

## Truman's Reorganization Plan Number 2 Survives Going Over By Senators

WASHINGTON, Aug. 17 (AP)—President Truman's government reorganization plan No. 2 survived an effort to kill it in the senate today.

By a 57 to 32 vote the senate defeated a motion that would have blocked Mr. Truman's proposal to shift federal job-finding and unemployment insurance services from the federal security agency to the labor department.

The reorganization plan would have been junked only with at least 49 senators—a constitutional major-

ity—voting for the motion. Only 32 did so.

The outcome of the senate vote means reorganization plan No. 2 will go into effect after midnight Friday—unless there is some other action to bring the matter up again.

The house on August 11 rejected by a voice vote a similar move to kill plan No. 2 there.

Mr. Truman sent this and other plans to congress June 20. They go into effect within 60 days unless the senate or house disapproves.

The senate action on plan No. 2 was an administration victory on the heels of a defeat.

Yesterday by a 69 to 32 vote the senate killed Mr. Truman's reorganization plan No. 1 to create a cabinet department of welfare from the federal security administration.

The senate action appeared to clinch actual operation of the plan aimed at strengthening the labor department.

Senator Ives (R-N.Y.) was among those asking the senate to kill plan No. 2 for some of the same reasons it killed plan No. 1 yesterday.

## Rotary Set For Annual Barbecue

Tickets to the 14th annual Rotary sponsored barbecue will be ready for distribution to members during the luncheon hour Friday. Since attendance at the big feed, which is by invitation only, tickets will not be placed on public sale as was done last year.

The announcement that tickets will be available this week was made by Haarby Bechen, ticket chairman.

Persons eligible to attend the barbecue which is scheduled for Tuesday night, August 30, just prior to the livestock sale in the arena, will include exhibitors, their families, stock buyers and wives, Rotarians and wives and invited guests and others connected with the 4-H and FFA three-day show and sale.

Regret is expressed by the Rotary committees that facilities at the fairgrounds will not permit attendance of the public to the barbecue again this year.

Those making arrangements for the show bring to the attention of the public, however, that all other features of the livestock show will be open to the general public as usual.

It is hoped to keep attendance at the barbecue to 1200 this year. Nineteen hundred were fed last August.

## Births

**DUFFY**—Born at Klamath Valley hospital, Klamath Falls, Ore., August 16, 1949, to Mr. and Mrs. Lawrence Duffy, 3860 Bristol, a girl. Weight: 7 pounds 15 ounces.

**PETERSON**—Born at Klamath Valley hospital, Klamath Falls, Ore., August 16, 1949, to Mr. and Mrs. Eldon Peterson, 1435 Oregon, a girl. Weight: 5 pounds 13 1/2 ounces.

## Hop Market Firm For Pacific Coast

PORTLAND, Aug. 17 (AP)—The hop market remained firm in the past month with prices unchanged to a cent higher, the department of agriculture reported Tuesday.

The monthly report said demand was lessening with growers holding out for 55 cents a pound for seeded hops with 6 per cent leaf and stem.

A few contracts were reported for delivery after harvest at 52 cents for fuggles and 52 cents for late clusters.

A crop of around 100,000 bales is expected from Washington and about 60,000 bales from Oregon.

## CARNIVAL

By Dick Turner

"Let us lose our position in the march of scientific progress, we must develop sound that will travel faster than airplanes!"

## THE DOCTOR SAYS Cattle Spread Disease

Brucellosis, which includes the more commonly known undulant fever, is serious for people and animals alike. Cattle, swine, and goats are the animals particularly affected. It has been estimated that one animal out of 20 of the cattle in the United States are afflicted with the germ causing brucellosis and the economic loss to the livestock industry comes to more than \$1,000,000,000 yearly.

The important problem in cattle is to pick out the five per cent who have the disease so that they can be prevented from spreading it to the healthy animals. This can be done by giving a blood test to all animals introduced into herds.

Perhaps the most important step of all, however, is to remove infected animals from the herds so that they will not spread the disease.

## Home Wedding For Couple

SPokane, Wash., Aug. 17 (AP)—It will be a "home" wedding tonight for Jack Parks and Betty Mae Tibbett—home plate, that is.

Parks is catcher for the Spokane Indians baseball team of the class B Western International league. The 21-year-old Birmingham, Ala., athlete is the leading home run hitter for his team. Miss Tibbett is a 20-year-old brunette.

