SP Schedules In Oregon Revised

With the inauguration of the new Shasta Daylight, the Southern Pacific revised their train schedules between Portland and central and southern Oregon points. Train 20 now leaves Klamath Falls at 10:10 a. m. and arrives Portland at 8 p. m.

The Northern Pacific railway announces effective August 7 their new streamlined, diesel-powered North Coast Limited will leave Portland at 9 P. M. for the East. According to A. C. Stickley, general agent, Portland, a recent visitor here, this will afford southern and central Oregon travelers a very convenient connection to Montana and North Dakota cities, to Minneapolis, St. Paul, Chicago and other eastern destinations.

Floor Sander Rouses Fears Of Huge Fire

Residents of the Monclair street district, behind the high school, were roused from their sleep and late evening activities last night by the continuous whine of sirens seemingly passing nearby.

Numerous phone calls made to the separate city agencies that would have a siren, as well as the local ambulance service, found nothing on that would bring the sirening vehicle out.

But the thing kept on screaming out in the night. Finally a weary resident crawled out of his bed, pulled on his robe and slippers, and stepped outside to give a personal check to the situation.

He found it! It seems that A. D. Shanks, 1124 Monclair street, was doing a late-evening sanding job on the floors of his home.

Brace Up Men, Just Look And Shudder At 'New Look'

NEW YORK, Aug. 9 (AP)—Park your coats on that hitching post, gents, and let's amble down Fifth avenue while the women folks are fanning their marshmallow sundae.

The big stores with the chromium-plated floorwalkers broke out a few million dollars' worth of female fall finery over the week-end, and you might as well see what you're going to get tickled for.

Pay no mind to all that fancy advertising. Here's what it boils down to:

The French new new look is battling it out for the national fashion title with the American back-to-the-1920's look.

You should worry which one wins. Either way, it's going to cost you. This window here—that bunch of stuff on the mannequin with her nose in the air—that's the new look.

How does it differ from the old new look? Well, the hem hangs higher. Thirteen and a half inches from the floor. Remember that! You

might be asked about it on a give-away program. Also, the new new look has something called a floating panel, not to be confused with floating power. The floating panel is a kind of mis-placed rib. It hangs down from the waist, apron-wise. Now then, in the next block, the new old look. Gad, what memories it brings

back—Cal Coolidge, the Charleston, Clara Bow, prohibition. The light, or hobble, skirt is back. Short, too—way up what we used to call the limb. And get that waist-line, half-way down the hip. To say nothing of the baggy coat, John Held Jr., 'style. Let's face it, men—the oatmeal box figure may be on its way back. It's Mighty . . . and Alive!
