"Must be usin' Mobilgas"

For PERFORMANCE with ECONOMY, use the quality gasoline your car needs—Mobilgas Special or Mobilgas. These two gasolines blanket the requirements of every car on the road today. Both are perfectly balanced fuels, with superlative mileage and power features; both are made by the same patented refining process. Their essential difference is in anti-knock rating. With the help of your Mobilgas Dealer, you can quickly make your own test and find which of these 2 is best for you:

**Mobilgas Special** If you are the proud owner of one of the new extra-high-compression cars, or if, due to mechanical adjustments, your car knocks on the gasoline you are now using, you'll be money ahead by switching to Mobilgas Special (premium).

**Mobilgas** If your car is like most of those now in service, you will get mileage, power, and anti-knock—with outstanding economy—by using Mobilgas. If your car runs knock-free on Mobilgas, then be smart and pocket the difference in price between it and premium gasolines.

ACCIDENTS GET GOAT MUNICH (AP)—Col. James H. Kelly, of Chicago, Illinois, director of the U. S. military government of Munich, found a new means of assisting the army's safety drive. Besides giving awards to the unit with the least number of traffic accidents each month, he punishes the unit with the greatest number by making its soldiers care for an evil-smelling billy-goat for thirty days.
