

BUILDING NEWS

Northwest Construction Figure Gains

Permits for construction in 47 Northwest cities were 2 per cent ahead in May over the same period a year ago but dwelling permits were down 14.6 per cent, the statistical department of Equitable Savings and Loan association reported today. However, the total dollar volume of dwellings as compared to the permits increased 19.7 per cent over May, 1948.

During May dollar volume of construction increased in Oregon and Washington and decreased in Idaho and British Columbia. However, for the combined 47 cities included in these territories the dollar volume was 15.2 per cent ahead of last year.

High value building permits recorded during May were as follows: Albany, Ore., school, \$180,000; Baker, Ore., 4-M club building and Baker county civic recreation hall, \$30,000; Caldwell, Ida., Washington grade school, \$200,000, and repair of Lincoln grade school, \$57,000; Coeur d'Alene, new Catholic school, \$85,000; Everett, Wash., court house repairs, \$20,000; Grants Pass, Ore., two-story business building, \$60,000; Longview, Wash., elementary school, \$176,000; Medford, Ore., additions to four city schools, \$429,084; Portland, federal reserve bank, \$1,761,000; 212-unit apartment, \$1,750,000; three schools, \$400,000; church and parish house, \$200,000 and warehouse, \$125,000; Roseburg, Ore., apartment house, \$132,000, and Baptist church \$150,000; Seattle, federal reserve bank, \$2,300,000; apartment and store block, \$1,500,000; city park field house, \$350,000; trailer factory, \$175,000; Lutheran church, \$90,000; school addition, \$150,000; Lerner shop alteration, \$125,000; Springfield, Ore., Safeway store, \$62,730; Vancouver, B. C., John Oliver high school, \$970,000; Victoria, B. C., addition to St. Joseph's hospital, \$175,000, and Yakima, Wash., Yakima Medical Center, \$228,400.

10 Building Permits OK'd

Ten building permits, totaling \$3050, were up for council approval Monday night, reflecting a slow week in building activity.

Industrial building applications okayed by the city dads were repairing roof, Safeway store, 8th and High, \$500, signed by C. Fitzgerald; repair roof, Safeway store, S. 6th, \$500, C. Fitzgerald; and install 500-gallon gasoline tank, 203 Riverside, \$200, Shuck Bros.

Residential applications approved were remodel house, 1904 Huron, \$100, Mrs. U. B. Balentine; remodel and install new foundation, 1029 Regent, \$500, Mrs. John D. Pickering; repair to residence, 1029 N. 6th, \$50, Al Pong; repair foundation, 2033 Auburn, \$200, Julie E. Barlow; build new bathroom, 2239 Gibbs, \$200, Harry Vaghtman; remodel apartments, 1809 Esplanade, \$500, John Ross; and addition to back porch, 1001 Pacific Terrace, \$300, Brady Narey.

NEW PROGRAM
OLYMPIA, July 1 (AP)—A new program for Washington school teachers, beginning in September of 1951, will require five years of college training and one to four years teaching experience in the state for a new general teaching certificate.

"Washington teachers will be the best trained in the nation under the new program," Mrs. Pearl A. Wansmaker said today.

Work Started On Parish Hall Job

Contractors on the new gymnasium and parish hall for Sacred Heart church have started clearing away the old parish hall and getting the lot ready for construction of the \$150,000 addition.

The contract calls for completion of the job the first of the year. The old parish hall back of the rectory has to go to make room for the new buildings which will be made of brick and tile to match the material of the church.

Lions Put Up Stand For Fireworks

Among the firecracker stands that have sprouted up along S. 9th for Fourth of July trade, one erected by the Lions club.

This stand is no mean lean-to with old blankets for sides, but is sturdily made of solid boards, faced with strong wire mesh and lighted at night by neon signs.

Material and labor for this fancy roadside stand, located beside the South Sixth Street branch bank, was donated by members of the Lions club. Proceeds from the sale of fireworks will go to the sight conservation service, main objective of Lions clubs throughout the nation.

The sight conservation service is to supply eye exams and glasses to children who need it.

