Medical Care—Gilma Dougherty of 1836 Laurel, is under medical care at Hillside hospital.

Vido Chair And Tough Day for News

By BILL JENKINS

SCANNING a magazine the other night I noticed an ad for a television chair. A canny gadget that does its best to make a theatre of your video room. All of which reminded me that I saw my first television a couple of weeks ago. Not, however, from a television chair. Just from a plain couch in a small establishment in Belmont, Calif.

The den we were in very obviously drew the major portion of its trade from the sporting element, so we had the opportunity to see the faces of countless commentators as they gave forth on football, baseball, track, horse races and tennis. Television will never replace the bleachers in my opinion. Now I'm anxious to see something different just to find out what it would look like. Opera, perhaps. Or Fred Allen.

DEB is still out on the deer trail. So far back in the hills he couldn't send in a column today so I'll fill in with one more small incident about the newspaper.

Saturday, Saturday is a day of woe and travail around any newspaper office. In the first place things start closing down in the East early in the morning and it gets worse as you come West. That puts a holder on the amount of wire news that is produced. Then things out here start closing at noon. Up and down the Pacific coast factories close down for the week-end, some stores close and office workers take off for their homes or for the country. Less news. Market quotations are on a different basis and come at different times over the AP wire. More confusion. And to top it all off everyone is pressing faster to

wind up the day because of the week-end.

Our machines will only set type so fast, so we have to wait for them anyway. In short, quite a muddle all the way around. Saturday and Monday are the bad days. Monday because you have to pick up the threads after a Sunday holiday. What Deb said about deadlines is correct. It's like having a gun in your back all the time.

CARD OF THANKS
We wish to express our sincere appreciation to our many friends, and especially to the Klamath Lake Moulding company and employees for their acts of kindness, and for their sympathy during our recent bereavement. The loss of our beloved husband, father and brother, Lester Ray Arthur.

Whatever the Price Class

"Buick's the Buy"

IT'S part of every street scene—something you see every day.

Car owners in three different price classes—all happy about the same thing.

One of them drives a new Buick SPECIAL, which you see poking forth its new, bold-look forefront at the left of our picture.

Another will tell you there's nothing like the SUPER's "happy medium" of size and comfort, power and easy handling, style and standing.

And if you're looking for prestige, where is your money going to buy so much as in that handsome 18-footer, the ROADMASTER, with its 150-hp performance and really royal bearing?

But all these good folks get together on this:

There's no ride quite so soft and cushiony as the Buick ride, whatever the size and series. There's no power quite so satisfyingly lively as Buick's high-compression, high-pressure Fireball power.

Above all, there's no "buy" like a Buick—no car that gives you such a rich dollar's worth of smartness, handling, comfort and liveliness for every dollar you pay.

So why not look the whole line over? Your Buick dealer has these grand travel-mates in a baker's dozen of different body types and sizes. Start your shopping in his showroom—and you'll find that even on delivery he has exactly what you want.

BUICK alone has all these features

Silk-smooth DYNAFLOW DRIVE • FULL-VIEW VISION from enlarged glass area • SWING-EASY DOORS and easy access • "LIVING SPACE" INTERIORS with Deep-Cradle cushions • Buoyant-riding QUADRUPLEX COIL SPRINGING • Lively FIREBALL STRAIGHT-EIGHT POWER with SELF-SETTING VALVE LIFTERS (Dynaflow Model) plus HI-POISED ENGINE MOUNTINGS • Low-pressure tires on SAFETY-RIDE RIMS • Double-Duty VENTIPORTS • DUREX BEARINGS, main and connecting rods • BODY BY FISHER

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

SEE and HEAR OLSEN and JOHNSON'S FIREBALL FUN-FOR-ALL every Thursday on Television

When better automobiles are built BUICK will build them
