

APPEARING as though without handicap, Weyerhaeuser gatekeeper Lada Wirth exemplifies the capabilities of physically handicapped persons everywhere during this week, national "Employ the Physically Handicapped" week.

'Christian' Will Argued

WATERLOO, Ia., (AP)—What is a Christian? Disposal of the \$70,000 estate of the late Dr. W. B. Small, Waterloo physician, hinges on whether that question can be answered in a legally acceptable way. In a strange lawsuit in progress here, 10 nephews and nieces of the late Dr. and Mrs. Small are seeking to break his will on the grounds that it is not possible to define Christians for legal purposes. "There is no common agreement as to what constitutes the fundamental principles of Christianity," their petition contends. Dr. Small, who died in 1939, left a will in which he directed that after his wife's passing the income from his estate should be given to persons who believe in the fundamental principles of the Christian religion, and in the Bible, and who are endeavoring to promulgate the name.

Pastor Sets Grit Example

NEW YORK (AP)—Do courage! Take heart, from the Rev. John Ulrich. A little matter of blindness doesn't bother him. A long time ago he resolved to be a Lutheran minister. At 34, he was graduated from the Lutheran theological seminary in Philadelphia last year, the second in his class. For months he worked as a substitute pastor. Finally, six months ago, he became pastor on probation at Grace E. L. St. Paul's Lutheran church here. From a braille Bible, he was given spiritual food to members of his congregation. Will his dog, he has groped to their scattered homes via subway, bus and train. He and his wife, also blind, have worked and played with their young people. A few days ago his probation

ended. Without a dissenting vote, his parishioners chose him to be their permanent leader. He will be ordained Sunday. "But the pastor, blind from birth, feels he and all sightless people still face one major problem. "The handicap is not my blindness," he says. "The real obstacle is the preconceived notions that people have about blind people."

Tribal Council Meet Called

The Klamath tribal council has called a meeting for 10 a.m., October 18, in the council hall at Klamath Agency. A number of matters including prosecution of claims with the U.S. government, forestry and land matters, and several resolutions are on the agenda. The council was called to session by Pres. S. E. Kirk and Secy. Diabon Cook.

Swiss Charge McCarthy Spy

GENEVA, (AP)—A tubercular young American Negro is to be tried in the federal Swiss criminal court on charges of political spying in behalf of Sen. Joseph W. McCarthy (R-Wis.). The Swiss government has accused Charles E. Davis, 24, of Pasadena, Calif., of violating Swiss sovereignty by allegedly gathering information about John Carter Vincent, U.S. minister to Switzerland until his transfer last February, and supplying it to McCarthy. PHONE BILL Davis also was charged with leaving his landlady with a bill for more than \$100 for telephone

calls to the United States. His trial is scheduled to begin at Lausanne Monday. Davis was arrested by Swiss authorities last November and for the past several months has been treated in a Geneva tuberculosis hospital, where he has been kept in the prison ward. Davis told U.S. consulate officials here that he was a correspondent for a Communist newspaper in California. Members of the consulate staff who visited Davis in the hospital said he was looking in better health after treatment for tuberculosis. The "acte d'accusation" indictment filed in the Lausanne federal court said Davis was paid for his information. ATTACK McCarthy repeatedly has attacked Vincent with assertions he followed the Communist line, particularly when the state depart-

ment sent him to China during the war. Vincent, transferred to the consulate-general in Tangier eight months ago, stated when he was moved that "I can't fight back because of financial considerations, but I could fight back on moral grounds."

NEW BISHOP

YAKIMA, (AP)—The Most Rev. Joseph P. Dougherty will be installed as bishop of the new Catholic diocese of Yakima at ceremonies in the cathedral of St. Paul here Thursday.

What's the fastest-growing line of trucks in America?

LOOK around you—in cities, on farms, at terminals and loading docks—wherever goods are moved on wheels.

More and more, the pay load's packed on a GMC.

YOU see those letters on medium and heavy Diesels, the most economical workers in their field. For GMC means first in Diesel power. You see gasoline-powered GMC's front-running the highways of America—pace-setting delivery of the necessities of peace and war.

You see nimble bantamweights of the family—the highest-powered 1/2- to 2-tonners made—outpulling, outhauling every other truck in their class.

EVER wonder why GMC is gaining a greater percentage of the industry than any other truck-maker?

Ask the truck drivers themselves.

See the confident way they talk of the power plants, the broad-shouldered chassis—the way a GMC handles.

Ask about the tons they've hauled, the miles they've logged—the nip-and-tuck schedules they've licked time and again.

Ask these cost-wary haulers why they've made GMC the fastest-growing fleet in the land.

They'll tell you it's because GMC is the finest motor truck made.

If you'll come in, we'll show you why we think they're right.
