All together now in the key of C."

**Wheat Ban May End Very Soon**

**PORTLAND, Ore., Aug. 12 (AP)—**The ban that keeps export wheat from moving from inland points to ports may end early next week. Market experts noted here that nine ships either were already loading wheat or were expected to start soon, thus making room for wheat now stored in the interior.

# White Pique Issues Crisp Denial To Ever-Changing Whims Of Fashion Today

By EPSIE KINARD  
NEA Fashion Editor

**NEW YORK (NEA)—**Crisp white pique has as its only rival for awe-inspiring freshness the nurse's uniform or the surgeon's jacket. This explains in part why pique fills up wardrobe gaps when the mid-season thermometer climbs, why pique is a woman's favorite carry-over into the next cotton-picking season.

Conservatively styled, pique has never submitted to many dressmaker frills—the jacket or dress that will see service during dog days and will reappear in wardrobe next year is apt to be a classic or a semi-classic fashion.

Safe from the changing whims of fashion are the two pique styles shown. A smart but timeless two-piece suit (right) of Eisenberg's design owes its new feminine appeal to a tailored collar softened by a pleated jabot of self fabric. The trim white jacket (left), which is used as shown to cover up the halter top of a cotton dress of gunmetal gray, is another example of the classic styling that makes a tailored pique topper immune to fashion changes.

"MARRIAGE IS FINE"—Actor Jimmy Stewart, who avoided matrimony for 21 years, kisses his bride, the former Gloria Hatrick McLeon, after their marriage in Brentwood Presbyterian church in Los Angeles. "Oh, boy, marriage is fine!" Jimmy remarked following the ceremony.

## Teen-Agers Injured In 2-Car Crash

Two teen-age South Dakota girls were reported improving at Klamath Valley hospital today from injuries received in an automobile crash yesterday afternoon at Shasta way and Washburn.

They were passengers in an old sedan driven by W. H. Jones, 17, of Dorris. Jones' car, traveling on Washburn, did not stop at an intersection stop sign, state police said, crashed into a vehicle driven by Elaine Bennett, 3131 Sunset, and rolled over in a ditch.

The injured girls were Maxine Smith, 18, of Keystone, S. D., and Jo Ann Parsons, 16, of Rapid City, S. D., and have been in Klamath Falls visiting relatives at 219 Prescott. Both received back and pelvic hurts when the car rolled over but no bones were broken, and hospital attendants reported the girls' condition as good. They were moved to the hospital by Kaler's ambulance.

Sterling Paul Jones, 15, of 1435 Johnson, and Ned Edward Hicks, 17, of route 1, were also riding in the Jones car and were slightly injured.

Miss Bennett's car was badly damaged. Riding with her was Letha Hargraves, 3135 Sunset. Neither was injured.

State police cited Jones for failure to yield the right of way, and he was due for an appearance in justice court this afternoon.

A mild winter in 1880 caused the ban that kept export wheat from moving from inland points to ports may end early next week.

## Churchill In Lead For Council Power

STRAZBOURG, France, Aug. 12 (AP)—Led by Winston Churchill, the new council of Europe's first assembly today fought for greater independence from control by the 12 member governments.

Churchill, fiery advocate of a united Europe, called for the establishment of the consultative assembly of Europe as a free parliament.

In one of his first speeches to the 101-member assembly yesterday, Churchill rapped what he called "crippling limitation" on assembly debate imposed by the council's committee of foreign ministers.

The committee of ministers, representing the 12 governments which formed the council of Europe, is the guiding body of the new European organization. The committee has the power to decree what subjects shall be debated by the consultative assembly.

Churchill and other advocates of some form of European federation hope the assembly may be the forerunner of a genuine parliament of Europe, with legislative powers cutting across national boundaries. At present the council—divided into a consultative assembly and a committee of ministers—has only advisory powers to promote greater European unity.

Inspired by Churchill's oratory, the assembly delegates clearly indicated they will seek greater authority than the ministerial committee intend they shall have.

## This Guy Really Gets Reception

ST. CLOUD, Fla. (AP)—Ray Charleston, radio engineer, doesn't worry about a lack of television sending stations in the south. He gets just about any kind of reception on his set here. He's logged the stations he connected with and they include just about everyone up to 1200 miles away—except Miami.

Miami has a 78-foot elevation above sea level, with a 60-foot tower. Reason for the reception here, he says, is tropospheric propagation, a high-powered way of saying that the sky wave of television is freakishly reflected in this particular spot.
