WHEAT MANAGES SMALL GAIN

CHICAGO, July 29 (AP)—A firm tone in September contracts helped the rest of the grain market today. September wheat and corn advanced around 2 cents at times.

Some buying in wheat came from the Southwest. Cash prices in that area gained around 1 to 2 cents. A belief persisted the Kansas City office of the commodity credit corporation would soon take a more active interest in the cash wheat market.

Wheat closed ½-1½ higher, September $2.06½-⅝, corn was ¼-1⅝ higher, September $1.30-1.30¼, oats were ⅛ to 1 cent higher, September 65⅝, rye was ⅝-1⅝ higher, September $1.54⅝. Soybeans were 2½ to 4 cents lower, November $2.36-2.36½, and lard was 8 to 17 cents a hundred pounds higher, September $12.12-12.07.

Comeback For Stocks Seen

NEW YORK, July 29 (AP)—Faint signs of a comeback developed in the stock market late today after a slow early decline.

Gains were either trimmed or eliminated for many leading shares.

Business was slower than any other day this month, with turnover at the rate of only 600,000 shares or so.

Bethlehem Steel's record earnings report for the first half of the year, announced after the close yesterday, had just as little effect on price trends as did the excellent income statements of U. S. Steel and General Motors earlier this week.

Bethlehem Steel common dipped around three-eighths at one time but other steels held steady.

Tending to hold back were U. S. Rubber, Montgomery Ward, American Smelting, Dow Chemical, American Woolen, Santa Fe and Standard Oil (N. J.).

International Silver took a bad spill in the wake of a poor earnings report.

Spud Support Clamp Asked By Committee

WASHINGTON, July 29 (AP)—A house agriculture subcommittee today declined to recommend that mandatory support prices for potatoes be withdrawn unless growers consent to production and marketing controls.

Chairman Pace (D-Ga.) said that because producer representatives object to present consideration of his bill to allot acreages, impose marketing quotas and penalize non-cooperators, the measure will be dropped.

He said the present support program "penalizes cooperators, rewards non-cooperators and thereby costs the government more than is justified.

"Therefore, the committee feels obligated, until appropriate legislation is enacted, to recommend that the secretary of agriculture be given discretion in determining at what level, if any, he will support the 1950 crop."

Potatoes are the only perishable commodity now having mandatory price supports. They are supported at 60 per cent of parity—a figure calculated to give the producer a fair return in relation to things he buys.

Traffic Death Toll In US Still High

CHICAGO, July 29 (AP)—The nation's traffic death toll for the first six months of 1949 was 13,816—only 100 lower than for the comparable 1948 period.

The national safety council, which reported the figures today, said that a five-month comparison, however, showed that the nation's motorists rolled up six per cent more mileage this year than last, and the ratio dropped to 7 deaths per 100,000,000 miles of travel.

This compared with a rate of 7.2 per cent for the equivalent period last year—the previous low rate.

Twenty-two states reported fewer deaths for the first half of 1949.

The largest of the communities with perfect records were New Bedford, Mass., Pawtucket, R. I., and Cedar Rapids, Ia.

*Leading cities in each population group for the first six months of 1949, ranked according to the number of traffic deaths per 10,000 vehicles, include:

200,000 to 500,000—Portland, Ore., 1.1; Oklahoma City, Okla., 1.4; Newark, N. J., 1.7.

10,000 to 25,000—Richland, Wash., Ventura, Calif., and Holland, Mich., all 0.0.

Fifty two U. S. insurance companies have home offices in Connecticut and more than two million dollars in cash premiums pour into the state daily.
