Women Plan For Voters

The league of women voters has instituted a new plan this year to help carry on league work. Often interested women are unable to spare time for activities but are interested in work the league is doing and are anxious to contribute cash to help carry on this year's projects.

There are no salaries and membership dues are kept at a minimum to encourage affiliation with the league. Anyone interested in contributing any amount may call Mrs. Everett Dennis, president or Coral Sabo, finance chairman at 4670.

Mrs. Sabo is being assisted in the finance drive started September 19 by Leola Heibronner, Fern Yaden and Dorothea Buck.

The next meeting of the league, a luncheon is planned for October 24 to include a 10 minute United Nations program by Marion Geary, Conservation of natural resources will also be on the agenda with roundtable discussion.

Don't Let The Birdie

fool you... statistics show that your present dollar spent for STUDIO PHOTOGRAPHY has NOT lost as much prestige in this topsy-turvy world as the dollar you spend for bacon and beans... your dollar spent for the business of living has faded away to a 48 cent value but the dollar you spend to imprint the sweet smiles of your family on photographic paper adds up to 88 percent... these figures come from MILLER-BRUMBAUGH (we can't add two and two)... THIS is a satisfying thought because we ALL want to get the most for the JINGLE we earn. There isn't a docting "Gramma" or an indulgent "Gram" who wouldn't rather have a picture of your Tiny Tim than all the gold you can heap on your Christmas gift list... it's the PERSONAL way of saying "MERRY CHRISTMAS"... to save YOU time and insure "instant" attention at MILLER-BRUMBAUGH make an appointment now before the BIG rush comes... it's this simple... dial 7543... get your name on the appointment ledger, then start burningishing young Sue's curls and slicking down Tommie's cowlick... CHILDREN'S sittings are a specialty with Catherine Brumbaugh who always catches that gleam in their eye in the DOWNSTAIRS studio at 312 Main.

Miller-Brumbaugh

Been looking longingly at those dashing big emblems that are SO smart on other women but we have been "afraid" to add to OUR wardrobe lest we look like a Jersey cow being led to pasture... but THIS week we broke down and laid our coins on the counter and took home a beauty and we're wearing it "proudly"... it does wonders for a knit suit... swaggers on a lemon colored jersey casual... is devastating on a smoke suede cloth two-piece... THIS accessory will give umph to a frock made from a burlap sack... don't overlook it.

Let Him Puff His Chest

he's the owner of a gentleman's SET in GENUINE RUMPP LEATHER from the PIONEER OFFICE SUPPLY CO... a RUMPP wallet... billfold... keyring... the cream of leather craftsmanship... tempered with elegant simplicity... peerlessly detailed... matchless in beauty... The RUMPP name on leather is what STERLING is on silver... the mark of QUALITY. Stood spellbound in the PIONEER OFFICE SUPPLY Co. this week, wondering HOW to tell you about the SUPERIORITY of this leather line... words sometimes FAIL even when we LOVE to kick 'em around like a football... RUMPP LEATHER is superior, supertative, sophisticated, superb... unparalleled, unrivaled, unequalled, unsurpassed, unapproached in MATCHLESS perfection.

LEATHERS are pigskin, alligator, ostrich skin, English Morocco, pin steel, California saddle leather and cowhide in natural and COLORS... Pioneer Office Supply Co.

Fun fashions in fur are fine and they add "flap" to any wardrobe. But they should be inexpensive... like rabbit which designers are camouflaging to look like just about all furs except wolf. A little "shrun" jacket, mostly sleeves made of chinchilla rabbit is devastating over a short formal or it can go strutting over a new fall suit or to bed for a bed jacket... many of these are tinted in pastel colors and look like maribou.

Confucious Once Said

"The cautious seldom err" and tho written centuries ago, those words are true today as they were when the great philosopher was uncrowned king of China... now this may be a "far-fetched" way of telling you that it's better to be safe than sorry when buying your WINTER COAT... that NAMES nationally known are YOUR guarantee against disappointment... that MILLER'S is HEAD-QUARTERS for some of the BEST KNOWN names in "coatdom" STECKER if you're looking for those over-a-kind-in-town top-notchers... SWANSDOWN... YOUTHMORE and LOU SCHNEIDER... labels you'll be proud to show.

Did some down-to-earth shopping for you this week at MILLER'S after we'd been hearing about the beauties that were coming in... found some eye-openers... HUNDREDS of all wool FALL and WINTER COATS starting at \$29.98... warmly lined and inter-lined... no HOLIDAY-OVERS from spring and summer coats...

COATS in devastating new deep shades... Hunter green... STEEL blue... SMOKE gray... maroon, black, gold and beige and brown and red... dresy COATS and casual COATS... COATS with FUR trim... COATS without... full-length coats and shortie coats... inexpensive coats for the high school lassies in heater mixtures, plaids and checks that will take a beating... won't show soil.

COAT styles are definitely different this season, smoother, with less back fullness... deeper armholes... snappy cuff detail... DETACHABLE FUR COLLARS... squirrel... mouton... Persian Lamb... fox and beautiful BEAVER... you'll find them all at MILLER'S... It's a COAT year... buy WISELY at 511 Main Street.

Here's to a warm winter in SNOOZY-SNOOTIES from 500 Main, the

Town Shop

The jungle invades the fireside this winter, with as gay and colorful a lot of leisure shoes as have come down the pike in 10, these many moons. The vogue for fake furs which has been sweeping the country now goes to the feet and the animal kingdom is represented in all the glory of the leopard and "pony pony" slippers. Wear them for after-skating, for Sunday morningolling, before your own fire.

Your Store

Did you know that wools produced in the U.S. are not suitable to be used in carpets... that carpet wools are entirely different... coarse, wiry, resilient... that they come almost entirely from India, Persia, Syria, Scotland, England, Argentina and China... that rayon is fast replacing wool in carpets and that it is entirely different from the rayon fibers used in clothing?
