

Oregon Tech Registration To Open August 1; Courses Added. Tuition Cost Down

Full term registration opens at Oregon Technical Institute, August 1. Classes open on the following day for the 11 month school year. All students registered between the first and twelfth of August receive full credit.

Tuition and fees have been substantially reduced according to W. D. Purvine, director at Oregon Tech. During the first two years tuition was \$200 per month but new rates average \$300. Advance registration is high indicating maximum enrollments for several courses.

All courses in the school of business education are now on a \$24.00 per month base. For the three and two-thirds month term, this tuition is \$72.00. Five business education courses are offered: accounting, bookkeeping, retail business management, general office and business practice (secretarial science) and medical dental office assistant.

School of technical education courses tuitions are reduced to \$30 monthly. Courses include commercial art and design, medical technology, office equipment repair, radio communications, radio servicing, sewage plant operation, silk screen processing, and watchmaking.

In the school of trade and industrial education all but six courses are also in the \$30.00 tuition group. Auto mechanics, automotive electricity and motor tune-up, auto machinist, baking, cabinetmaking, carpentry, diesel mechanics, dry cleaning, electrical repairmen, farm mechanics, refrigeration servicing, and sports equipment manufacture and repair, are included. The six with higher tuition are auto body and fender repair, auto painting, automotive radiator repair, welding, gunsmithing, and machine shop.

Total tuition, fees and living costs, are about the same as other state terminal education schools, it was stated. Enrollment estimates for the beginning of the fall term were between 200 and 300 students. Advance registration has already passed the 475 mark with later registrations exceeding sixty which brings the total of applications to over 520. In the total of 22 courses, there will be thirty-nine instructors.

The institute was changed to a three term operation for the first time this year. Organization and tuition charges were approved by the Oregon state board of education which governs.

Lucky Guess? No! Just Mathematics

MONMOUTH, July 28 (AP)—Directors of the Sweet Home festival may have thought a lucky guess would win a \$100 bond offered for the best estimate on the weight of a Douglas fir log, but they failed to reckon with Mrs. May Dimick of Foster.

Mrs. Dimick, a school teacher enrolled in the summer term at Oregon College of Education, got the log's dimensions and went to work on the problem with fellow students in Prof. Matthew Thompson's mathematics class.

After study of kiln dry tables, waterlog tables, drafting an average diameter chart and similar matters, the class came up with an answer—the \$100 answer.

The class estimate submitted by Mrs. Dimick was only a few hundred pounds off on the 17-ton log.

Another woman, Mrs. Will Hessman, wife of a log scaler, was second.

US Treasury Facing Big Problem

NEW YORK, July 28 (AP)—The United States treasury must resort to some deficit financing in the fiscal year that began July 1 "unless very substantial cuts can be made in contemplated federal expenditures," the federal reserve bank of New York said Wednesday.

"The fiscal repercussions of the current economic readjustment point to that conclusion, the bank said in a study reviewing the past year's developments in treasury financing.

Treasury financing in the fiscal year ended June 30 reflects the various changes that the economy is undergoing, the bank said. The past 12 months, it added, represented a "year of transition."

Rising corporate and personal income, personal savings, production and consumption marked the first half of the past fiscal year, the bank pointed out. However, a turning point came in the first months of calendar 1949 when income, production and consumption began to shrink, although savings continued to increase.

Since, however, most of the government's income tax receipts in fiscal 1949 were derived from the high personal and corporate incomes of calendar 1948, they were "fairly well sustained," the bank said.

Reds Check US Movies

MOSCOW, July 28 (AP)—A Soviet committee is viewing privately today the Bing Crosby film "Going My Way." It is one of 24 Hollywood "Going My Way" is a story about a Roman Catholic priest.

Other American films being reviewed by the selection committee include "Anne and the King of Siam," "The Johnson Story," "State Fair," "Ciolek and Danger," "Jungle," "Caravan" (American title: "Bring 'Em Back Alive"), "The Egg and I," and two Deanna Durbin pictures.

The arrangement for the preview was made by Eric Johnston, president of the motion picture association of America, when he visited Moscow last Autumn.

No Waist Seam!

MARIAN MARTIN
Sew it now as your favorite sundress with fore 'n' aft pockets, heart neckline. Sew it later, as the smartest jumper and blouse that ever took issues to classes!

Pattern 9141 comes in junior miss sizes 11, 13, 15, 17. Size 13, a undress, 4 yards 35-inch.

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.

Look feminine for masculine eyes! A glamour wardrobe in our Marian Martin Fashion Book. On its pages are the most beautiful summer styles, designed to sew easily, to make your fashion dollars go further than ever! Plus a FREE pattern printed in the book, a child's beach robe made of towels. Send fifteen cents more for this book of Summer 1949 fashions!

OFF TO DETROIT—Here are the four singing House brothers, Tom, Bill, Dave and Dan, with their parents, Mr. and Mrs. J. E. House, snapped in front of the new Hudson which the boys will drive on their trip to Detroit. The brothers will attend the Eagles lodge convention in Detroit where they will defend their title as national quartet champion of the Eagles, which they won last year at Seattle. They also won the state championship in the recent Eagles state meet at Pendleton.

