New Pine Creek

The ever increasing army of sportsmen who have either successfully concluded the deer hunting season or on the Oregon side, given up in disgust the possibility of displaying a nice set of antlers, the luring quest now is not how great the horn spread but how wide the wing spread.

Bang!
On Friday morning, October 21, the wisest of this army of sportsmen, will be neatly concealed in a carefully prepared blind, covered with straw or some sandy-colored covering and one half hour before sunrise which is 6:25, will point their powerfully loaded guns at that big lead goose, the stonkest in the flight, or in the duck shoot, aimed at that nice fat mallard which they can all but taste sizzling in a hot pan smothered in a favorite sauce.

Along with the uncomfortable things that accompany this sport, it is comforting to know that you may have six geese as a daily limit with not over two Canadian honkers, or its subspecies, two white-fronted geese or two brants included in the daily limit. Any time after the first day you may have two daily limits in your possession. The daily limit on ducks is five in the aggregate and you may have one beautiful wood duck if Lady Luck drifts in your way.

Grange Meet
The Grange Booster-night was well attended last Saturday night and the lecturer, Mrs. Fairy Hammerley, had a very nice program coupled in with the open meeting. Along with a great many visitors and prospective new members, several representatives from other granges in Goose Lake valley were in the crowd. Dancing and visiting followed the program and a good supply of food was on hand for the midnight supper. Several membership cards were passed out and filled in. Secretary Mrs. Louise Miller reported, and the out-look is favorable that many good times are forth-coming for grangers this winter.

Grange Dance
The Davis Creek grange is having their first big benefit dance of the season on Saturday October 29. Remembering the numerous good times they have had on these previous occasions at Davis Creek local patrons and Willow ranchers are looking forward to another rousing good time. The music will be furnished by Sue's band.

Unfortunately, for the good of both sponsors, the Ft. Bidwell Eastern Star ladies are holding an old time masquerade over the hill on Saturday October 29 also. This will add a little disappointment to many from here who usually attend the benefits of both groups but can hardly be both places on the same night—or can they?

New Garage

Woman Slow-bakes Her Bouquets

LOS ANGELES, (AP) — Mrs. Mae DeLano slow-bakes her bouquets. The flowers last longer that way. Here's her recipe for framing: Cut flowers (preferably flat types), leaves and lacey ferns. Place in an oven dish, cover with clean white sand, and bake for 10 hours in a low oven. After baking, Mrs. DeLano removes the posies, cleans them with a camel's hair brush, and arranges them on a flat backing. She fixes them in position with transparent glue.

Then she carefully clamps a glass, airtight frame over the design and behold — a beautiful picture, painted in nature's own colors. Mrs. DeLano cautions imitators not to underbake. Then the blooms wither under the glass. And don't overbake. The colors fade or turn brown.

Many Long Distance operators now ring telephones in a number of cities across the country...much as you dial a call.

SHE "PUSH-BUTTONS" CALLS COAST-TO-COAST

New system can put through calls in 30 seconds

1. One of our newest developments to speed your Long Distance calls is this push-button equipment. Precise in operation, so complex it's almost a mechanical brain, it's a key to a system which permits an operator to call straight through to telephones in other cities...practically as fast as dialing across town. Push-button or dial equipment now is used for three out of four calls between cities.
2. Quicker call completions are one big advantage of the operator push-button system. If you know the number—instead of just the name and address—we can ring the telephone you are calling in an average of about thirty seconds after you lift the receiver. That's three times as fast as we can serve you if you don't know the number. So it's a good idea to keep a list of those you call often.
3. Perhaps your next Long Distance call may be handled this way. For the new plan is part of our continuing program to improve all services—local and Long Distance—to make it more valuable to you. Today your telephone is a bargain. A daytime station call to any point on the East Coast is only \$2.50 plus tax...the lowest rate ever.
