

FINER POINTS—Giving Pat Squire, left, and Mary Demetarakos a tip on the finer points of painting is Art Teacher A. K. Downs.

NEEDLE AND THREAD—Use of a light bulb for sock darning is an old trick but a good one, as Mary Kirkpatrick finds out in her home economics class.

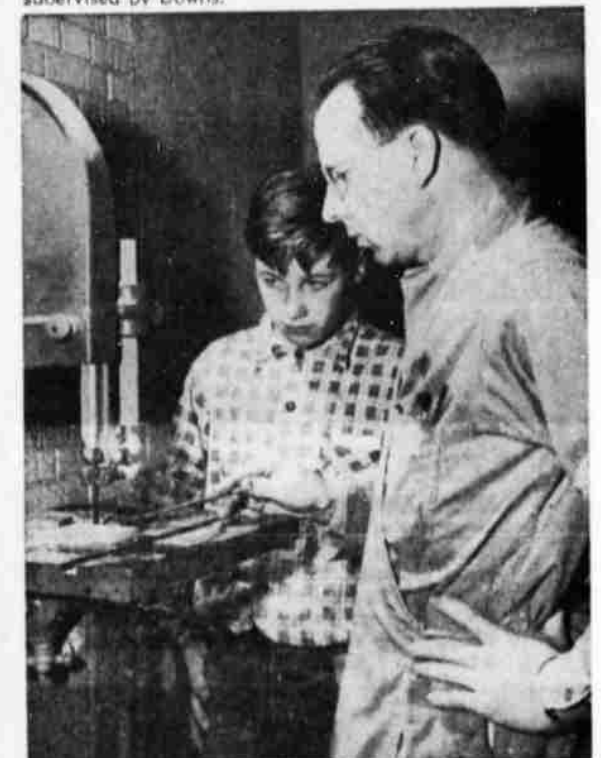

POTTERY WORK—One phase in making pottery objects is demonstrated by Michael Burke at a potter's wheel, supervised by Downs.

INTO THE KILN—Ready for the "baking" process are pieces of pottery made by Beverly Pounds, foreground, and Marilyn Claudson.

MUSIC HAS A BIG ROLE—Starting early in school, music plays an important part all through the school years. Choral work, illustrated above, is always a favorite.

SAFETY WITH TOOLS—In shop classes offered for boys, safety in use of power tools is stressed by Instructor James Scott and Student Bradford Sames.

NEW ART PHASE — A recent addition to school art classes is weaving being done here by Dick Kerbow.

WOODWORKING — Leigh Taylor, left, chose a footstool as his project in woodworking.
