Mrs. Matson To Speak At Covenant

Guest speaker at the First Covenant church, 423 Walnut, for all services on Sunday will be Mrs. Peter Matson, veteran missionary to China.

Mrs. Matson is the wife of the first Covenant missionary to enter the restless and needy field of China. Now after over 50 years of continual ministry on this field the successors of Rev. Matson are being forced to flee from China because of communistic activities which endanger both life and property.

Mrs. Matson will have an interesting account to give. She will bring a brief talk to the Sunday school at 9:45 and will speak for the 11 a. m. and 7:45 p. m. services. The public is cordially invited to hear this missionary and her story.

"Marriage Is More Important Than Love," is the theme Rev. Edward Lander has chosen for the seventh message in a series on the Ten Commandments, to be preached at the 11 o'clock morning worship service of the Community Church of the Brethren, 4273 Bristol avenue (off Summers lane). The sermon will be based on the command, "Thou shalt not commit adultery."

On Tuesday at 7 p. m. the church will inaugurate a regular monthly moving picture series in cooperation with several Klamath Falls churches. The first picture will be "I Am With You," a full-length religious drama which was photographed in southern Rhodesia. An added attraction will be an animated cartoon. This is a community service at which only an offering will be received to defray the expense of the film rental.

Rev. Lander will leave Klamath Falls on Wednesday to attend the district meeting of the Church of the Brethren to be held in Portland, October 27-30. In his absence, Senator Philip Hitchcock will be the pupil guest.

The community is cordially invited to attend all of the services of the community church.

Why this isn't your 1950 model car

This gasoline buggy, now safely tucked away in dusty photograph albums, was quite a car in its day. It buzzed along at 20 miles an hour, had a jaunty, rakish air, and the people who could afford to buy one thought it was perfectly wonderful.

In fact, it was so good it might still be the car you drive but for one reason. Competition. Healthy competition among both automotive and oil companies that resulted in constantly better, lower-cost automobiles and steadily improved oils and gasolines.

For one example: Here at Standard of California, we've pioneered literally thousands of improvements in gasolines, motor oils and other petroleum products since the days of the horseless carriage. Those you use in your car today are unsurpassed anywhere. The world's first service station built by Standard in 1907 has grown, including outlets of all companies, to a network of more than a quarter of a million stations across the country.

This progress, spurred by competition, will not stop. Just since the war, we've spent more than \$450,000,000 in plants and facilities to serve you better.
