## Quiet Popcorn Bag Should Get An 'Oscar'

NEW YORK, Aug. 29 (AP)—Movie-goers are going to love this one.  
It's a new noiseless, rustle-proof popcorn bag. Production of the bag was announced yesterday by the Grand Bag and Paper company.  
And it doesn't stop with just being quiet.  
The soft, cloth-like paper bag is also porous, so it can't be blown up and popped or filled with water for balcony bombing raids.

## Wallgren To Try Again?

SEATTLE, Aug. 29 (AP)—Ex-Governor Mon C. Wallgren told a King county democratic picnic gathering yesterday he plans to return to Washington D. C. within a month—possibly to take a federal position.  
He did not elaborate but friends said he may yet head the National Security Resources board. They said Wallgren believes President Truman may be able to appoint him without senate confirmation under the new reorganization act recently approved by congress.  
Wallgren's appointment to the post earlier this year was stymied by a refusal of a senate committee to report the matter out to the senate floor.

It took 76 years to build the Great Pyramid of Egypt.

## Youth Hurt In Car Wreck

Tom Haney, 26-year-old Roseburg youth, was treated in Klamath Valley hospital for injuries suffered in an accident on highway 56 near the Lee Holiday ranch a few miles west of Klamath Falls.  
Haney suffered lacerations of the face but was released after treatment.

James Haney, 20, also of Roseburg, and the victim's brother, was slightly shaken and received a small cut on his nose. He was the driver of the car which failed to make a curve and left the highway.  
State police cited James Haney on a charge of no driver's license.

Ashlander—Mayor and Mrs. Tom Williams of Ashland, former Klamath Falls residents, visited here Sunday.

## The ship that helps create jobs in Alaska

From Ketchikan on up the coast . . . in dozens of towns and cities in Alaska . . . people greet the tanker "M.S. Alaska Standard" with considerable affection. For, over the years, she's helped Alaskans develop thousands of jobs.

Regularly she loads a full cargo of petroleum products and takes them wherever they're needed . . . like some giant floating service station. She pokes her prow into rocky inlets to serve fish canneries, goes on up the coast a few miles to bring a new mine the lubricants it needs to work, stocks oil for fishermen so they no longer have to travel six or seven hundred miles to refuel when the salmon run is on.

In short, she helps both the coast and interior of Alaska develop its resources . . . just as the oil industry throughout all our country helps other industries grow and people work, produce and prosper.
