IN MEMORIAM

For Mrs. George Farrier who passed away July 17, 1946.

There must have been a vacant spot in heaven high above for He took our dear sister to fill it with her courage and her love.

Resting there with other loved ones, a smile is on her face and although we miss her here each day, we know, dear God, you've made her happy there up in that wondrous place.

MRS. LORRAINE MAYE,
MRS. MARY BERRY

Lightning Fire Quelled

Fire which started on Fremont national forest land Thursday night from a lightning strike was reported under control Monday morning. It burned in timberland south of Fish Hole mountain and west of Dog lake.

Most sections of the country are dangerously dry, and extreme caution when traveling through forests is recommended by fire protection authorities.

WHY WE SAY "PHOTOGRAPH"

The word "photograph" was manufactured from two Greek words, "photo" for light, and an abbreviation of a Greek verb meaning "to write." A literal translation would be "written in light." At first it was as technical as all new scientific words, but through use has become common to mean either "a picture" or "take a picture."
