**FEED A DRY-TYPE FOOD
LIKE FRISKIES**

YES, 9 out of 10 professionals who feed a dry-type food like Friskies can't be wrong! They know dogs need a balanced diet—that meat alone is not enough. Friskies is a "full-course" dinner—one meal that provides every single food element dogs are known to need for complete nourishment!

50 YEARS OF NUTRITIONAL EXPERIENCE has gone into the development of the Friskies formula. Perfected after years of research, Friskies has what it takes to build healthy, happy dogs. In show after show, Friskies-fed dogs are winners! That's why Friskies is the one meal fed at so many of America's leading kennels.

SAVES ON "EXTRAS"
1 lb. of Friskies gives your dog as much protein as 1 1/2 lbs. of meat; as much iron as 1 1/2 lbs. of liver; as much minerals as 1 1/2 doz. eggs; as much carbohydrates as 4 qts. of milk.

Costs less than half as much to feed

**TAKE JAMES BEROMAN'S
ADVICE:** Feed Friskies. Then look for all the signs of a healthy, frisky dog. Change to Friskies, the "Meal of Champions," today.

FRISKIES CUBES—Same famous formula as Friskies Meal . . . in crunchy, bite-size morsels that exercise teeth and gums. Nothing to add—not even water.
