**75-Year-Old Motorcyclist Spills, Hurt**

A motorcycle upset while he was taking a driver's license test resulted in minor abrasions and a shaking up for 75-year-old Frank Szopieray of 2421 Oregon, yesterday.

Szopieray had just passed the written part of his examination at the license examiner's office, and went outside at Third and Klamath to take the actual driving test. While Examiner Jimmy Ray watched from the sidewalk, the man took off on his cycle, turning too sharply and upsetting.

Kaler's ambulance was called, but Szopieray received only minor hurts and did not require hospitalization.

P. S. He didn't get his driver's license.

**Rotarians Hear Story Of Europe**

A vividly interesting description of her recent San Francisco State college seminar trip through post-war Europe was presented to the Klamath Falls Rotary club at the regular meeting yesterday noon at the Willard.

Mrs. Ferguson said she was struck most impressively by England's socialized medicine problems, the vast amount of war destruction still in evidence everywhere across the continent, the agricultural work still conducted largely by hand and many times by women, and the ominous implications taking shape in Czechoslovakia since its acquisition by Russia.

"Ruthless" "Five year plan signs are displayed prominently in the cities," she said, "Russian administrators display all the ruthless qualities of totalitarianism, and already the schools are beginning to teach only the Russian language and Russian governmental concepts."

In conclusion, Mrs. Ferguson said all 25 members of the seminar party were delighted to return to America and that all of the ladies said the first thing they intended to do when they arrived home was to make a good old fashioned American pie.

State Legislator Ed Geary served as Rotary's chairman of the day in introducing Mrs. Ferguson to the membership Bill Knotts, general manager of the Klamath Falls Bears store, was introduced as the newest member of Rotary by Bud Chandler.

**Fire Permits Not Necessary**

Fire permits are no longer required in forest service or Klamath Forest Protective association areas, it was announced today, although this does not mean the end of the fire season.

Forest authorities hasten to add that there is still a chance of fire danger. The woods have not had sufficient wetting from rain and snow to keep them from becoming dangerously dry again if there were a sudden return to warm dry weather.

Hunters are urged to use every precaution with camp fires and warming fires.

**State Cows Low**

PORTLAND, Oct. 8 (AP)—Oregon's milk cows produced an estimated 133 million pounds in August, a seasonal 12 per cent drop from July but 3 per cent higher than August a year ago, the department of agriculture reports today.

Although the number of cows on Oregon farms is near the low for the 18 years records have been kept, the output per cow has been high, the report said.

**NIGHT AT THIS MOMENT,** there are thousands of people in America who are debating whether to end all compromise with motor cars—by taking the step up to Cadillac.

To all these people we should like to say: "Longfellow was right when he penned the words—'Time is fleeting.'"

If you want a Cadillac, and feel that you are entitled to one, you ought to make arrangements at once to have one delivered into your possession.

Each day you forego it, you will lose a goodly measure of happiness and satisfaction—for a Cadillac is a joy to possess, and a joy to utilize. Many say that it adds to the zest of their whole day's activities.

Certain it is that a Cadillac brings with it the utmost in performance, in comfort, and in safety—and that it contributes immeasurably to its owner's peace of mind. Few, indeed, can be happy without a Cadillac—once they have learned how greatly it enriches their lives.

If you are among the many who have the impulse to own a Cadillac, come in and see us soon. Each day you delay means a loss in satisfaction which no other material possession can hope to supply.
