Degree of Honor—The Degree of Honor will sponsor a turkey and potluck dinner at the KC hall Monday night, November 28, at 6:30 o'clock. Turkey will be provided by the lodge and members are asked to bring the other dishes. Members and their friends are invited.

Thanksgiving Visitors—Gene Hoyer, daughter of Mr. and Mrs. M. W. Hoyer, 315 Alameda, is visiting her parents over the holiday. Also visiting the Hoyers for dinner on Thanksgiving Day were Mr. and Mrs. W. H. Reid of Bend.

Home From School—Bob Burke, senior student at the University of Oregon, is home for Thanksgiving Day week-end with his parents, Mr. and Mrs. J. A. Burke, 1941 Del Moro.

Gideon Society—Members of the Klamath Falls Gideon society and auxiliary will meet for the November session, a potluck dinner at 1:30 p. m. Sunday at Emmanuel Baptist church parlors.

From Portland—Mr. and Mrs. J. Edward Poltras of Swan Island, near Portland, spent Thanksgiving week-end in Klamath Falls and at Chiloquin. They are former residents of Klamath Agency.

Thanksgiving—Mr. and Mrs. Warren Whitlock and young daughter spent Thanksgiving week-end here from their home at Grants Pass, guests at the Earl Whitlock home.

Visitors—Mr. and Mrs. Warren J. Kerrigan spent Thanksgiving holidays at Chiloquin and with other friends in the Klamath area. They returned to their home Saturday.

Visiting—Mrs. Charles Sigl, of The Dalles, returned home Thursday after spending a week with her father, Alex Bradburn and her aunt, Mrs. Rose Keese, 324 S. 9th.

In Grants Pass—Al Lent, former Klamath Falls merchant, is now in business in Grants Pass, friends here have learned.

Below Zero In Michigan

By The Associated Press
The nation's weather pattern today followed that of the last several days. There was snow, rain and sleet and cold over the Midwest and the Northeastern part of the country. Fair weather with mild temperatures, prevailed over most of the Western half of the country.

Only one area, South Central Lower Michigan was hit by sub-zero weather. The mercury dropped to four below at Lansing; -2 at Jackson and -1 at Battle Creek. Detroit's low was 12 above. The cool air touched into parts of Mississippi and Alabama. Birmingham reported an early morning low of 28 and temperatures were near freezing at Greenwood, Miss.

Solon Knocked Down, Empty Wallet Taken

TOWSON, Md., Nov. 26 (AP)—Rep. William P. Bolton (D-Md.) was knocked down early today by two Negroes and robbed of his wallet. He was unhurt.

There was no money in the wallet, but the holdup men overlooked about \$100 in cash Bolton was carrying in another pocket.

Want to Read A Swell Book?

By BILL JENKINS
THERE will be little work done around this office for at least a short time. My office, that is. The reason being that in the morning's mail I received my copy of the Old Farmer's Almanac. No volume that rolls off the presses during the year gives me greater pleasure than this one.

You can find anything you want in it, even if you can't quite understand it when you finish reading.

Take a quick glance at the index if you don't believe it. Here's how it starts: Agricultural extension stations, Air; products of; Aldebaran, star; Almanac, home of; Anecdotes; Aphelion, earth in; Apples; Aspects; and so on clear through weather, weed killers, whaling and zodiac signs. Anyone who can't spend a happy afternoon over the pamphlet just doesn't have the proper literary balance.

Take up your volume and turn to page 94. There you will find a dissertation on atomic rockets. Well worth reading. The author, anonymous, of this article says we will soon be traveling to the moon. Not only that but we will arrive there in a rocket powered ship traveling 30,000 miles per hour. Once on the moon, earth-men will promptly set up stations to control the earth.

The moon will be extensively mined for its mineral deposits. The idea behind the ship is that it will travel in ever widening circles clear through weather, Venus or Mars or wherever you go. When you get there the ship will then travel in ever-tightening circles until the speed has been reduced enough to land. Fascinating.

The almanac is highly discouraging about the weather, gloomily predicting a hard winter with lots of rain and snow for most of the nation.

