

Dental School Change Nixed

PORTLAND, Ore.—The state board of higher education decided today against removing the dental school at Portland from under University of Oregon administration.

The decision by the executive committee leaves the dental school operating under an executive dean who reports to the University of Oregon president.

The State Dental Assoc. and the advisory council of the dental school has asked the board to place the school directly under the chancellor of the state system of higher education.

The board authorized Oregon State college to accept a \$50,250 grant from the Aluminum Co. of America to study effects of fluoride emanations from Alcoa's Vancouver, Wash., plant. The Oregon State study will be on crops and pastures. A companion grant of \$22,200 will go to Washington State college for a study of possible effects of the fluoride emanations on livestock.

The board also approved plans for a women's dormitory wing at Southern Oregon college of education. Bids are to be opened in December. The project will cost an estimated \$182,000.

DUBIOUS THANKS

ATLANTA, Ga.—The Democratic national committee has thanked the Georgia party for its \$5 per plate Jefferson-Jackson Day dinner. Atlanta banker Freeman Strickland said he received the "thank you" note from ex-Party Chairman William Boyle who commented that Pres. Truman also was appreciative. The June 25 meeting which netted less than \$1000 was the one at which Sen. Harry Byrd (D-Va.) lambasted Pres. Truman and the whole "Fair Deal" program. Strickland was dinner chairman.
