GRAINS DOWN, LARD UP

CHICAGO, Oct. 1 (AP)—Grains worked lower on the board of trade today while lard, after a barely steady start, moved upward toward the close. Dealings were not active.

Easiness in other markets seemed to have some influence on cereals. Moderate hedging pressure entered soybeans and wheat. A decline in parity prices between mid-August and mid-September also brought out a little selling.

Buying in lard was based on trade information that the army was in the market for 5,000,000 pounds of cash lard.

Wheat closed 1/4-1/2 lower, December \$2.13 1/2-1/4, corn was 1/4-1/2 lower, December \$1.17 1/2-1/4, oats were unchanged to 1 cent lower, December 67 1/2, rye was unchanged to 1/4 higher, December \$1.45 1/2, soybeans were 1/4 to 2 cents lower, November \$2.28 1/2-1/4, and lard was 2 cents lower to 12 cents a hundred pounds higher, October \$11.32.

	Open	High	Low	Close
December	2.14 1/2-1/4	2.14 1/2	2.13 1/2	2.13 1/2-1/4
March	2.14 1/2-15	2.15	2.14	2.14

Steel, Auto Stocks Down

NEW YORK, Oct. 1 (AP)—The stock market leveled off today almost immediately after an opening gust of selling.

Steel and automobile shares showed the largest losses in the market's first response to the steel strike. Declines generally ranged from fractions to around a point.

Prices took their worst licking within a few minutes after the opening bell. For the rest of the session the market coasted along at the lower level.

Selling pressure wasn't particularly severe but demand was almost non-existent.

Trading volume was unusually low, with turnover at the rate of only 350,000 shares or so for the two-hour session.

CIO Watches For Barges From Hawaii

THE DALLES, Oct. 1 (AP)—CIO longshoremen watched the Oregon coast closely today for four new pineapple barges reported en route from Hawaii.

They set up a scouting system to get longshoremen quickly to any port where unloading is attempted.

An airplane and five speedboats were held at points along the coast to investigate any barge-like craft approaching. CIO leaders said they had been tipped the barges were coming.

Win. Loss

So far the longshoremen have a win and a loss in the battle over pineapple slipped out of strike-banned Hawaii. One barge got into Tillamook bay on the Oregon coast before longshoremen detected it. It was unloaded.

The other was tied up at The Dalles, but the port commission ordered the barge to move after longshoremen raided the dock, damaged equipment and threw some pineapple into the Columbia river Wednesday.

Heart Attack Kills Lake Deer Hunter

LAKEVIEW — Lake county recorded its first deer hunter death here a few hours before the opening of the 1949 season.

Walter Cobb, 74-year-old Roseburg hunter, died of a heart attack at his camp in the Drakes Peak area 20 miles east of Lakeview shortly after 5 p.m. He had complained of feeling ill only a short time earlier.

Last year Lake county chalked up the death of three deer hunters from heart attacks in this high altitude country.

Mr. Cobb was a member of a party made up of C. A. Tiller of Oakland, Ore., L. V. Connelly and William R. Burge, both of Roseburg. The four men had arrived at their campsite at 10 o'clock Friday morning, put up their tents and prepared for the opening of the season this morning.

Lake County Coroner Everett Osterman said the body would be sent to Roseburg for burial.

Federal Government Deep In Red for First Quarter

WASHINGTON, Oct. 1 (AP)—The federal government spent about \$1,400,000,000 more than it took in during the first three months of the 1950 fiscal year, and no relief from red ink financing appears in sight.

The most hopeful guess from an administration expert puts the budget deficit for the 12 months ending next June 30 at \$2,000,000,000. Senator Byrd (D-Va.) predicts it may run as high as \$7,000,000,000.

Going up

While a lot depends on what congress does with some \$14,000,000,000 in appropriations bills still awaiting final action, officials said yesterday that government spending probably will top even the proudest record of \$4,158,000,000 proposed by President Truman.

And while spending climbs, the government's revenues appear likely to fall below the \$40,985,000,000 forecast in January. So far, spending is running 22 per cent above last year, and revenues have increased only 2 per cent.

The Score

These are the official treasury figures for the first quarter of the fiscal year, through Sept. 30: The government's income, \$9,915,000,000. It's spending, \$10,419,000,000. The deficit, 1,404,000,000.
