

Albanians Charge War By Greeks

LONDON, Aug. 10 (AP)—Albania said today she is being invaded by Greece and that fighting is in progress along a 30-mile front.

A broadcast by the official Tirana radio said bloody clashes with Athens government troops began four days ago.

It added that hundreds of Greek soldiers have been killed or taken prisoner.

A spokesman for the Greek information service in London said, "There is certainly no invasion."

He said the Albanian report probably referred to the new offensive launched by the Greek army against the communist-led guerrillas in the Gramos mountain area not far from the Albanian border.

The Albanian invasion charge, which coincides with an all-out offensive by the Greek government against communist-led rebels, was made by the Albanian ministry of armed forces.

The official broadcast monitored in London also quoted the communist newspaper Zeri i Popullit (Voice of the People) on details of the fighting.

The Greek government has asserted repeatedly that Albania is used by the rebels as a haven when hard pressed and as a jumping off place for fresh forays into Greece.

Zeri i Popullit said hundreds of Greek "royalist fascist" troops have been killed and captured by Albanian soldiers in the border outbreak.

It added that Albanian troops have "shed pure blood" in defending their country's sovereignty.

The government charged bitterly that Greek army aircraft and artillery had bombed, shelled and strafed hundreds of Albanians on a 30-mile front between Leskovik and Boshgrad, just inside Albania on Greece's northern border.

The ministry said Greek planes had been shot down by "our brave troops."

It charged hundreds of border violations by the Greek army during August 6, 7, 8 and 9.

Skipper Has Big Problem On His Hands

SAN FRANCISCO, Aug. 10 (AP) Flora is expecting.

What makes it news is that Flora is an elephant aboard the American President Lines freighter President Taft, four days out of Yokohama.

The vessel's skipper, Capt. W. S. Tyrrell, retreated into silence after messaging laconically that Flora's monumental labor was not far off.

The Taft is due here next Tuesday with a load of animals for the Los Angeles zoo. There was every indication Flora would be a mama before then.

Carey Baldwin, director of the San Francisco zoo, expressed fear Flora and her offspring might be "killed by kindness."

He explained: "It's tricky business, but all they have to do is to leave Flora alone and give her plenty of privacy and she'll have her baby all right."

Once born, the baby should be taken from the mother, Baldwin said, because sometimes mother elephants "exhibit maternal tendencies." The calf should be bottle-fed, he said.