The wedding will precede the Spokane-Victoria baseball game. The management hopes to have 7000 paid guests.

Outfielder Paul Zaby will be the best man. Two pitchers will be ushers. The bat boy will carry the ring. The Spokane and Victoria teams will provide an arch of baseball bats for the couple. An organist will play "Oh, Promise Me" at third base.

The honeymoon? There won't be any. The Indians have a lot of home games to play. Parks will just have time to kiss the bride before he puts on the catcher's mask and goes to work.

## Dogs On Record, Kennel In Court

REDWOOD CITY, Calif., Aug. 17 (AP)—Even the utterances of dogs are being recorded and taken into court.

The recorded barks and growls from a kennel were played yesterday before Superior Judge A. R. Cotton. That was evidence in a suit by two couples—the Martins and Earl Wilms—for an injunction against the operation of a kennel near their auto court.

The kennel operator, Dr. P. H. Hand, objected that the recording amplified the barks.

Judge Cotton ordered the veterinarian to silence the dogs or move the kennel.

## Air Force Holds Up Rocket Test

ALAMO GORDO, N. M., Aug. 17 (AP)—The air force today postponed for 24 hours the firing of its first Aerobee rocket at Holloman base.

The information officer said he could not give details of the delay. The first rocket was to have been fired at noon today.

The Aerobee is a navy-developed guided missile. It is capable of 3000 miles an hour speed. Some scientists expect the experiments will bring improvements enabling the Aerobee to circle the world.

## Disarmament For World Asked Again

WASHINGTON, Aug. 17 (AP)—Socialist Norman Thomas urged congress today to take the lead in one more attempt at world disarmament before voting to send military supplies to Europe.

Thomas testified before the combined senate foreign relations and armed services committees as the house prepared to open debate on the administration's \$1,450,000,000 foreign armament bill.

House leaders said they are confident the measure will be approved, possibly by Friday, without substantial change in its terms.

Thomas, many times a candidate for president, told the senators he thinks any arms shipments under the bill should be delayed until a coordinated defense of the North Atlantic community is worked out.

"Such concerted agreement for defense would have a practical and moral backing now lacking, if preceding any further expenditures in the hastily arms race, an effort were made by the United States or by the nations in the Atlantic pact through the United Nations to bring about universal disarmament under effective international controls and with international provision for security," he said.

Today's entire session in the house was set aside for debate, with voting to start tomorrow.

## Government Cost Up For Oregon State

SALEM, Aug. 17 (AP)—The cost of Oregon's state government—\$7,062,562 for the 1949-1950 fiscal year—will be met as usual without levying on real property.

The state tax commission released the levy today, showing that income taxes and other revenue sources will meet the state's requirements.

The levy lists \$58,356,340 as coming from income taxes. Of this sum, \$39,747,414 is being transferred from the corporate excise account to cover excess legislative appropriations within the 6 per cent limitation, and \$7,569,922 to eliminate the levy which otherwise would be imposed on property owners.

In addition to the income tax receipts, revenues from the state's sale of liquor are estimated at \$8,000,000; those from miscellaneous sources such as inheritance and gift taxes, corporation and insurance licenses and fees at \$4,000,000; transfer of funds, principally from the highway department for the support of the state police, \$1,574,993; and unexpended balances due chiefly to higher revenues than estimated last year, \$3,000,000.

The requirements of the fiscal year are listed as \$8,535,866 deficit from the last biennium, and \$70,548,796 for current activities including public welfare and higher education.

## Japan Writes Down Day Of Tragedy

TOKYO, Aug. 17 (AP)—This was a day of tragedy for...

Forty persons reported missing in the collapse of a resort hotel near Kagoshima following a landslide in the wake of a typhoon.

Five firemen killed and eight injured in the collision of a fire engine and an electric train in Nagoya.

Three trainmen killed in Fukushima prefecture when a locomotive overturned.

## Woman Pilot Off On Last Stages

REYKJAVIK, Iceland, Aug. 17 (AP)—Mrs. Richards-Morrow-Tait, British round-the-table flier, took off for Iceland today from the United States air force base at Blue West One, Greenland.

For safety reasons, the officials said, a B-17 from Keflavik has been ordered to meet her and escort her in.

