New Flying Club Formed, Plane Bought

In an effort to stimulate more flying activity and provide more economical flying, a group has formed the Klamath Fly-More club. Several organizational meetings have been held, and by-laws, constitution and operating rules will be approved at the next meeting, 7:30 p. m., Monday in the airport office of the Stinson Flying service.

The club is incorporated under state laws. Roy T. Premo is president; Louis Bock, vice president; B. A. Davidson, secretary-treasurer; and Chet Stinson, operations manager.

Plane
An Aeronca Champion TAC has been purchased for the club and flying activity is scheduled to start this month. Ten men have already signed their desire to join the club and by-laws will limit the total membership to not more than 15 to hold the rating of private pilot or better.

Pilots who have completed GI flight training and have been unable to continue flying due to high costs are particularly invited to attend the Monday night meeting or call Premo or Davidson for further information. Other clubs will be formed as the demand increases.

Oregon Employees Eye Resolutions

PORTLAND, Nov. 19 (AP)—The Oregon State Employees association convention was leafing through nearly 50 proposed resolutions today.

A few, designed to improve the security of state workers, were outlined by President L. R. White at the opening of the convention yesterday.

White recommended a study of wages, to keep state salaries on a par with private business. He also proposed more liberal retirement rules, including pensions for spouses of employees who die before retirement age.

Ice Skates, Fireballs And Beauty

By BILL JENKINS

A TOUCH of winter is beginning to creep into the air these days, and especially these mornings. Won't be long now until there should be some ice skating. And this year the ardent fans of the sport will have a larger and better place to indulge. Sam Smith and the boys from the city have kept busy with their project out past Moore park and have both enlarged and improved the rink there. There is more space for ice, and across the road is more space to park, which proved quite a problem last year. The shed has been improved and all in all things are looking pretty bright. It's all up to the weatherman now.

THE ice seem to have been full of flaming objects lately, with reports coming in from every direction but most of them agreeing that what they saw was in the west. A huge, bluish ball of fire with a tail was seen by several people, and other manifestations of heavenly fireworks have been reported. Some of them may be explained away by the fact that Babe Reeder was testing out a goose flare Thursday night. A goose flare is a bomb shot from a 30.06 rifle and is used to scare birds off the grain fields earlier in the season. That may be what some people saw.

Another man reports a mysterious object in the sky which he spotted when he was some 30 miles the other side of Chilquin. It seemed to fall in the general direction of Happy Camp. That could hardly be Babe's goose flare. The AP wire report has carried several yarns from about the Northwest about other showings of fiery balls. Maybe we are undergoing a meteor shower. I would imagine the whole thing will be satisfactorily explained once J. Hugh Pruett, at the UO, gets hold of it and goes to work.

THE North Entrance parkway work is being pushed along, and more and more stakes are appearing that will someday mark the site of tall trees and flowering bushes. Fifty years from now that is going to be one of the most beautiful city entrances anywhere in the state. Everything from stately Ponderosa pines to native grasses will be represented. Maybe just the shot in the arm that Klamath needs to keep on improving the looks of the city. Gosh knows we need a little improvement in the lines of beauty.

Horticulturist Meeting Ends

EUGENE, Nov. 19 (AP)—The 64th annual meeting of the Oregon State Horticultural society ended here Friday afternoon following a two-day conference of more than 100 persons from all over the state. Growers of vegetables and tree fruits discussed the latest developments in the horticultural field and heard reports from experts.

Robert Nummenmaker of Hood River was elected president to replace Lon Hawkins of Eugene. Other elected officers are Ward Spatz of Medford; Tom Harper of Junction City, second vice president; C. King Benton Jr., Hood River, third vice president, and C. O. Rawlings, secretary-treasurer.

What's **YOUR** price tag on happiness?

springs, a husky, steady-traveling understructure, cushions that are deep and soft and wide enough to let you spread yourself a bit.

Even that extra swelling of the chest that comes from owning a car you know everyone respects and admires.

In a word—your happiness. It's never out of our mind in planning this car—nor in making very sure each dollar of cost gives you the greatest possible benefit.

That's why we rather proudly ask you to go see—and try—this Buick SPECIAL. It's priced like a six, in spite of the fact that like all Buicks, it's a big-powered Fireball valve-in-head straight-eight.

And we honestly believe that it puts a lower price tag on your motoring happiness than any other car you can buy today! See your Buick dealer and find out about that.

JUST what do you see in this handsome, tidy-sized Buick SPECIAL pictured here?

The smartest bit of automobile styling on the road today? The standout beauty of tapering fenders—the sturdy protection of a wholly new front-end design?

The prestige that's in the Buick name—the solid, road-wise steady-ness Buick has always stood for?

Your chance to get in on the perfect smoothness of Dynaflo Drive*—this being the lowest-priced car on which that sensational new transmission is available?

*Optional at extra cost.

When better automobiles are built BUICK will build them

They're all there, every one of those things. And for a good reason that may go a bit beyond the usual idea in designing an automobile.

For, a long while ago, we graduated from the idea that a motorcar is merely a means of getting about.

The way you travel is pretty important too. The lift that's yours in knowing there's no prettier picture anywhere on the highways. The "kick" there is in a power plant that's lively and eager and always ready to get in on the fun.

The comfort that's found in all-coil