Power Peak May Be Less This Winter

EUGENE, July 28 (AP)—This year's winter peak in power requirements for the Willamette valley and Umpqua is expected to be lower than last year's critical period, Bonneville Power Administrator Dr. Paul Raver told the Eugene water board Tuesday noon.

The power chief spent most of the day in sessions with Lane county electric co-op, the city council of Springfield and the water board.

Raver said that by October the twelfth generator will go in between Grand Coulee and Snohomish. He reported that prices have gone down considerably—with lower right-of-way bids and a big drop in equipment prices.

The Goshen substation, with completion date set for December of 1951, is expected to cost about three million dollars, and the breakers will cost another million.

"There is a question of use of spare transformers at \$240,000 each. At present BPA is working on the idea of two movable transformers mounted on railroad cars, one in Oregon and one in Washington.

Raver said there has been no problem of conflicting jurisdiction between various agencies concerned with power, flood control, irrigation and navigation, because there are at present only two dams, Bonneville and Grand Coulee.

"It might be a problem later," Raver said. "Now we have the Columbia interagency committee, but even assuming that we had long range weather forecasting for example, there would be no agency to handle such information."

Video Pickup Confirmed

SEATTLE, July 28 (AP)—A federal communications officer confirmed today that Seattle telecasts are being picked up 125 miles away at Astoria, Ore., and relayed into a home-town wire network.

G. V. White said Ed Parsons, Astoria radio man, had kept the FCC office here informed of his video experiments. Robert Priebe, manager of Seattle TV station KRSC, said Parsons also had the station's permission to relay its shows by either cable or rebroadcast.

Parsons revealed yesterday that he supplies 25 homes and taverns with television shows from Seattle. He said his equipment picks up the Seattle signal, amplifies it and relays it over a private coaxial cable network. The cable does not fall within FCC jurisdiction.

Parsons said he is prepared to rebroadcast the signal direct, thus widening his field and eliminating the cable. He hopes to get FCC approval for the direct rebroadcast.

McGrath To Be KC Speaker

PORTLAND, July 28 (AP)—Sen. J. Howard McGrath of Rhode Island, democratic national party chairman, will be a speaker at the national convention of the Knights of Columbus here August 16.

McGrath will address the states dinner the night the convention opens. Secretary of the Navy Francis P. Matthews is also scheduled to speak.

Dan Hay, convention general chairman, said the Catholic laymen's organization will meet through August 18.

Wire is estimated to have 150,000 uses.

Power Peak May Be Less This Winter

KOBE, Japan, July 28 (AP)—That ticking noise the doctor heard in Yukio Abe's stomach was genuine—it was a gold watch with a chain 12 inches long attached.

Police said Abe swallowed it when they arrested him for picking

Architect Arrives Here

Third and senior partner, Edward N. Hewitt, of the architectural firm with offices in the Pine Grove school house, arrived this week from Birmingham, Mich.

Other partners in the firm are Murdo Morrison and John R. Howard who came here in April.

Hewitt has been practicing architecture for 10 years. He studied at the University of Michigan and worked under Eilii Saarinen for six years. He is a member of the American Institute of Architects and one of the first houses he designed is listed in the Detroit Institute of Arts as a permanent exhibit. The plans are with the traveling tour of the institute through Michigan this year.

All three of the young architects have been voted into the newly-organized Klamath Yacht club.

Hewitt's wife, sons Bobbie and Tommy and daughter Judy are with him. He hopes to build a home in the vicinity of the office eventually.

Makes Mud Nest
When certain rivers in South Africa dry up in summer, a curious kind of fish, called mudfish, makes itself a nest in the mud and waits for the river to fill with water again.

Tommy Duncan To Play Here

Tommy Duncan, famous cowboy singer, formerly featured with Bob Wills, brings his newly-organized Western All-Stars to the Armory Wednesday, August 2.

Each musician in the "Tommy Duncan aggregation" is a featured artist in his own right, lending weight to the belief that Duncan's All-Stars are among the finest western musical combinations of all time.

The band is composed of such stellar names as Noel Boggs on steel guitar; Millard Kelso, piano; Jimmy Wyble, guitar; Ocie Stockard, fiddle; Dave Coleman, drums; Cameron Hill, guitar; Joe D. Holly, famous left-handed fiddler; and Glen Duncan, Tommy's brother, doubling on bass and vocals.

SLOW
LONDON, July 28 (AP)—William George Broderick lived only 13 days with his wife back in 1926. But he waited 33 years before going to court to divorce her on grounds of adultery.

The 87-year-old husband explained he hadn't been able to afford it before.

Attention Farmers: Now is the time to order your hail insurance on your crops. Hans Nordland Insurance, 627 Pine street.

EDWARD N. HEWITT, senior partner in the architectural firm which purchased the business of the late Sheldon Brumbough, in Pine Grove, has arrived with his family from Michigan.
