

Ram Sale To Be Held in Pendleton

Oregon's largest and oldest ram and ewe sale, the twenty-third annual Oregon ram sale will be held in Pendleton, August 19, starting at 10 a. m., the sponsoring Oregon Wool Growers association has announced through its secretary, Victor W. Johnson, Umatilla county extension agent.

Consignments from 19 top breeders in the western states include 345 rams and 120 ewes representing 9 breeds, Johnson states.

Breeds to be offered include Rambouillet, Lincoln-Rambouillet crossbred, Columbia, Columbia crossbred, Corriedales, Lincoln, Suffolk, Suffolk-Hampshire crossbred and Ham-aires.

Sale sifting committee is composed of Harry Lindgren, OSC extension animal husbandry specialist; Harold Cohn, Heppner, and Dr. C. F. Haynes, state veterinarian, Salem. Earl O. Walters, Filer, Idaho, will be auctioneer.

OLD-TIME THRESHER—It's grain harvest time again in the Klamath basin and this old-time picture shows how it was done back in 1902. This outfit was operated by Whitney brothers, pioneers of the Merrill district, who lived just south of the state line on the place now owned by Chester Haskins. The Whitneys threshed from the Carr ranch (present Dalton holdings) clear up the valley to the Ankeny and Cantra II places on the outskirts of Klamath Falls. They also were in the mercantile business at Merrill. The present-day Whitney bridge road, which runs south from highway 39 past Malone, was named for the family. Picture contributed by D. ave Cox.

Granges Plan Booths For August Meet

Klamath County Pomona grange is having fair booths at its meeting this Saturday August 13. The meeting will be held at the Lost River hall.

Each of the 16 granges may enter one booth, and a trophy will be awarded to the winning entry. The trophy will rotate each year and must be won three times by one grange to remain in its possession. Judging for the trophy will be on

a point system with 10 to first, five to the second place and three points to third place.

Each booth may have one entry in each of the 15 divisions and each division will be judged separately. The divisions are as follows: cakes, pie, cookies, candy, canned fruit, jelly or jam, embroidery, knitting, crocheted work, sewing garments, and berries. The winning booth will be the one who has the greatest total of points.

Judges for the contest will be

Mrs. C. E. McClellan, Mrs. A. R. Dickson and two more who will be announced later.

Slow Drying Best For Most Concrete

Concrete poured during hot weather needs protection against too rapid drying which frequently results in hairline cracking, states M. G. Huber, O. S. C. extension agricultural engineer. Slow drying gives more strength and gives con-

crete more strength and makes concrete more waterproof, he adds.

Best concrete results from drying or curing that takes at least 10 days. Prolonged drying may be accomplished by covering concrete that has had time to "set" with burlap, straw, earth, or some other material which will hold water. Then keep the covering wet, Huber concludes.

Nails were scarce in the early American colonies.

PRINEVILLE, Aug. 11 (AP)—Eleven horses have entered in the Sisters-to-Prineville endurance race which will be staged Sunday as the climax to the Crooked River roundup.

The horses will race over un-paved country roads for most of the 55 miles, with a 30-minute rest stop at Bend.

Early colonial families often made nails by hand to earn extra money.

FHA Loans Available To Farmers

Farmers in the county who need financial aid to maintain their businesses are eligible for several loans from the farm home administration, which has its headquarters in the post office building. However, only those farmers who are unable to secure financial help from an accredited bank or loan company are accepted.

The farm home administration was authorized recently to loan up to \$500 to farmers for improvement buildings without taking a real estate mortgage. The loan may last five years with a 5 per cent interest charge.

Money is also available for water facility loans such as land leveling, sprinkler systems and irrigation. According to the administration, half of all the money allocated for the state for water facilities has already been used in Klamath county. The loan may be made for a maximum

of \$5000 for a 20-year period at 3 per cent.

Operation loans for the purchase of livestock and machinery and farm operation may be secured for a five-year period with a maximum of \$3500 borrowed in one year and no more than \$5000 total in several years. The loan runs for five years with a 5 per cent interest charge.

The administration may also grant loans to fur farmers already in business. Loans up to \$10,000 for a five-year period with 3 per cent interest may be granted.

Another loan that may be available soon is that concerned in the housing bill for farmers passed by the 81st congress. Money has not yet been appropriated to make this law, 171, effective.

Veterans have first preference on all loans.

There is no deadline set for application. However, loans can only be made as long as the allocated money lasts.

Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with aching and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 50 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Now Many Wear FALSE TEETH

With More Comfort

FASTTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To set and talk in more comfort, just sprinkle a little FASTTEETH on your plates. No gums, gooey paste taste or feeling. Checks "plate odor" denture breath. Get FASTTEETH at any drug store.

Hot, Sour Acids in Throat After Meals

Retired Pasadena Fire Dept. Captain, Walter L. Hirsch, 320 Summit Ave., in gratitude for what Kal-O-Dex has done for him, states, "I was so run down I could hardly get around—couldn't sleep at night because I bloated up so from food that acid in my stomach and came up into my mouth—had to take something right along for relief. I feel wonderful now since taking Kal-O-Dex. It keeps my bowels regular—no more bloating or dizzy spells, and I've gained strength as my meals agree with me now and I can sleep nights."

KAL-O-DEX is an herbal formula of 3 juices from Nature's Plants. It has relieved many people who had indigestion. Taken shortly before meals, it mixes with your food, helping to eliminate the poisons that foster stomach trouble. It will cleanse the bowels, clear gas from stomach, enliven intestinal, and remove old, sickening bile from the system. So, don't go on suffering. Get KAL-O-DEX at all Drug Stores. Here's another big reason why

THERE IS NO FINER CIGARETTE IN THE WORLD TODAY THAN LUCKY STRIKE

America's finest cigarette laboratory assures you that—

1. Lucky Strike always means fine tobacco!
2. Lucky Strike is always a finer cigarette!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye.

As you read this, a constant stream of tobacco . . . samples from every tobacco-growing area . . . is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is your assurance that there is no finer cigarette in the world today than Lucky Strike!

Testing tobacco. Samples from every tobacco-growing area are analyzed before and after purchase. These extensive scientific analyses, along with the expert judgment of Lucky Strike buyers, assure you that the tobacco in Luckies is fine.

Everything's under control! Lucky Strike scientists supervise intricate tests daily to guarantee that the weight, size, density and firmness of your Lucky Strike are always right. Such details are rigidly controlled to guarantee you a truly finer cigarette.

Luckies stays fresh. After Lucky Strike cigarettes have been made and then packaged, they must be tightly sealed to remain fresh. Here you see the cellophane seal being tested for air-tightness. Such instruments are in use at every plant.

We know:

LUCKIES PAY MORE

for fine tobacco
(millions of dollars more than official parity prices)

We are convinced:

LUCKIES PAY MORE

for cigarette research

So, for your own real deep-down smoking enjoyment

Smoke a Lucky!
