Missing Nimrod Shows Up Safe

MILL CITY, Aug. 15 (AP)—Charles H. Hayworth, Eugene man believed drowned in a fishing accident, was very much alive today. But what happened to him was still a mystery.

Hayworth, who had gone fishing on the North Santiam river, was feared drowned Friday when another fisherman hooked Hayworth's rod out of the river. Hayworth's car, with an uneaten lunch inside, still stood on the bank.

But late Saturday night Hayworth was found, walking down the highway north of here, by his brother-in-law.

Hayworth was cut and bruised about the head, and was unable to explain just what had occurred.

The oil that stops 80% of engine wear

By any measure—"RPM" does a better job. By coating cylinder walls with a moisture-proof film, "RPM" stops internal rust (cause of 80% of engine wear). By further scientific compounding, RPM Motor Oil protects your engine against abrasive contaminants—which it keeps harmlessly dispersed between drains. It stops formation of gum, sludge and carbon—keeps oil rings free and unclogged... oil filters cleaner. By any measure, it's "RPM"—first choice in the West.
