

Dog Judging Starts 10:30 Tomorrow

Judging of six classes at the purebred dog show scheduled tomorrow, Sunday, by the Klamath Kennel club, will get under way at 10:30 a. m. with the toy class first in the ring at the fairgrounds.

The show will continue to 5 p. m. at which time a cocker puppy will be presented to one of the show-goers.

Classes to be judged in the morning, including breeds are: Toys, Chihuahuas, Pekingeses, Pomeranians, Non-sporting, Boston terrier, Bulldog, Chow, Dalmation, Poodle.

Hounds: Afghan, Beagle, Dachshund, Greyhound.

Terriers: Airdale, Bedlington, Cairn, Scotties, Wires.

Working dogs: Boxer, Collie, Doberman, German Shepherd.

In the afternoon:

Sporting dogs: Pointers, Retrievers, Setters, Spaniels, Weimaraners.

Children:

At 3 p. m. the children's handling class will be reviewed. Judging for best in six groups and best in show is scheduled for 3:30 p. m.

Rules laid down by the Klamath Kennel club call for all dogs being judged in the morning must be entered not later than 10 a. m., and those to be judged in the afternoon, not later than 1 p. m.

Entry blanks may be obtained the day of the show at the Klamath county fairgrounds.

Judge of the show is Reginald L. E. of Milwaukee, Ore. veteran of many dog shows.

Bureau To Hear State Engineer

Gilbert E. Hillman appraisal engineer from the Salem state tax commission office will be the guest speaker at a meeting of the Bonanza farm bureau center to be held at 8 o'clock Wednesday evening in the Bonanza school.

All people, whether members or not, who are interested in hearing the re-appraisal of farm property expenses are invited to attend.

Fireball Big October Meteor Aimed At States Geographic Center

EUGENE, Nov. 5 (AP)—Dr. J. Hugh Pruett, western director of the American Meteor society, announced here today that Oregon's daylight fireball of October 1 had as its target a point not far from the geographic center of Oregon, in western Grant county.

The tailed meteor, described by some observers as being "as large as the full moon," flashed through sun-burned skies at 2:30 p. m., on October 1, opening day of the 1949 deer hunting season in Oregon, and was widely observed by hunters.

Second Traced

It was the second daylight fireball traced by Dr. Pruett, University of

Oregon astronomer, in his 17 years of service as the American Meteor society's No. 1 fireball hunter. The other daylight fireball charted by the astronomer was the noisy Portland meteor of July 2, 1939. The 1949 fireball has been named the Hunters' Silver meteor.

Like the Portland fireball of ten years ago, the Hunters' meteor also was a noisy object. Some hunters, east of Prineville and south of Mitchell, heard a sound like the roar of thunder. Oscar Storassi, Prineville, believed the meteor struck the earth and said the noise and vibration were "terrific." He was in the woods hunting.

Water-filled Tires Good, Company Says

LIVERPOOL, Eng., Nov. 5 (AP)—The trucks of a cartage firm here are rolling on water instead of air.

T. Beard, the firm's chief engineer, said he had been experimenting with water-filled tires a year ago and "the results are excellent."

"Our drivers have sent glowing reports of the way in which their vehicles ride comfortably at all speeds," he said. "So far we have had no punctures. The tires can go for as long as six months without any maintenance."

Non-Skid

Beard began his experiments in an effort to combat wheel spinning and skidding, cut down tire wear and improve braking on the firm's 70 heavy trucks.

He fills each back tire with 20 gallons of water and adds calcium chloride as an anti-freeze.

It is the practice in the United States to fill some farm equipment tires with water in order to gain more traction through added weight.

River Pollution Ban Pondered

PORTLAND, Nov. 5 (AP)—The state sanitary authority will meet December 9 to decide whether to issue a "stop polluting the river or close your plant" ultimatum to mills on the Willamette river.

A spokesman for one pulp and paper mill told the authority yesterday that it couldn't possibly obey an order to stop dumping waste into the river by December 31, 1951. The 1951 date is being considered, since that is when Portland's new sewage disposal system will be finished.