Guests—Thanksgiving dinner guests at the home of Mr. and Mrs. R. F. Daugherty, Laurel road, were Daugherty's brother and family, Mr. and Mrs. Ray Daugherty and daughters, Charlene and Jean of Portland. They returned to Portland Friday.

Finishes Course—Keith L. Rice, General Petroleum distributor here, has recently completed a 12-month course with the company designed to acquaint dealers with better methods of serving the public with their product.

Holidays—John and Malcolm Epley Jr. spent Thanksgiving week-end in Klamath Falls with friends from the University of Oregon. They are sons of Mr. and Mrs. Malcolm Epley, now of Long Beach, Calif.

Happy Houseworker

Marian Martin
MARIAN MARTIN
You'll be happy at your housework in this trim little frock! New flap collar and cuffs to match and a patch pocket decorate the new easy-on step-in style you love!
Pattern 9374, sizes 14, 16, 18, 20; 32, 34, 36, 38, 40, 42. Size 14 takes 3 1/2 yds. 35-in., 1/4 yd. contrast.
The easy-to-use pattern gives perfect fit. Complete, illustrated Sew Chart shows you every step.
Send TWENTY-FIVE CENTS in coins for the pattern to MARIAN MARTIN, care of Klamath Falls Herald-News, Pattern Dept., P.O. Box 6740, Chicago 80, Ill. Print plainly YOUR NAME, ADDRESS, ZONE, SIZE, STYLE NUMBER.
Don't miss—our Marian Martin Fall and Winter Pattern Book! Smart, new clothes to sew at home. Gift ideas by the score. Send fifteen cents for this book—a Free Pattern is printed in the book—a new week! to wear with your skirts and dresses!

SAW another truck in that loading zone across the street this morning, bringing the total to four now. At least the front of the rig was in the zone. The rear end was still sticking out in the street and blocking the way as much as he would have been had he merely double parked there.

Bonneville Now Champ Producer?
PORTLAND, Nov. 26 (AP)—The Bonneville administration may now be the nation's largest producer of power.

Officials disclosed yesterday that production had passed 2,000,000 kilowatts for the first time, reaching a peak of 2,054,000 in a one-hour period Wednesday.

They said this made it "probably the largest producer of energy in the nation."

CARD OF THANKS
We wish to express our sincere appreciation to our many friends, and especially to the members of the Elks Lodge and Z. C. B. J. Lodge for the acts of kindness, the messages of sympathy and the many beautiful floral offerings, also for the many cancer fund donations, during our recent bereavement and loss of our husband, father, and brother, James J. Ottoman.

LONE SURVIVOR—Isaac Alial (above) was the sole survivor of a plane crash in Norway which brought death to 27 other Jewish refugee children and seven adults is pictured in a hospital at Drammen, Norway. Wreckage was found on a wooded hillside 30 miles from Oslo more than 42 hours after the crash.

Macdoel Rabbit Drive Sunday
MACDOEL—Another rabbit drive by ranchers of the Macdoel area is scheduled for Sunday at 10:30 a. m. Only clubs will be allowed in killing off the pests which have become dangerous to crops. Dogs and guns will be banned.
The first hunt of its type was held last Sunday.

Stabs, Blows Kill Aged Recluse

LOS ALTOS, Calif., Nov. 26 (AP)—Surrounded by her seven half-starved Pekingese dogs, the body of a well-to-do San Francisco woman was found stabbed in her country home here last night.

Miss Irma E. Copeland, 60, had been dead two or three days, sheriff's deputies said. The lights of her house were blazing.

They went to the place on a call from her brother, Frank Copeland, from Long Beach. He said he was worried at not hearing from his sister and his inability to get in touch with her.

Miss Copeland, who inherited her mother's commercial florist business in San Francisco, had been stabbed seven times in the breast and back. She was beaten brutally about the head.

Motive?
Her body was slumped against a kitchen door. There was nothing to indicate a motive. She evidently had not been robbed. She had not been sexually attacked.
Neighbors told the deputies that

Services were held Wednesday with interment in Mt. Calvary cemetery, Portland. She was a former Klamath Falls resident.

