The hole-making, wood-gathering, stone-thumping, fire-building and general supply committees are getting ready for the big barbecue, for which 1200 guests will gather at the 14th annual Rotary 4-H and PFA Junior Livestock show, Tuesday, August 30 at the fairgrounds.

Gib Fleet and Cyril Cook will sweat over preparation of the two prime Herefords which have been donated by Geary brothers. Barbecuing will be done at the fairgrounds to insure that the meat is hot.

The meat boning detail is requested to have cutters, tin snips, boning knives and clothes that can be laundered. Guests are to be served, if possible, with slices desired.

The barbecue committee as announced this week includes: assistant warden, Frank Fleet; thumper of stories, Paul Matthews; forager for fuel, Eddie Swanson; brewer of beans, Walt McIntyre; carrier of cream, Earl Kent; ruster of relish, Bob Sprout; provider of paper, Bill Stutz; potato preparer, Mike Balziger.

## Miners Evicted, Reds Arrested

SANTIAGO, Chile, Aug. 22 (AP)—Troops evicted more than 1000 tired and hungry sit-down strikers from the Lota coal mine last night and arrested 35 communist leaders accused of fomenting the trouble.

Officials quoted the miners as saying communists spokesmen had convinced them the government had fallen, that a general strike had crippled the country and that revolution had broken out in Santiago.

End of the Lota strike came as the government announced it had broken an attempted communist revolution based on a general strike.

TULELAKE, Aug. 22—Mr. and Mrs. Roy Hodges, owners and operators of the Tulelake hotel and bar have announced sale of the property, a corner location on Main and Modoc streets, to Mr. and Mrs. Roy Hampton, Santa Monica, Calif.

Hampton stated today that he and Mrs. Hampton had previously visited relatives at Macdonald, had seen Tulelake and liked it, and decided to go into business here. He has been a bus driver in the Southern California town.

No changes in the building or personnel are anticipated.

## Nation's Polio Increasing At Record-Breaking Tempo, See 5 To 10 Per Cent Deaths

By The Associated Press

The number of new cases of infantile paralysis took a sharp upward turn last week, boosting the nation's total of victims for the month to more than 8000.

It brought the total for the year to 15,500, compared with the national office of vital statistics through August 12 of 1948, a near record year. Last year's 27,690 total was exceeded only by the 30,000 in the 1916 record year.

In an Associated Press survey, North Dakota reported the latest at an epidemic stage there last week and said the state urgently needed more nurses.

A few more heavily populated states, including Pennsylvania, Illinois and Wisconsin, do not expect to reach the peak of new cases until next month, while four states—perhaps five—already have more than 1000.

Some southern states, where onset of the disease usually starts earlier, have had a gradual decline, while Maine and Minnesota held about steady, and Arizona showed an increase.

Nevada with only 18 cases this year, again is having a light season, but health officials there reminded that most of the state's 22 cases last year occurred during the fall and winter months.

The sharp rise in new victims added 5000 to the August total during the second nine-day period of the month. There were 2100 new cases in the first nine days. August normally is the worst month of the year.

The survey showed that some large cities, notably Boston and New York, have been hard hit, while Philadelphia and Chicago were more fortunate than areas in other

## Farm Price Support Cuts Are Demanded

WASHINGTON, Aug. 22 (AP)—Senate Democratic leader Lucas today demanded "drastic changes" in the government's price-support programs and bills pending before congress.

The Illinois senator said he favors limiting government price-supporting loans and purchases to a few basic or major crops—such as corn, wheat, cotton and others—on which planting and marketing controls can be operated.

The senate leader's blast came after a meeting of the senate agriculture committee of which he is a member.

At this hearing Secretary Brannan gave qualified support to a compromise plan by Senator Anderson (D-NM).

Brannan told the committee the Anderson plan would provide somewhat higher government price support levels than a flexible price plan voted by congress last year. Actual operations of that program are not due to begin until Jan. 1.