The British housewife-flier arrived at Blue West One from Goose Bay, Labrador, August 12, after ignoring a Canadian government order against a takeoff.

## Liquor Charge Filed Here

Nathan Copperfield, 30, Bonanza Indian, was placed in the county jail early last night on a charge of illegal possession of liquor.

Copperfield was arrested by state police at Wocus and had in his possession four quarts of wine. He was also charged with having no operator's license, and bail was set at \$50.

## WHY WE SAY

"GO TO THE DEVIL"

London barristers used to spend much time in a Fleet Street tavern called "The Devil" near the law courts. When a barrister could not be found in his office, his clerk would advise clients to "go to the Devil" to find him.

## Day's News

(Continued from Page One)

...society. No President is ever permitted to forget that if he leaves undone ANYTHING that will keep his party in power he is destroying the future and wrecking the lives of all who are dependent upon him AS THE LEADER. Constant pressure of that sort just does things to people who hold responsible positions.

In justice to Harry Truman, the individual, we have to keep that in mind.

## Red Radio Mum On Mao's Death

SAN FRANCISCO, Aug. 17 (AP)—If Chinese communist leader Mao Tse-tung is dead—as nationalist rumor has it—the red radio in Peiping professes to be unaware of it.

Only Monday, a nationalist army spokesman in Canton said there was "very reliable information" that Mao died in Peiping July 17.

Today a communist broadcast from Peiping said Mao sent off a wire yesterday to government generals who revolted at Chongshing in South Central China. The radio made no mention of the Canton rumor.

## Cook Nabbed For Minor Thefts

Raleigh Newell, 50-year-old cook at Molator's restaurant, was arrested this morning and placed in the county jail on a charge of larceny.

He was taken into custody by District Attorney D. E. Van Vactor after he reportedly was caught taking money from the restaurant till. The amount allegedly taken was \$2.50.

## LIGHT CATCH

ASTORIA, Aug. 17 (AP)—Tuna deliveries here were light yesterday, with the largest catch 10 tons. Salmon catches in the Columbia river were scanty, too.

## 'Dogs Dogging It—Get Up Rover, Stop Playing Dead'

By ED CREAGH  
(For Hal Boyle)

NEW YORK, Aug. 17 (AP)—These may be dog days but the dogs are dogging it.

There hasn't been a grade A, all-dogged-up-with-pictures dog story in the papers since Hector was a pup.

And this you should pardon the expression) is a doggone shame.

When I was breaking into the newspaper business, shortly after the battle of Chickamauga, a wise if watery-eyed old city editor told me:

"Bub, if you want people to read what you write, remember this: 'One weather story equals two society divorces, and one good dog story will beat any weather story that ever came down the pike.'"

This worthy man later died of a pickled liver, but his advice still seems sound to me.

The only trouble is, the dogs are not cooperating.

Cats get into the news. So do elephants and monkeys. Even fish are splashing their way into the headlines, to say nothing of some publicly hungry birds that have been loitering hopefully around newspapermen's hangouts.

But dogs?

Except for Popo, the wire-haired terrier, they've turned as camera-shy as a movie blonde with two black eyes.

You remember Popo. He showed up only last Sunday, swimming bravely in the general direction of Ireland. He was nine miles off on the Maine coast when a tuna fishing boat hauled him aboard, pretty well pooped.

Popo's story was that he had fallen off a yacht, but nobody believed him. Obviously, he was out for glory as a transatlantic swimmer. And it was good to know that one pup, in these decadent days, still had some get-up-and-go.

Cats, now—they're performing all over the place.

First there was that mouser aboard the British warship Amethyst. He got a real, homespun George military decoration for holding the rats at bay while the Amethyst was bottled up by the Chinese Reds.

Then there was Kiki. He went the

## RAF Vets Nearing Home Port Again

DARTMOUTH, Eng., Aug. 17 (AP)—Two daring veterans of the royal air force headed for port today on the last leg of a 42-day, 2700-mile trip across the Atlantic in a 30-foot boat.

They are Stanley Smith, 30, and his brother Colin, 29. They left Halifax in their homemade cockleshell craft July 6. Coast guardsmen sighted them east of the Scilly isles last night.

## OKAY

PORTLAND, Aug. 17 (AP)—James C. Desendorf said today that the American Bar association has endorsed Circuit Judge Earl C. Latourette for the federal judgeship.

Desendorf is state delegate to the national association.
