

Montana Senator Thinks Ike Must Decide Quick

By JACK BELL
WASHINGTON, (AP)—Sen. Murray (D-Mont) said today Gen. Dwight D. Eisenhower had better make up his mind fast if he wants the Republican presidential nomination.

Otherwise, Murray predicted to a reporter, Sen. Robert A. Taft of Ohio will walk away with the GOP prize.

Murray's comment came after Pres. Truman told a White House news conference yesterday he thinks the New York Herald Tribune certainly picked a fine man in editorially supporting Eisenhower as a candidate for the Republican nomination.

ROUNDUP
In other political developments, Taft backers arranged to open national headquarters here today in charge of Victor A. Johnson, once a supporter of Harold E. Stassen and sometime Republican "shadow" of the president in the 1950 whistle stop tour.

Mr. Truman divided he has not yet picked a man from a list of about 30 being considered to succeed William M. Boyle Jr., resigning Democratic national chairman.

The president spoke out against a reported plan of Wisconsin Democrats to invade the Republican primary in that state in an effort to defeat Sen. Joseph McCarthy (R-Wis). He believes in the two party system and the Democrats should vote in their own primary.

Mr. Truman said
4. Tom Coleman, a member of Taft's campaign strategy board, told reporters he doubts Eisenhower can be represented in the April 1 Wisconsin primary unless the general consents publicly to become a candidate.

Murray said he hopes Eisenhower won't be lured into the political arena.
"I don't believe it's a good idea for a military man to be president," the Montana Senator said.

"I would hate to see Eisenhower leave his very important job in Europe even to become president because his presence on the spot is needed to stimulate those countries."

He added he doesn't believe Eisenhower or any other man can win a party nomination unless he gives the public signal to his supporters to go after delegates.

Mr. Truman indicated pretty clearly, as he has done before.

that he doesn't regard Eisenhower as a Democratic presidential possibility.

Reminded that Jake Arvey, Illinois national committeeman, had commented favorably on the Herald Tribune endorsement of Eisenhower, the president said Jake was in the same frame of mind in 1948. Arvey supported Eisenhower for the Democratic nomination that year but backed Mr. Truman when the general wasn't available.

The president added he thinks Arvey is a Democrat and will be found supporting the Democratic nominee.

Mr. Truman staved off questions about his choice for the national Democratic chairmanship.

He conceded that Frank McKinney, Indiana banker, is one on a list of about 30 being considered. At Indianapolis, McKinney said discussion of his name came as a surprise, that he had not discussed the matter with anyone. Mr. Truman said John L. Sullivan, former secretary of the navy, and Mrs. India Edwards, national vice chairman, had told him they didn't want the job.

SPARKMAN
Mr. Truman wouldn't go into additional speculation with Capitol Hill sources said some consideration was being given Sen. Sparkman (D-Ind) as a possible choice.

Sparkman formerly served as head of the national Democratic speakers bureau. He was one of the few Dixie lawmakers who stuck by Mr. Truman in the 1948 campaign, but has been suggesting that the Democrats ought to try to get Eisenhower for their nominee next year.

Blind Man Shows Spunk

VANCOUVER, Wash. (AP)—"A handicap is no handicap if you're determined to beat it," Robert Warner believes.

He's just about finished a job of building a garage—in three weeks—about—and totally blind. Warner, a graduate in 1929 of the state school for the blind here, moved back to Vancouver a year ago from Aberdeen and bought a modest home. It had no garage.

Now the Warners have a car and wife does the driving and a garage. And Warner admits to a deep sense of achievement in his solo effort.

Not that Mrs. Warner and neighbors wouldn't have been happy to lend a hand. It's just that he felt he had to do it his way, and he did.

The building is a single-story frame structure, 12 by 22 feet with composition shingles and sheathing. It has a window and electric lights. He wired it, too. That, he confesses, was a bit tricky but he made it.

Neighbors affirm that except for pouring of the concrete slab he accomplished the entire construction unaided.

Carpentry is not new to him, however. He worked in a sawmill at Aberdeen on a piecework assembly line during the war, and has done handy-man jobs around dwellings where he lived previously. He's a masseur by trade.

Empire Tower Paying Off

NEW YORK (AP)—The dirigible mooring mast that the late Alfred E. Smith had built on top of the Empire State building is paying off in a way probably never envisioned by "Al."

A television broadcasting mast surmounting this world's tallest building is bringing in \$500,000 a year in rents, according to George A. Hammer of the Charles F. Noyes Co., agents.

Five local TV stations pay \$70,000 a year each to use the mast, plus \$30,000 a year for space for control equipment. In addition, the

observation tower brings in \$800,000 a year in admissions.

HOME FOR THE BLIND
PORT ARTHUR, Ont. (AP)—A new home for the blind to be built here will provide classrooms and workshops for some 150 blind persons of the district. The \$150,000 structure will also have living accommodations for some of them.
