

Firemen List Seven Fire Preventive Rules

By The Associated Press
The National Fire Protection Association reports that fire is attacking our homes at the rate of 700 a day.

Most fires, they claim, are attributed to the violation of 7 easy-to-remember safety rules. Here are steps they suggest to eliminate the hazard:

1. Never smoke in bed. Keep ash trays handy. Don't discard lighted cigarettes and matches. Keep matches in metal containers out of reach of small children.
2. Don't use or store flammable cleaning fluids or other explosive

3. Old magazines and newspapers stored in closets, basements, and attics are good tinder for a spark. Throw them out, along with broken and discarded furniture. Keep oily rags in covered metal containers.
4. Have an electrician check the wiring to make sure it is adequate to operate all electrical appliances safely. Protect the circuits with the right fuse. Disconnect appliances when you have finished using them. Never attempt to operate if defective. See to it that frayed cords are replaced.
5. Flammable, curled roofing is a large, attractive target for a chimney spark or air-borne fire brand. Asphalt shingles, or other fire-resistant material cost no more, and often fire insurance rates are lower.
6. Have your heating system checked to see that it is operating properly. Replace defective or worn parts. Have the furnace cleaned yearly. Enclose the furnace in fire-resistant walls, and have exposed beams covered with some fire-resistant material.
7. Have the chimney inspected and make sure it is solidly built, properly supported and lined. Clean once a year.

If housewives will take these steps now, the NFPA says, the number of home fires will be cut 90 per cent almost overnight.

Warm Springs Road Opening Set Nov. 13

Opening of the last stretch of the Warm Springs highway was announced to Klamath chamber of commerce members on Wednesday. Ceremonies to mark the opening have tentatively been set for November 13 at the Mill Creek bridge. A meeting will be held next Sunday at Timberline lodge to lay final plans.

The new road will provide a straight, fast road via Madras to Portland from Klamath Falls.

Oil Work
Ed Anderson and J. Vern Shangle of Medford spoke to chamber members briefly outlining the work being done by the United Company of Oregon. United is engaged in oil exploration work in the state. At the present time the company has two test wells in the Harney area and is planning further test bores.

Members were reminded that in case of a change of address voter registration must be kept up to date and the move recorded. Failure to do so takes the name off the voter roster.

Blast Frees Man On Murder Count

SAO PAULO, Brazil (AP)—The district attorney of Taubate, Sao Paulo state, was summing up. The defendant was a farmer accused of stabbing to death a neighbor. His plea: self-defense. He claimed the neighbor tried to shoot him.

"Gentlemen of the jury," said the D.A., brandishing exhibit A, an old pistol, "this is a prehistoric piece. As anybody can plainly see, it won't work at all." Click, click, click went the hammer as he pointed at the jury, the public and a clock.

Boom: went the thing when he pointed at the judge. Near miss. Quick recess to re-establish order. Quick huddle by the jury. "Your honor," said the foreman, "we find the defendant not guilty. The district attorney has just cinched his defense."

Little Girl Dying While Aid Sought

OKLAHOMA CITY, Oct. 13 (AP)—Janet Latscha lies in a hospital ward and a doll is by her side.

Doctors say she is dying.

"I know I'm sick and I hurt," Janet says. "But Jesus suffered. He had nails in his feet, and I don't have."

Janet is just six and is an asthmatic. Doctors say her lungs can't survive many more severe attacks.

Mrs. Wilma Latscha, her divorced mother, wants to take her to Albuquerque, where the hot, dry climate is favorable to respiratory diseases.

The United States' area is 3,022,387 square miles, including the District of Columbia and 45,259 square miles of inland water.

They've been offered transportation, but Mrs. Latscha must have enough money to assure adequate care for her child until she finds work.

And she doesn't know where to get it. She hopes the public will help.

Wiped Out
"My father and brothers have sold everything they had," Mrs. Latscha says. "It has completely wiped us out."

Janet weighs only 35 pounds — far below normal — and her mother figures she has lived more than four of her years in hospitals. She's had asthma since she was 10 months old.

50-Year-Old Huller Still Works

DES MOINES, Iowa (AP)—A Clover Huller, 51 years old, was in operation this summer on the Jake See farm three miles north of Amasa, Iowa.

The machine is owned by Frank Delana, of Norway, Iowa, and was bought by his father in 1898. It has been used practically every year since.
