## DAV Commander To Retire From Post; Leaves Message

Editor's Note: E. E. Benson, who has served the Disabled American Veterans as commander, adjutant, service officer and state commander, is going on the inactive list September 1 because of ill-health. The following is a final message from him to veterans of this area.

Will there be a sack for you? (With present VA hospital cut-backs) Did you get hurt in the service or were you sick?

Oh, yes, you may say, but it won't be in my medical record because I didn't ride the sick book. That's fine, but—

That injury or illness may not be in your service record but the effects are probably lurking somewhere around in your body. Some day it may hit and you may need to go to a hospital. Service connected? That will be the question asked if you try to get into a veterans' hospital.

Well, you will explain, this trouble no doubt started in the service but the records don't say anything about it. Too bad, they will tell you, but there just isn't any room for any but service connected cases. Of course, you have loads of money, so a few hundreds or possibly thousands of dollars for private hospital and doctor bills won't bother you and. But there are some veterans who don't have that kind of money.

Back in 1940 the government decided, after a close survey that it would take 100,000 hospital beds to care for our less than 4,000,000 veterans by the year of 1950. A hospital building program to provide that many beds was approved. Then along came another war. All the past figures were knocked for a cockle hat because when that war was over there were more than 18,000,000 war veterans. The veterans administration had started on a building program with a sub-standard figure in mind.

But now things have changed. That building program has been cut back in an effort to effect an economy. You can see where this will leave you unless you have established service connection for your disability.

Are you feeling lonely? You'd better be and stay that way, because the way things are going now with more interest in W. W. II than the backwash of W. W. I, there just isn't going to be any room for you in a veterans' hospital if you break down. The government has to economize, you know, and that economy starts at home, so you, as a veteran, will come first.

Why don't you attend a local post or chapter of the VFW, Legion or DAV? If you would protect your rights, for future hospitalization privileges, you will have to quit "goldbricking" and get in and do your share. Your future is your own, you can provide for it any way you want. Think it over, Joe.

**Cemetery May Allocate 72 Fir Grove Lots**

The Klamath Memorial cemetery committee has turned over a recommendation to the city calling for the allocation of 72 lots in the burial grounds for interment of non-Caucasians.

The 72 lots are in the Fir Grove section of the cemetery, skirting the river.

This move by the cemetery committee followed weeks of controversy on the Negro burial issue, culminated by the city council officially settling the problem by agreeing to burial-separation of Caucasians and non-Caucasians.

The city dads are expected to approve allocation of the 72 lots at the next council meeting, September 6.

Mrs. Story headed for the nearest beauty parlor.
