## Sunday School Attendance Up

The Rev. Martindale Woods announced that he has chosen for the theme of his "Summer Sunday" sermon, 11 a. m. July 17, the title of the familiar old ballad, "When the Roses Bloom."

Constance Hunt will be the soloist for the morning worship service at 11 o'clock and Mrs. John O'Connor will be at the console of the organ presenting three special organ numbers incidental to the church service.

The Methodist church is one of the churches maintaining a regular Sunday school session throughout the vacation months. Last Sunday a fine attendance attested the support the people are giving this program this summer. More than half the regular attendance was in evidence. Even though many of the regular members are absent on vacation, summer attendance holds up well because of the attendance of church-minded visitors passing through.

## WHY WE SAY

## Storm Brews Over England On Dollar Purchase Slash

LONDON, July 15 (AP)—Britain's plan to slash dollar purchases 25 per cent caused a storm in the London Morning Press today. All newspapers except the labor (government) party organ took a dim view.

Sir Stafford Cripps, Britain's economic boss, told the house of commons yesterday cuts will be made in purchases of cotton, steel, non-ferrous metals, timber, paper, pulp, tobacco and sugar that have to be paid for in dollars.

He said Britain would try to buy them outside the dollar zone.

To which the conservative Daily Telegraph asked why, if these things could be bought without using dollars, Cripps had not done so earlier.

The Financial Times, London equivalent of the Wall St. Journal, opposed the plan saying:

"Alternative sources of supply might be in high-cost non-dollar areas. The result of obtaining them must therefore be to increase our prices and to make the solution of the main problem—reduction of British costs—all the harder.

Britain must buy raw materials to make the goods she sells in dollar areas.

The Times said it was hard to see how dollar-import cuts will "allow industry to keep up its recent rate of business."

The liberal News-Chronicle said: "By cutting our imports of raw materials we are making it much harder to achieve the free play of competition which alone can lead to the greater industrial efficiency which the chancellor (Cripps) asks."

## Normal Crop Forecast For Oregon Farms

PORTLAND, July 15 (AP)—The Oregon harvest is expected to be back to normal this year.

There will be few bumper crops and few failures, the federal crop reporting service indicated.

The fruit harvest, however, will be the best in years. Niels I. Nielsen, federal forecaster, said. He forecast that Bartlett pears would reach a record 2,438,000 bushels.

The peach crop was estimated at 860,000 bushels, about 45 per cent above last year; and the apple crop at 2,800,000 bushels, about five per cent higher than 1948.

Hay field crops will be 15 per cent below last year's yield, but will be close to the 10-year average.

The wheat harvest is estimated at 21,638,000 bushels, about 22 per cent under last year. Feed grains are expected to be 10 per cent elower and hay eight percent under 1948.
