska and where they could still read a newspaper at 11 o'clock at night. Mr. and Mrs. Delmar Smith, who also made the trip, stopped in John Day to visit with Smith's folks. The group had a wonderful trip and saw lots of beautiful sights but were happy to get back to the good old U. S. A. Vincent was investigating the ranches in Canada and found several nice ranches but due to lack of poor roads and transportation conditions, marketing facilities were almost prohibitive.

Mrs. A. Terry has been visiting with her son, Jack Means, and family. She is a trained nurse and is having a nice vacation up here in the cool climate of Goose Lake valley.

George Perkins was brought home from the hospital last Monday and was downtown Wednesday on his own power feeling quite well. He

GROUPING MILLS puts More Men to Work

SAWING square boards from round logs leaves sound wood not usable for lumber. Our program of diversified manufacture and the building of different kinds of mills at each of our mill sites will enable us to use all these valuable materials. The by-products of one plant become the raw material for another plant next door. It is necessary to "group" mills in this manner to take advantage of savings on transportation and power—big items in processing the timber crop. It is not economically sound to ship heavy materials from one mill site to another. So we plan to put a group of mills at each site to take care of all by-products, enabling us to utilize completely the tree farm harvest. Naturally, this diversification provides more jobs. It gives the public more needed items. It also promotes continuous operation and security for all of us.

YOU ARE ALWAYS WELCOME! Weyerhaeuser extends a cordial invitation to the public to visit our mills. Trained guides will gladly show you through. Tours: Morning and afternoon, Monday through Friday. Plants located: In Washington: Everett, Longview, Snoqualmie Falls. In Oregon: Klamath Falls, Springfield.

TO HELP INSURE A PERMANENT INDUSTRY WE—

- OPERATE TREE FARMS**—to provide a never ending timber supply for our mills. The forest crop is harvested, reseeded, harvested, reseeded—in about 80-year cycles.
- DIVERSIFY OUR MANUFACTURING**—in order to use all of the tree. The aim is to build manufacturing centers in each of our operating areas so that on one millsite we can make useful products from low value as well as high value material.
- DEVELOP NEW PRODUCTS**—to increase the "take" from each acre of forest land harvested. A staff of engineers and scientists spend all of their time in this work. More products mean more steady jobs.
- DEVELOP PERMANENT MARKETS**—to be reasonably certain that Weyerhaeuser products are in steady demand year in and year out, in good times and bad. We work toward consistent high quality, and apply modern selling methods to create customer demand.