Outdoor Fruit Stand Added To Market

An outdoor fruit stand employing several new building wrinkles, has been added to the front of Maloney's market located at the "Y" of the Lakeview-Merrill highway.

This 20 by 20-foot structure is fitted with movable flex-o-glass panels for walls. These panels can be taken out entirely, put in on the side the wind is coming from, or all secured in place making a solid wall so that the produce need not be moved inside at night.

The stand is primarily for selling large quantities of fruit and vegetables for canning, so that customers need not wait in turn with other grocery customers in the store when all they want is a few lbs. of fruit.

Harold Mallory, who is doing the building himself as he finds time, started the stand about three weeks ago and will finish it by this season's canning. He plans to do his own hauling of produce for the stand.

Flex-o-glass is an Oregon product, manufactured in Salem.

WILD TIME
McAlester, Okla., July 1 (AP)—A horse, an iron horse, and a horseless carriage all got tangled up in a traffic accident here.

A truck and trailer were smashed. A switch engine was dented. Dobbin, who had been riding in the trailer, shook himself and walked away.

MODERN RANCH OFFICE—This neat, compact building is part of the modern ranch setup on the Poe valley holdings of Don Liskey, Klamath county rancher.

Separate Office Building For Ranches Is Big Improvement

An office building completely separate from the living quarters is a decided improvement in ranch arrangements.

Such a well-insulated tile building has been erected on the modern ranch of Dan and Mable Liskey in North Poe valley, and is a unit by itself, unconnected with the ranch home.

The Liskeys found this absolutely necessary, there being so much traffic in and out of the house on business that their home life was constantly interrupted. It worked the other way too, whenever friends dropped in to see the family, office work was interrupted.

The new building is large enough to accommodate all the necessary office paraphernalia and to hold business conferences and is modern in every way.

Time Mix-Up Headache For Whole State

SALEM, July 1 (AP)—All will be confused if Oregon's daylight saving time law becomes effective July 16, Attorney General George Neuner said Thursday.

The law provides for standard time over the whole state unless the governor proclaims daylight saving time. There is a move to refer the law to the people, and thus hold it up until the November, 1950, general election.

Neuner said that if the measure becomes effective and if the governor doesn't proclaim daylight saving time, these things will happen:

1. Cities which now are on daylight saving time will stay that way, because there isn't anything in the new law to make a local ordinance void.
2. Courthouses in cities on daylight time will have to change to standard time.
3. State offices in Salem and Portland will have to go back to standard time.

Cloud Control Attempts Made

MEDFORD, July 1 (AP)—Cloud-seeding experiments to protect the pear crop from hail are being conducted over the Rogue River valley with dry-ice pellets, the peak formations can be lowered to an altitude where there is no longer a danger of hail.

Two former navy pilots, Harvey M. Brandau and Eugene K. Koozer, have been seeding cumulus clouds at 15,000 feet or more. Unusually clear weather has made results inconclusive.

The tests are being sponsored by the Rogue River Valley Traffic association.

Chiloquin History Study Set

CHILOQUIN, July 1—The history of Chiloquin as a study in anthropology and sociology is the basis of an eight weeks' project being undertaken by Dr. Theodore Stern of the University of Oregon anthropology division and the three students taking a summer school work under his direction. The emphasis will not be on personalities but on racial groups and on organizations and labor.

The group is spending the first weeks in getting acquainted with the town, its surroundings and its inhabitants, listing names of those who will be able to trace various phases of the comparatively new city, which was incorporated only 23 years ago. The last project on this order done by Dr. Stern was in the state of Virginia where the family trees and written material dated back some 350 years.

Material gathered this summer will give the basis for a research paper and possibly will later be incorporated into a broader writing including the entire reservation. Chiloquin is thus the basis of anthropological work for three doctors this summer: Dr. Robert Spencer of the University of Minnesota, who is doing a race and culture study; Dr. S. L. Cressman, who is continuing his work of the past two summers in determining the extent of life in this area long before the memory of present men, and Dr. Stern, who is tracing the history of the vicinity since the coming of the white man.

