

# Bolivia Government Turns To Civilian Draft In Try To Crush Rightist Revolt

LA PAZ, Bolivia, Aug. 30 (AP)—Fighting for survival against a spreading rightist revolution, the government today began a draft of all citizens.

Reservists, 20 to 24, were called for the colors in La Paz and orders for mobilization have been issued to all men 15 to 50.

They will be called upon to fight the revolt against the middle-of-the-road government which broke out in scattered sections Saturday and now controls all Bolivian large cities except La Paz.

Greatest government efforts so far have been directed against Cochabamba, a city of 90,000 southwest of La Paz, where the rebels are strongly entrenched.

Airforce planes bombed the town yesterday for the third time, but reports said they did little damage. The raids terrified the inhabitants, however, and indignation against the act seems to have added new recruits to the rebellion.

The planes, after dropping their bombs on Cochabamba, flew on to the garrison town of Camiri to pick up troops for an attack on Sucre.

In a lightning reverse play, the planes themselves were seized at Camiri by the insurgents; the government troops they were sent to pick up had deserted to the rebels.

Reports at La Paz said loyal ground forces were in the act of occupying the airport at Cochabamba.

The revolutionists, members of the national revolutionary party (MNR), are apparently still in control of Santa Cruz, Potosi and Sucre, all southeast of La Paz. Reports yesterday said the garrisons in the extreme north had also gone over to the rebels, which, if true, spread the revolt countryside.

Labor unions, which normally figure prominently in unrest here, have declared a policy of strict neutrality in what they call a "purely political" fight.

All political parties except the revolutionary left (PIR) have pledged support to President Mamerto Urriolagoitia. The PIR is a Marxist group which denies any connection with world communism.

La Paz, except for a false air-raid scare yesterday, is calm. The government has taken no restrictive measures and has not instituted censorship.

The present government was elected following a violent uprising against the MNR, then in control in 1945. It governs 4,000,000 persons

living in this landlocked country high in the Andes mountains. Victor Paz Estenssoro, exiled leader of the MNR, was interned by Uruguay yesterday on suspicion of having engineered the revolt.

## Street Name Plan Given Green Light

Residents in the west suburban district of Klamath Falls gave an emphatic go-ahead signal last night to the proposal to name streets and number houses in preparation for mounted mail delivery service.

The task must be done by October 1, the deadline set by the post office in switching over from rural service to mounted service.

The suburban area in question consists of Stewart-Lennox, Riverside and Lindley districts. Mr. and Mrs. C. W. Adams are in charge of solicitation. It is estimated the chore will cost in the neighborhood of \$150 per house.

William R. Canton, engineer, will plan the job. A map will be drawn, showing the street names and house numbering. The map will then go to the planning commission for its approval.

The post office first brought the house-numbering, street-naming question up when it became evident that the rapid growth of the area is making rural mail delivery inconvenient.

ILL. YORK, Me., Aug. 30 (AP)—Supreme Court Justice Wiley B. Rutledge, ill with a circulatory condition, was reported "holding his own" today at York Village hospital.

Justice Rutledge was admitted to the hospital Saturday. He and his wife had been vacationing near here.

TRAFFIC STALLED SALEM, Aug. 30 (AP)—Traffic over the Salem-West Salem bridge over the Willamette river was delayed for two hours yesterday after a logging truck collided with a freight train at the Salem end of the bridge.

The truck lost its 26-ton load in the middle of the street. No one was injured and the truck was damaged only slightly.

STOPS TO ORGANIZE—Lee Davidson, 34, shown astraddle his small 125 Harley-Davidson, stopped in Klamath Falls Wednesday of last week to organize before continuing his tour of the United States and Canada on his "bike." Davidson started from his home town of Pittsburgh, Pa., June 15 and, except for a few days' stopover at various points, has covered the southeastern part of Canada and northern United States. From here he headed for Los Angeles and plans to return to Pittsburgh via the southern states, thus completing his pleasure tour. However, this mode of travel is really "classy" for Davidson—in 1946 he covered the United States on a racing bicycle. "It doesn't cost much," Davidson said. "I get 203 miles on 1.8 gallons of gasoline and have had no motor trouble."

STRIKE VOIE VANCOUVER, B. C., Aug. 30 (AP)—A strike vote among 32,000 coastal loggers was approved yesterday by the Canadian labor relations board. Date of the balloting will be determined within several days.

The employees, members of International Woodworkers of America (IWO), have rejected a majority report of the conciliation board that they be given no pay increase. The union had asked a 15-cent hourly boost.

## Sea Scouts Scout Lake Successfully, Come Home With Treasure For Hunt

It was a close race the Sea Scouts of Klamath's Scout Ship 100 ran during the week-end in the Upper Klamath lake treasure hunt, but in the end all were happy and satisfied with the results.

Disappointed when every one of the invited ships from throughout northern California and most of Oregon were forced to withdraw for one reason or another, the local Scouts decided to go ahead with the hunt anyway.

In the first hunt, held earlier this summer, the Sea Scouts were unable to reach the treasure, though they stayed out until late Sunday night.

This hunt, however, came to a speedy close when Bos'n Larry Guthrie's lightning class sailboat picked up the treasure at one o'clock Sunday afternoon.

Guthrie's crew included Jim Laube and Emory Gardner. Saturday night the three Klam-

three ships retired to the Elks marina on the southeast shore of the lake, and there enjoyed a bean feed.

According to reports from the young sailors, the wind was practically nil most of the trip, and the Scouts were forced to make their way much of the time by paddling.

Though the eighteen ships who were officially invited to the hunt were forced to turn it down, they did reiterate their interest in the treasure hunt, and many asked that they be allowed to participate next year.
