FLOUR BUYING BOOSTS WHEAT

CHICAGO, July 22 (AP)—A renewal of flour buying, both from private and government sources, sparked an upturn in wheat on the board of trade today.

The government purchased flour equal to only 317,361 bushels of wheat, but purchases by a large chain baker were much larger. As a result, mills were good buyers of wheat futures.

Trading in July futures was closed out without any excitement, except in soybeans. The July contract there rose to \$2.78, a new high since trading in the delivery started last November. But it fell back from that level.

July wheat ended 1/4 lower to 1 cent higher at \$1.99-2.00 1/2, July corn 3/4 lower at \$1.39-1.36 1/2, July oats 1/4 lower to 2 cents higher at 68 to 64. July rye 1/4 lower at \$1.52, July soybeans 7 1/2 to 10 cents higher at \$2.70-2.82, and July lad 22 cents a hundred pounds lower at \$11.15.

Market On Quiet Side

NEW YORK, July 22 (AP)—A flurry of demand for airline stocks stirred the surface of a placid market today. A couple of air transport issues climbed to new 1949 highs. The balance of the market jugged along uneventfully, with fractional gains and losses, thoroughly mixed.

Turnover was at the rate of about 750,000 shares for the full session, less than any other day this week.

Interest in airline issues apparently stemmed from current operating reports. United Air Lines, for instance, today disclosed a sharp increase in second quarter earnings. American Air Lines and Transcontinental and Western Air each hit new peaks for the year during the day.

Also ahead were Western Air Lines, United Air Lines, General Motors, Studebaker, Woodworth, General Electric and American Woolens.

Lower were Bethlehem Steel, Chrysler, Goodrich, Columbia Gas, Dow Chemical, Standard Oil (N. J.), and U. S. Gypsum.

PEASANTS Study Soviet Agriculture MOSCOW (AP)—Thousands of peasants from Eastern European countries have been visiting the Soviet Union and learning about Soviet agriculture. For instance, three delegations of Polish peasants have made extensive visits to the Soviet Ukraine.

PHILADELPHIA, July 22 (AP)—Little Melvin Hill "is over the worst" of a series of skin grafting operations to repair the damage caused by a blast of kerosene last December 9.

AT LAST—Recently Angela Lansbury, London-born film actress, was heard to complain that as long as she had been in Hollywood no one had ever photographed her in a bathing suit at the beach. Happily, this unheard-of situation has now been corrected, with the above results.

MIAMI, Fla. (AP)—T. E. Rakestraw, Miami policeman, has completed a mission that friends believe is deserving of some sort of medal. Rakestraw was sent to Atlanta, Ga., to pacify the tempers of some 40 Atlantians who had received notices from the Miami police department to "please remit \$3" for traffic violations.

THE hitch was that none of the Atlantians who had been in Miami April. Miami police thought the 1948 tags were still in effect. The violators were listed under 1949 numbers.

When a local wrecking concern began razing the old Hotel Henry this spring to make way for the new U.S. Steel-Mellon Bank building, passers-by were invited to guess when the site would be leveled. Burns, a Bureau of Internal Revenue agent, stopped by on his lunch hour one day, gave the project a cursory glance, and guessed exactly right.

ROME, July 22 (AP)—Italy's poor lists—persons eligible for state or town assistance—total more than 3,500,000 names. Official statistics published today show that there are 412,801 persons living in 6292 poor houses in the country, while 1,635,664 others receive free meals from 17,131 special relief stations.

The special relief lists of Italy's 7195 municipalities carried 3,564,142 names on June 30. A light and delicious summer dessert is made by poaching meringues in hot milk, then using the milk to make a soft custard sauce. Serve with sliced sweet peaches.

Then I ran out of skin," the doctor explained. To add to the dilemma, part of the area from which the good skin was taken failed to heal because of Melvin's condition.

Dr. May said in desperation he decided to use the skin of another person, though such grafts, he emphasized do not always take permanently except with identical twins.

Melvin's father, Martin, volunteered and came to Philadelphia for the operations. With skin taken from his father, Dr. May said he now has covered almost 90 per cent of the area which needed grafts.

That was the good word today from the five-year-old boy's doctor, Melvin May, who says of his patient: "He's one of the nicest little boys I've ever seen."

