

Coffee Prices Steady, Eggs Continue Decrease

By The Associated Press
Further reductions in the price of grade A eggs topped food shopping news this week.

Some stores cut pork items a little and dairy products and produce items held about unchanged from last week-end.

Coffee prices also steadied and many storekeepers said their coffee sales had dropped below normal as consumers apparently started using up excess supplies they bought during the "scare runs" a few weeks ago.

Eggs were down two to eight cents a dozen in thousands of competitive stores across the country for the second week in a row.

And the agriculture department predicted that egg quotations "will continue to drift lower through the flush season of egg production in the first half of next year."

The department's bureau of agricultural economics said a record October egg production (3749 million eggs) contributed to the price decline during the past two months.

Continued high output, plus a new farm law for 1950 which puts even the maximum price support below the 1949 support level, promise prices lower for the coming spring than last year.

Meat traders reported a marked upturn in demand for pork, and credited the long downturn in

prices, some reductions ranging as high as 10 cents a pound were reported this week but they were said to be mostly in stores which were slower to trim their prices last week and were just catching up with competitive adjustments.

Lettuce prices steadied as shipments fell off after last week's skid. Growers in the Phoenix and Yuma districts of Arizona and in California's Imperial valley were reported planning to "disk under" 30 to 50 per cent of the lettuce acreage scheduled to be harvested prior to December 16, in a move to trim burdensome supplies.

Tomatoes and snap beans were reported scarce in many marketing centers.

LOS ANGELES, Dec. 8 (AP)—Louise Overell Cannon, acquitted of murder charges with former boy friend George Gollum in the 1947 yacht dynamiting of her parents, has elected to receive \$300 monthly for life instead of \$122,000 outright from insurance policies. This was disclosed yesterday in a final accounting of assets held for the heiress, 20, by her maternal uncle, Emmanuel Jungquist.

Motorcycle Chases Delinquents

REDLANDS, Calif. (AP)—Kenneth Nolan, 28, thinks theory is fine, but no substitute for first-hand learning. So he bounced 19,000 miles across Europe on a motorcycle to make a personal survey of juvenile delinquency.

Nolan, a sociology major at the University of Redlands, plans to make youth guidance his life's work.