Frank McCullough, attorney for Publishers Pulp and Paper company at Oregon City, declared that his firm could not comply with the order, because it simply couldn't find any other way to dispose of the waste.

VFW Recruits Initiation Sunday, 2 p. m.

A new class of recruits will be initiated at K. C. hall at 2 o'clock Sunday afternoon by the Pelican post No. 1383, Veterans of Foreign Wars.

All overseas veterans are invited to bring a copy of their discharge or something to prove overseas service during the war to the hall and join the local organization.

Following the initiation the post will give a dutch lunch at the luncheonroom, 515 Klamath. Dues for the membership fee include \$2 for initiation fee, and \$5 for dues to January 1, 1951.

Further information about the organization may be obtained from any member or officer of the post.

Bennion Explains Egg Law

At a recent meeting of poultry producers of Klamath county, Noel Bennion gave a simple interpretation of the Oregon egg law. Bennion, extension specialist in poultry from Oregon State college, interpreted the revised egg law to enable egg producers to better compete with imported eggs.

Under the old egg law, people from the Middle West were able to ship in eggs that were under the top grades of grading and under bid our markets for AA and A grades of eggs.

Simplified

Available in the county agent's office is a statement of simplified interpretation of these egg laws. These statements outline the necessary permits, grading labels, which a producer must have for the various means by which he sells his eggs. Oregon poultrymen are protected with a revised law, which does not prevent people from importing eggs, but it does force them to come up to high standards of local production.

Bennion, by means of color slides and fresh eggs, demonstrated the differences between AA, A, B, C and inedible eggs. The condition of the yolk and white was pointed out, making a difference between AA and A grades.

Incomes Down; Mid-West Farmers Suffer Biggest Loss

WASHINGTON, Nov. 5 (AP)—Mid-Westerners, who generally get the biggest hunk of the nation's farm income, have found dollars harder to make this year, the agriculture department said yesterday.

Farm income for January through September this year was lower in every mid-Western state than for the corresponding 1948 period.

The national trend was downward, too. Total 1949 income for nine months was \$19,035,962,000 (B), compared with \$20,763,775,000 (B) for the similar period in 1948.

Iowa, Leader

Iowa led the 12-state mid-West section, as well as the entire nation, with cash receipts of \$1,426,928,000 (B) from farm marketings. This was a drop of 72-million-plus from the first nine months of last year.

Only nine states, one of them Washington state, had larger incomes than in January-September 1948.

Iowa and three other states reported farm income for the period above the billion dollar mark. California was runner-up with \$1,357,000,000.

Streets Don Yule Finery December 2

Broadway, New York's great White Way, will have to watch its laurels, when Klamath Falls' merchants association put the Christmas decoration scheme into effect on December 2.

In connection with the contemplated decorations of lights and tinsel, merchants are sponsoring window decoration competition.

In competition between stores, every window which measures up to a certain standard set up by the committee will be awarded a ribbon.

Don't Burn Your Leaves In Streets

Frank Steele, city street department foreman, is rather unhappy with the manner in which local residents are getting rid of their leaves these days.

"In fact," said Steele, "I wish these people would stop burning their leaves on the city streets.

What happens is this. They touch a match to a pile in the middle of the street, and not only burn the leaves, but also the street. The leaves smoulder for hours, the asphalt breaks loose, and sometimes a hole is left in the street."

"Incidentally," Steele added, "there is a city ordinance against putting rubbish in the streets."

Last Month Little Cooler Than Usual

The mean monthly temperature for October in the Klamath Falls area was 48.3 degrees, which was 2.9 degrees under the normal.

Lowest temperature of the month was recorded the 19th, and was 2 degrees. The highest was 71 degrees recorded the 19th.

Dry

Precipitation was .63 of an inch under normal since only 36 of an inch was recorded. Good weather prevailed most of the month as there were 18 clear days, eight cloudy and five partly cloudy days.

