New And Wonderful

are the four "just in" models of Zenith portables, the RADIO that has the nation talking. RICKYS has hit the nail on the head... it being summer fun-time. Now, vacations are a dud without radio so RICKYS has stocked these champions of the air waves... the Trans-Oceanic Clipper... Universal... Junior Zenette and the fourth one... so recently arrived that the name still hadn't been scooped from the shipping list.

It's a smart idea to take along a portable RADIO to the sea shore, the mountains or just plain fishin' and Zenith is the "Royalty of Radio."

Being just plain dumb about Wavemagnets and shortwave bands and such, we didn't ask too many questions but we did find out that these most famous of all portables have seeds of new features... such as... on the Universal... touch a button and everything happens at once... the door opens... the wavemagnet pops into playing position (this all at RICKYS, remember) and the set starts to playing all in a single INSTANT. You'll be crazy about the sleek, two tone aluminum and plastic case. The price (you'll think we're spoofing!) is \$67.95.

Just raise the cover on the tiny Zenette, baby of them all and the music just leaps out at you. This is a personal portable, the kind you tuck under your arm and pack without flicker of an eye-lash. It's only a bit over 5 inches wide, not quite 8 inches long and 4 deep. Complete with batteries it weighs only 5 1/2 pounds. You can be choosy about your colors for this sweetie comes in soft-white... ebony or burgundy plastic with gold trim at \$49.95.

The larger Trans-oceanic... the super-duper one with so much umph there's no use starting to tell about it, sells for \$126.50 We will tell you that the grandpappy of a man down south said that he wouldn't trade his ZENITH, this model, that he bought at RICKYS for a new set of false teeth... if he couldn't get another... he'd just go right on eating soup.

The "right recent" model is tagged at \$47.95 and just because it sells for a little less than its brethren, don't be fooled... it's a beauty in two-tone gray...

These Zeniths are all protected throughout against moisture, fungus growth and other hazards of the tropics, just in case you plan a trip up the Amazon and... they all have expansion handles.

To check up on our story go to 700 Main street RICKYS.

Glamour In July

may be found at the HOUSTON BEAUTY SALON but don't plan to be refreshed up on July 5th. All the operators will be willing and happy to "primp" you up for the big three day rodeo right up to July 2 in the afternoon but "nix" on the "5th". Mary Martin announces that the operators really need a good three day fiesta, beginning with Sunday and lasting right through 'til Wednesday morning when the doors of the HOUSTON BEAUTY SALON will be wide open again.

Mary gave us a hint that the shop has a special on Revlon nail polish and lin stick sets, matching of course in the new TOUCH OP GENIUS and other popular shades... a \$1.85 value for only \$1.00. Better rush... this bargain won't last long. You'll find the Revlon offer at 114 No. 8th street, the

HOUSTON BEAUTY SALON.

Highlighting the Fall fashion picture are fabrics which have undergone a revolution in consistency, according to magazine Charm. Wools and worsteds for example, are now nearly as drifting, as transparent, as weightless on the shoulders as chiffon. Tweed, too, has gone soft. A new range of colors—forest green, brick red, mauve, even citron—complement tweed's delicate new textures.

Quick As A Flash

you can whip up a delectable tuna tomato supreme or oodles of other crisp salads on a sizzling hot day if you've been foresighted and included a SALAD DRESSING from the PINE STREET MARKET.

The dressing, we all know, is the life of any salad. This store, meaning the PINE STREET MARKET, has a coterie of dressings to suit every taste... tartar sauce... Cheney's salad mix, one of the choicest for seasoning... a piquant Russian sauce with plenty of oil... mayonnaise by Kraft and Durkee, Monarch and Best Foods... celery, onion and garlic juice and a gourmet's delight... one we haven't seen before... dill dressing... a few drops in any salad and oo la la. Try it on hamburgers, fish and roast meats too... 'twill be something new in your life. For high quality in foods... free delivery service and S&H Green stamps look to Seventh and Pine, the

summer in "cool as a forest stream" Bembere SHEERS from WHYTAL'S. You'll love the dainty patterns of the prints... subtle little flower sprigs... with white organdy touches at just the right places... interesting leaf panel prints and the ever good and popular geometric designs.

THESE SHEERS are so petal fresh you'll half expect to find dew... and newly draped for figure flattery... plenty of freedom in the gored skirts... interesting button trim and the sizes remember everyone, even the half size folks. You'll find them in regulars... 12 thru 20, juniors... 9 thru 15 and the half sizes too. Price tags say \$8.95 and \$10.95.

You will pay no heed to the thermometer if you walk away from WHYTAL'S with one of the little cross-bar seersucker, two piece "sweeties," that we found in buttercup yellow and azure blue, both with dainty white pique trim... the topper with deep penum and matching ball button trim... you'll be a slick-chick in one of these during the Fourth of July festivities.

OR for that matter, in the catchy red and white number... beautifully moulded, flared skirt of fine wale white pique... the red and white checked seersucker blouse made with "shirt tail" finish that can double for a shirt with your denims. Belt loops on the skirt make a runway for the wide checked tie belt. We nearly forgot... big, big pockets on the skirt.

Lots of shirtwaist dresses... country-club cool, smooth rayon frocks... all decidedly wearable... each delightfully feminine... with the "pretty look" of the season in every lovely line. The color range is excellent in all styles and they all look as cool as the shady side of the street on a hot day.

Take advantage of these choice frocks before they are all picked over... stocks do not last long at Ninth and Main.

Memo From Currin's

is really almost the story of a "give away"... in this case being the offer to introduce you to the special "winning" July 1, which this week is Friday) on Tussy's CREAM SHAMPOO. It's more than a hair cleanser, it's a hair beauty treatment.

CURRIN'S.

This summer, the new bare-throat, deep-necked fashions demand a flawless skin. One way to help keep your skin perfect is to safeguard it with a sun-screen lotion or cream. Use it not only on your face, but also on all the neck's that exposed when you're motoring in the sun or wind. Then there'll be no weather strip to cope with later. The same rule applies to hands and arms so that they won't be bronzed in contrast to pearly shoulders.

Center your summer cooling program around one fragrance and use it in all three strengths: perfume, toilet water, and cologne. Use only a drop or two of perfume, where your pulse throbs closest to the surface of your skin. Rub toilet water generously over your arms and legs and as a dainty filler to your lingerie rinse water. Cologne, milder yet is infinitely refreshing sprayed on from your atomizer. Splash it on after bathing... use on your wrists and temples at the office, you needn't worry about using too much.
