

Forest Land Seeded With Range Grass

The forest service recently completed the seeding of 1200 acres of the Modoc national forest to range grasses. Two hundred acres of sagebrush land near the Holbrook place in the Clear Lake hills was plowed with a Towner offset disk by Ray Tralley and Darryl Delaney in June.

This area was seeded with a grain drill using eight pounds of seeded wheat to the acre by Everett Hart and Nat Daniels in late October and early November.

Timber Cleared
One thousand acres of the Portuguese timber burn which occurred in August this year was seeded by airplane on October 31 to range grasses. C. T. Jensen of Sacramento contracted for the seeding job and used the emergency landing field on the Shuck brothers ranch near Likiep for landings and take-offs. It took seven hours flying time to do the job.

A mixture of smooth brome grass, seeded wheatgrass, timothy, yellow blossom sweet clover, western wheatgrass, slender wheatgrass and

meadow fescue at the rate of 6 lbs. per acre was used. Supervisor Rector of the Modoc national forest states that the carrying capacity of the 1200 acres of land will be increased greatly by this seeding.

The job was financed from range improvement funds and is part of the local program of the forest service to improve the ranges. This last 1200 acres brings the total of range on the Modoc seeded by the forest service the past five years to 3724 acres.

Cattlemen To Hold Meeting
There will be a meeting of the Klamath cattlemen's association on Monday evening, November 28. A dinner is planned for 7:30 p. m. with the business discussion and program following.

Rabbit 4-H Club To Be Organized

An organizational meeting will be held at 2 p. m. Saturday at the home of W. C. Martin, 1563 Etna for all 4-H club boys and girls living in the Shasta or Altamont school districts to form the Shasta Good Luck Rabbit Club.

All boys and girls who want to raise rabbits may attend this meeting for 4-H clubbers which is sponsored by the Klamath basin rabbit breeders association.

"We want to organize as soon as possible and elect our officers for the coming year," Martin said.

Success
"The club was a big success last year and we hope to have even a bigger and better club this year," he continued. Besides the 4-H club in Klamath Falls, other rabbit clubs are expected to be formed in Merrill and Bonanza, which will provide more competition.

Plans for the activities of the coming year include picnics and outings and various rabbit shows for members of the club. Each

year special prizes are offered at the fair for rabbit winners in the various divisions.

"All boys and girls who are interested are invited to attend the meeting," Martin said.

Subsurface Plows Advocated

LUBBOCK, Tex. (AP) — Plows that work only underneath the surface are advocated to stop soil erosion by Dr. A. W. Young, head of the

plant industry department of Texas Technological college.

These plows have chisel noses and underground blades to cut the subsoil on each side. They leave in place the stubble of previous crops. Every bit of stubble or any other crop residue left with its roots in a field, says Dr. Young, is both a natural wind break and a water dam. The stubble binds the top soil from blowing away as dust and from erod-