Melvin, one of 10 children of Mr. and Mrs. Martin Hill of Flemington, Pa., suffered third degree burns from his waist down as he poked a kerosene-covered shovel into a furnace. He spent four months in a hospital before he was brought to Lankenau hospital in Philadelphia last April for a long series of skin grafting operations.

"He was just a ghost of a little boy when he came," Dr. May recalled. Dr. May said he used skin from the child's own back for the first operations to cover both ankles, legs and part of his thighs.

BUILDING NEWS

New Roofing Gets Write-Ups In Magazines Klamath Falls Roofing Inventor C. R. Grems, who developed an unusual and practical type of roofing material, has had his article written up in five recent trade journals as well as one of the Portland papers. The Klamath Falls Herald and News carried the article last year.

Trade organs to carry the story during the last three months are "Pacifi Factory," "South Western Purchasing Agent," "National Roofers," "New England Equipment Digest" and "Architectural Products."

Besides this publicity, serial pictures of the Ralph Smith Lumber company plant buildings roof with the new material, were shown at a recent exhibit in New York for architects.

The roofing substance developed by Grems is called "Thermo-plastic" and is an elastic material said to expand and contract as necessary according to the weather, is flame resistant and deflects harmful sun rays.

It contains certain properties including aluminum and copper and hydro-carbon compound in certain quantities. Thermo-plastic roofing is protected by patents.

Communion To Be Held At Lutheran Divine worship with Baptism and Holy Communion will be held at 11 o'clock Sunday morning at Klamath Lutheran church. The pastor, Rev. Irvin Tweet, will preach "God's Law in Modern Life."

Sunday school and Bible classes meet at 7 p. m. Mission circle will hold a picnic at 12:30 p. m. Tuesday at Moore park. Mid-week Bible study on "The Life of Jesus," taught by Pastor Tweet will be at 8 p. m., Thursday. Children's chapel is broadcast at 8:30 a. m., Saturday.

Good Guess Pays Off With Prize PITTSBURGH (AP)—Mr. and Mrs. Timothy Burns and their five children are enjoying a new \$40 television set at home these days because Burns is a good sidewalk superintendent.

Robeson Still 'A Radical'

NEWARK, N.J., July 22 (AP)—I'm a radical and I'm going to stay one," Paul Robeson told a cheering crowd of 1000 at a mass meeting at the Mosque theatre last night.

Outside the theatre, the Negro baritone singer did not receive such a warm welcome. Some 30 members of two veterans organizations marched up and down chanting: "Go back to Russia. We don't want you. Get out of New Jersey."

The former Rutgers university football star, who was born in Princeton, spoke of imperialism, Russia, money interests and the plight of the suppressed Negro in the course of a rambling, 40-minute speech at the rally.

Twice Robeson mentioned the "Trenton six," six Trenton Negroes accused of the hold-up-slaying of a shopkeeper. The six men now are awaiting a new trial after the New their murder convictions and death sentences.

The "Trenton six" as the case has been named by the civil rights groups, was the theme of the money-raising mass meeting.

RECHRISTENING ALBANY, July 22 (AP)—The Disabled American Veterans here have renamed Oscar, rechristening their mascot duck Lulu Belle.

The duck has been handed from member to member, each of whom had to care for the fowl until he had recruited a new DAV member.

The rechristening resulted when one DAV was started by an egg laid by "Oscar." More eggs were laid—so the name was changed.

Rev. Lane Takes On College Post WILKES-BARRE, Pa., July 22 (AP)—The Rev. John J. Lane today was appointed president of King's college of Wilkes-Barre. Father Lane at one time served as director of studies and veterans affairs of the University of Notre Dame.

King's college was founded three years ago by the congregation of the Holy Cross.

Father Lane, a native of Staten Island, N. Y., also formerly was principal of Columbia preparatory school, Portland, Ore.

UNWANTED ASTORIA, July 22 (AP)—Nobody seems to want historic Fort Stevens. Officials of Hammond, Ore., were almost the only ones to show interest in acquiring the fort, at a meeting held by WAA officials. Hammond would like some of the land and buildings for schools.

The game commission said some of the 1900-acre reservation might be suitable for a game refuge.

OPPOSITION PORTLAND, July 22 (AP)—This city's new business tax and licensing ordinances are under fire in the courts.

Six automobile firms have filed suit arguing the gross sales tax is confiscatory and unconstitutional. Their complaint says that their taxes under the ordinance would wipe out profits.

The 23 new ordinances passed this year were aimed at raising up to \$3,000,000 annually.
