

### 4-H Summer Camp Slated At Crescent

Klamath county 4-H club members are busy planning to attend the annual summer camp. This year the camp will be held at Crescent lake from July 17 to 30, the club office reported.

A few openings are still available for club members in good standing. Anyone interested must sign up and pay fees at the club office immediately. Girls will attend camp from July 17 to July 23 with boys in attendance the second week.

Camp counselors will have a special orientation program at the camp July 14, 15 and 16 under the direction of the local club office and the national 4-H recreation program. Percy Gill, physical education instructor at Oregon State college will represent the national program. This is the first such counselor training program to be given in Oregon for 4-H camps and other counties have been invited to participate.

The 4-H camp program will include crafts and special activities as well as the sports program. Special instructors will include Mrs. J. E. Eichendorf of Klamath Falls, Lorna Peck, local home demonstration agent; H. C. Seymour, former state 4-H club leader; Jessalene Mallieu, extension recreation specialist, and Charles Ross and Verne McDaniels of the forest service.

### Pegler Blasts Labor Chiefs

WASHINGTON, July 7 (AP)—Communist Westbrook Pegler said today that labor unions in this country "have become infiltrated with despots, criminals and communists."

Rank and file members have "little or no" voice in their organizations, he added.

Pegler appeared before a house labor subcommittee investigating undemocratic practices in unions. The chairman is Representative Jacobs (D-Ind.), a freshman and a former Indianapolis labor lawyer.

"The government has long ducked the communist question in unions for political reasons," Pegler said in a statement he read to the subcommittee. "Yet we have union after union completely dominated by communists and pro-communists and run by them."

"An instance of this, and only one of many, is the United Electrical Workers. Not very long ago the atomic energy commission told the General Electric company not to deal with the United Electrical Workers because of its red domination."
