Stubble Burners' Report Asked

Farmers who plan to burn stubble were again urged today by the county fire department to inform the department before setting the fire.

Frank McCornack, county fire warden, said that burners may get in touch with him by calling 7983, or they can call the Klamath Forest Protective association, 3282 or 3217.

The idea, McCornack explained, is to keep the county department from making unnecessary runs. Stubble fires which are set without notification often result in needless alarms to the department, and it is possible its equipment will be out on a useless run when an emergency fire occurs.

City Polio Victim Flown To Portland

Another polio victim, the fifth in Klamath county this year, was rushed by chartered plane to Portland at 4:30 p. m. Friday. She is 14-year-old Donna Guthrie, daughter of Mr. and Mrs. Ralph Guthrie of this city.

Two cases of polio were reported in Klamath county in both June and July.

The plane left on its errand of mercy from the Klamath municipal airport. Donna was moved to the airport by Kaler's ambulance.

PLAN PROVEN FACTS

Klamath Falls, Oregon, Aug. 27 Here is news that will be of great importance to those interested in furniture. It is a proven fact that the way to get the most for your money is to buy direct from the manufacturer. The Modern Upholstered Furniture Co., located at Lakeview - Merrill Junction, has proven this statement. All they ask of you is that you COMPARE. Compare quality of the frame, springs, filler, and fabric. Compare style. Is it functional, is it up to date? Compare prices. There is no greater way to save than to buy direct from the manufacturer.

People who have compared have made statements such as these:

"I was surprised to find there was so much difference of comfort in upholstered furniture. That super-form fitting back is everything you can ask for in comfort."

"I didn't know that you built furniture to fit the person as well as to fit my living-room needs. I am out of place in standard size furniture."

"I was prepared to pay twice as much to obtain furniture of such fine quality. Why, it costs even less than they're asking for standard furniture."

"I had the impression your furniture would be priced beyond my means. I am so glad I shopped here before buying."

Yes, ladies and gentlemen, you too will be surprised when you compare quality and price at The MODERN UPHOLSTERED FURNITURE CO.
