Woman Faces Theft Charge

SAN FRANCISCO, (AP)—Margaret Crosthwaite, 35 year old cashier was dragged from the bay Monday to face a charge of having stolen \$40,000 from her employer.

Police inspectors said she readily admitted the thefts—over 4½ years, and sobbed.

"I guess it was because I had a frustrated childhood. I never had the things I wanted."

She did until yesterday, said Inspector William Valentine. "A lavishly furnished apartment. . . loaded with gifts. . . costume jewelry. . . things she doesn't need or use. Brother, nothing but the best. . . and a brand new car, a beauty."

Officers recovered \$3600 from a coffee pot.

Valentine said Miss Crosthwaite said she managed the thefts by faking office holdups and manipulating records of the Intercoast Steamship Corp., her employer for 16 years.

He reported she jumped into the bay after learning police wanted to question her about some records. An alert dock worker pulled her out immediately.

Color blindness is five times as common among boys as among girls.

Old Enough To Fight, No Smokes

PORTLAND, (AP)—A mother appeared in municipal court here Monday to protest her son's arrest on a charge of illegal possession of tobacco.

She told the judge she would rather her son would smoke in front of her than behind her back.

The son is 19-year-old James Glendon Jones. His mother said he had been in military service and they allowed him to smoke there.

"If he is old enough to fight,

I guess he's old enough to smoke," she said.

The case was continued until Thursday.

Atomic Bomb Blast Awaited

LAS VEGAS, Nev., (AP)—"We're ready any time to set it off," says Gordon Dean, chairman of the atomic energy commission.

"It" is the first of a series of atomic blasts, the purpose of which is to train troops for atomic warfare. About 1000 soldiers, stationed at Camp Desert Rock 75 miles to the north near the AEC's proving ground, will take part in the maneuvers.

Dean who toured the test center yesterday, wouldn't say when the first blast will come. Bookmakers in this gambling resort are giving odds that it will be before the end of the week.

Dean congratulated local residents for maintaining calm during previous explosions last January and February which broke windows here.

Got a Cow?

You want a full milk pail then, don'tcha? You can't feed a cow just any old thing and expect to get top production! Sure, a cow will give SOME milk, even on straw. But to get ALL her milk, it takes a balanced ration . . . one that contains all the proteins, vitamins, carbohydrates, minerals and fats. She needs, and in the right proportions. Grain alone just won't do the job.

Try this . . . if your hay or pasture is extra good, give her Co-op 12% Dairy feed. Should your hay or pasture be only fair, get the benefit of the extra "push" that Co-op 18% Dairy feed gives. Then watch your milk pail fill up!