Active storage of the bureau of reclamation reservoirs as of November 1, were: Upper Klamath, 203,040 acre-feet of water; Clear Lake, 108,140; and Gerber, 11,220 acre-feet.

PERMANENT NOW

PORTLAND, Nov. 5 (AP)—The "acting" tag was removed from Thomas L. Ohlsen's position as administrator of Oregon milk control today. Ohlsen, who has been acting administrator since the post was created in July, was placed on permanent status yesterday by the state board of agriculture.

Another Gadget To Clutter Up Your Car

By BILL JENKINS

THUMBING through a magazine the other day I ran across an ad for a new type of auto mirror designed to let you look ahead instead of back. The gadget is a two-way mirror, one opposed to the other at right angles and with a swivel. The forward looking mirror reflects the road ahead and to the left which is in turn reflected in the backward facing mirror which you see. The angle is to allow you to see around the car in front and find out if it is safe to pass. Maybe a good idea, but it looks like a ship's boom sticking out of your door post. Suppose you add this gadget to the ones already on the market. You would start with a sleek, smooth car and end up with a weird looking affair having a bolted on sunshade, a couple of mirrors on both sides, a few extra lights, parking warnings on the fenders, a radio antenna equipped with a little red gadget supposed to increase efficiency, and back-up lights, compass, altimeter, magnetic ash trays clamped to the dash and countless other things. In fact, you have a car that looks just like the 1920 version. The old cars looked about like a converted box car and were just about as big. Then they streamlined them and made a good-looking wagon out of it. Now, the pendulum has swung again, and cars are beginning to get that boxy look. Just like women's clothes. And almost as expensive.

THE duck hunters are still crying about the weather, but I seem to notice quite a few of the boys doing their crying while clutching a limit of ducks in their hot little hands. Maybe hunters are just as bad as a class as fishermen.

Twins, Triplets In Same Year!

ATLANTA, Nov. 5 (AP)—Twins last January 16.

"Triplets this morning—'Gosh, I hope there are no more any time soon,'" said Mrs. Thelma Gibbs, 27, of Atlanta.

She was feeling fine, though, after giving birth to three girls. Each, as yet unnamed, weighed a little more than three pounds.

Her husband is a parking lot attendant.

OTI Sponsoring Millinery Class

A millinery class will open Tuesday, November 8, at 7 p. m. in Room 107, Klamath Union high school, under the sponsorship of the Oregon state vocational department. It was announced today by Harold Teale, KUCS vocational director.

Any interested person, regardless of any past experience in millinery, is invited to participate. There is a \$3 fee for 10 lessons. Material will be provided by the students.

Merchant on New York Buying Trip

Marvin Lucas left this week on a buying trip to New York, where he will purchase merchandise for his new ladies apparel store at 520 Main. The new store which will be called "Marvin's," will open about December 1, if present plans go through.

Lucas has joined Kirby, Block and company, the oldest buying organization in New York City and representing over 100 stores throughout the nation. Lucas expects to return about the middle of November.

STORE ELECTION

PORTLAND, Nov. 5 (AP)—A collective bargaining election will be held November 9 among 400 office employees of Meier and Frank company to decide whether they wish to be represented by the AFL office employees union.

A Skirt You Need!

Marian Miller

MARIAN MILLER

Introduce this to your blouses and jackets! Most popular skirt of the season, it has side-patch pockets, tiny waist, back placket. The sewing is easy, no side-seams!

Pattern 9457 comes in waist sizes 24, 26, 28, 30, 32 inches. Size 28 takes 2 yards 54-inch.

This easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.

Send TWENTY-FIVE cents in coins for this pattern to Klamath Falls Herald and News Pattern Department, P.O. Box 6740, Chicago 80, Ill. Print plainly YOUR NAME, ADDRESS, ZONE, SIZE, STYLE NUMBER.

Don't miss—our Marian Martin Fall and Winter Pattern Book! Smart, new clothes to sew at home. Gift ideas by the score. Send fifteen cents for this book—a Free Pattern is printed in the book—a new wrinkle to wear with your skirts and dresses!
