

DUE FOR ACTION in the Klamath Basin Roundup is Bill Hancock, shown here riding Bald Hornet in the 1949 Roseburg rodeo. Hancock has an ambitious schedule lined out, entering the saddle bronc, bareback riding, and steer wrestling events at the fairgrounds when he guns for the local all-around cowboy crown. This fast-riding cowboy is no amateur, having won high honors in Salt Lake, Toronto, Vancouver and Baton Rouge this year.

A tasty warm weather sandwich is made by softening a small package of cream cheese, seasoning it with a little onion juice and mixing it well with about a half cup of finely chopped watercress.

Hamburg steak is good broiled with tomato halves, mushrooms, slices of boiled sweet potato, and bacon slices. This makes a good "one-dish" dinner. Serve a green salad with it and a fruit-and-cocky dessert.

Advantages not found elsewhere at any price make this **America's "4-most" Car**
Hudson's a new kind of automobile in the world today . . . a car whose exclusive "step-down" design is causing the public to re-examine all its old ideas about automobile design . . . a car that's establishing a new measure of motor-car value!
Before you buy any car, we urge you to come for a Revelation Ride in the New Hudson . . . America's "4-most" Car!
1—MOST Beautiful! A low build is the basis for really modern beauty, and the New Hudson, thanks to "step-down" design, is the lowest car of all—yet there's full road clearance.
2—MOST Roomy! The most seating room, leg room to spare, amazing head room . . . the most comfort, as you ride ahead of rear wheels, within the boss frame, down where riding is most smooth, most relaxing.
3—MOST Road-worthy! Hudson, with exclusive "step-down" design and recessed floor, achieves lowest center of gravity in any stock car. Result: the safest, most hug-the-road ride ever known—plus the advantages of unit body-and-frame construction.
4—MOST All-round Performance! Choice of high-compression Hudson Super-Six engine, America's most powerful Six, or the even more powerful Super-Eight. Center-Point Steering for easiest handling. Triple-Safe Brakes for utmost safety. Many more high-performance, low-upkeep features.