With Dr. Stern are Hiram Zakoff, a senior at the University from Portland; Eleanor Ribbons, a former Wave from New Jersey, who now calls Portland home, and Patricia Marks, from the University of California, who moved here from England, where she had served in the Wrens, since the war's end.

Four-H News

The Bonanza Can Can club met at the home of Janey Dixon, June 23. Roll call was answered by each person giving what they had canned or frozen.

The club talked about the activities for the year and decided to have a demonstration day. They also decided to send the fruit they canned to other children's homes. Mrs. Frazier and her garden club will exhibit with them.

Lois and Louise Hubble will demonstrate on canning containers. Ruth Bradshaw and Arleen Reimann will demonstrate on freezing containers. The club also discussed pressure cookers.

HAZEL BRADSHAW, News Reporter.

Medicine Lake Cabins Go in Up

Five new summer homes are now under construction at Medicine Lake Siskiyou county spot that is growing increasingly popular as a summer resort.

Charles K. Wiese, Tulelake real estate broker, is exclusive agent for Medicine Lake property. He reports that deeded land with shore front is now available. He will be at the lake Sunday.

Two former navy pilots, Harvey M. Brandau and Eugene K. Koozer, have been seeding cumulus clouds at 15,000 feet or more. Unusually clear weather has made results inconclusive.

The tests are being sponsored by the Rogue River Valley Traffic association.

O-C Timber Sales Slated

Approximately 15 million board feet of timber in the Klamath O and C timber unit will be put up for sale during 1950 under a new plan of sales procedure mapped out by the bureau of land management.

The timber is in the Jenny creek and Klamath river administrative unit.

The plan will allow all prospective buyers to know in advance where and when tracts of land will be offered for sale and is expected to have the effect of getting a maximum of competition in the sales and also to allow lumber companies to plan operations in advance with certain knowledge that tracts of O and C timber will be put up for sale at designated times throughout the year.

Assault Charge Filed In Holdup

PORTLAND, July 1 (AP)—Assault charges have been filed against two men arrested here Thursday morning in connection with the attempted holdup of a Portland night club owner, Barney Morris, on June 4.

The men, Charles Lee Anderson 27, and John Joseph Vetter, 28, were identified by Morris. Their bail was set at \$500.

Two men forced the night club operator into his car in downtown Portland early on the morning of June 4. Morris said one man sat beside him and made him drive his car while the second man followed in another car. He managed to escape both of them by running into a parked automobile and racing away on foot.

CHAPCO... Nature's Wood Improved 100-Fold!

HUNDREDS OF JOBS CAN BE FINISHED WITH CHAPCO BETTER, EASIER and CHEAPER!

CHAPCO Resinized BOARD It's the New, Improved Hard Board with 1001 Building & Repair Uses

- ✓ Check Chapco-Board for Hardness and Strength! Chapco-Board IS wood—Improved wood for today's building! It's nature's wood made tougher and longer-lasting, with a smooth, better-resistant surface.
- ✓ Check It for Easy Workability! For all its toughness, you can easily work Chapco-Board with hand tools.
- ✓ Check It for Moisture Resistance! Because it's resinized, Chapco-Board is highly resistant to change under excess moisture. Properly varnished or painted, it will last longer in any weather!
- ✓ Check It for Beauty of Finish! See how beautifully the natural light wood surface of Chapco-Board comes up under wax, stain or varnish. Check, too, its ability to take any exterior or interior finish, from paint to plaster finish.
- ✓ Check It for Convenience! Chapco-Board is easy to use. It is available in 4-ft. x 8-ft. panels in 1/8, 3/16, and 1/4-in. thicknesses.
- ✓ Check Chapco-Board for "3-Way Economy"! You'll save on building time and labor costs because Chapco-Board works easier; constructs faster... You'll cut repair and upkeep expenses because it lasts longer... And YOU'LL SAVE MONEY NOW because it's PRICED LOWER!

✓ CHECK IT FOR ANY HOME, FARM OR BUSINESS NEED