Miss Copeland, once the wife of a San Francisco physician and who later resumed her maiden name, was "something of a recluse," a seldom left home or had visitors. She raised flowers commercially on her five-acre country place.

The neighbors had not thought it odd that the lights had been on continuously in the house for several days. They said Miss Copeland frequently left them on day and night.

Mrs. Rose Elie's Death Reported

Word of the death of Mrs. Rose A. Elie, mother of the late John B. Elie killed in a plane crash here several years ago, was received here yesterday. Mrs. Elie died in Portland on November 20 at the age of 81 years.

Police said Geraldine Menard, 20, was missing from her home and was known to have started across the Salem-West Salem bridge shortly before the 12:45 a. m. leap. That was the only clue to the victim's identity.

A young man on a bicycle, Edward Noeske, 17, first noticed the woman. He reported that he saw her with one leg over the guard rail. He jumped from his bike and pulled her back, then went on his way—but he had gone only 20 or 30 feet when she plunged over.

Woman Plunges To Death

SALEM, Nov. 26 (AP)—A young woman climbed a guard rail and plunged—presumably to her death—into the Willamette river early today.

Police said Geraldine Menard, 20, was missing from her home and was known to have started across the Salem-West Salem bridge shortly before the 12:45 a. m. leap. That was the only clue to the victim's identity.

A young man on a bicycle, Edward Noeske, 17, first noticed the woman. He reported that he saw her with one leg over the guard rail. He jumped from his bike and pulled her back, then went on his way—but he had gone only 20 or 30 feet when she plunged over.

PARDONS
PRAGUE, Nov. 26 (AP)—The Slovakian board of commissioners today announced pardons had been granted to 103 Roman Catholic laymen sentenced during the church-state fight.

What a whale of a difference when Oil does it all!

WHAT DO WE MEAN when we say that in Dynaflo Drive "oil does it all"?
Simply that in Dynaflo Drive, the spinning of oil in the Dynaflo unit does what you have long needed shifting gears to accomplish. For instance—

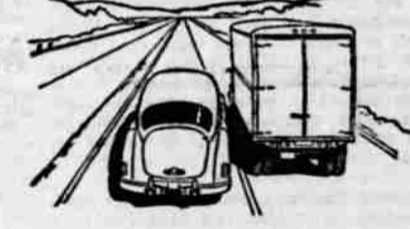

Here you are starting out. In most cars, you have to throw out a clutch and shift into low gear to get starting power. In Dynaflo, you simply set your lever in Driving position—and nudge the gas treadle.

Now you are beginning to move. In most cars, you shift manually—into second, then third—each time repeating that press-pedal-move-the-lever routine.

With Dynaflo, oil simply spins in a different path within the Dynaflo unit and you move into cruising pace easy as a bird taking off.

Here's a slow-moving vehicle you want to pass. In other cars you may have to shift again—with a definite loss of forward motion. That means a lag before you get action—and maybe another shift back into high after you have passed.

Not so with Dynaflo. Just step on the throttle, and spinning oil takes the path to give you extra power for passing. Response is as fast as engine response—practically instantaneous.

Here's a common traffic situation. Usually you go into second or low—in order to get a good fast getaway.

With Dynaflo, just press the gas treadle, never touching the shift lever. Spinning oil will find the proper channel of flow to give you getaway power—power that's ever-smooth—and great enough to step you out smartly and with unbroken, velvety smoothness.

Does that mean you never shift at all? Not quite.

For emergency braking power, for starts on very steep hills with heavy loads, for rocking out of sand or snow, you may occasionally change to Emergency Low range. This simply puts the entire Dynaflo operation into an extra powerful range.

But for all normal driving, you can use Driving range entirely. Oil will travel whatever course is required to give you the kind of power you need without any gear-changing whatever.

★ ★ ★

To see what a whale of a difference that makes—in ease, freedom of mind, and restfulness in a long day—ask your Buick dealer for a demonstration.

That, plus some very particular advantages in economy of upkeep, will convince you that Dynaflo is truly the "drive of the future."
