

TERRENCE E. TENNANT, Klamath Falls, has been appointed chairman of youth service entertainment for the 20-30 club's international organization.

STANLEY A. BRAMMER, 17, of Klamath Falls has completed his air force basic training at Lackland field, Tex.

Chest Counts 60 Percent of \$77,370 Goal Already Given

The community chest has reached the 60 percent mark in its drive to obtain \$77,370—this year's chest goal.

At a Winema hotel report luncheon yesterday, Chest Recy. Lois Stewart, and Pres. Lynn Roycroft totaled up figures of contributions in so far, with final sums reading \$45,122.64.

In an auction of materials donated by Klamath merchants, chest workers themselves added \$97.20 to the fund.

In individual divisions, the residential section was the only stipulated group to surpass its goal so far, exceeding the target for \$4339 by more than \$114.

The miscellaneous section also went over the top, obtaining \$2990 on its goal of only \$2116.

Other areas showed some gain, with the industrial division tabulating \$11,871.07 of its \$18,530 goal; commercial, government and education reaching the \$5880.50 mark of its \$10,515 goal; business clearing \$4519 of its \$9000 goal; and public service marking up \$9,172.75 of its \$18,500 goal.

In the auction department, with chest co-chairman Nelson Reed handling the gavel, a large hunk of Crater Lake cheese went to school division head A. L. Graiapp. A Lowell packing company 10-pound ham went to Scoutler Don Adams; a Nelson Reed donated new tire to Lois Stewart; a Bral-

ton's seven-pound slab of bacon to Howard Storde; a box of apples from A. O. Roenicke to Mrs. J. L. O'Donohue; a quart of fresh cream from the Dan Campbell ranch at Bly to Mrs. R. P. Aveline, Hager, who is assisting in chest section 15.

Three pounds of homemade butter brought in by Mrs. Dan Campbell of Bly, and a dozen fresh eggs from Roenicke went to Mrs. Lowell Kaup, another chest worker.

A hundred pounds of potatoes from the Ralph Hill place at Henley was auctioned off, while Mrs. Joe Kendall, Bly, took home another hundred pounds of spuds from Tubach and Brethaupt, Poe valley.

WASHINGTON, (AP)—For the first time in many years, the government is asking farmers to produce more potatoes.

The agriculture department today set a 1952 production goal of 350,000,000 bushels or about 13,000,000 more than this year's indicated crop. The 1950 crop was 439,000,000 bushels.

Until this year, production for many reasons has run far ahead of needs, resulting in surpluses which over a period of nearly 10 years, has cost the government more than half a billion dollars in price supports.

Price supports were abandoned this year. The result was a sharper reduction in planting.

The reduction has been followed by advances in prices.

The 1952 planting goal was set at 1,565,000 acres for commercial production, or 5000 more than this year's goal.

The goal is merely advisory in nature.

THIS FOOLISH FELLOW WON'T GET FAR

His trouble is obvious—overloading. And it's just as foolish for you to expect an insufficient wiring system in your home to carry the electrical load required by modern electrical living.

To enjoy the full comforts and conveniences, safety and economy which can be provided by electricity, you need a home with Adequate Wiring.

ADEQUATE WIRING PROVIDES:

- AN ADEQUATE ELECTRIC SERVICE ENTRANCE having enough wire to bring in as much electricity as your home may need at any time (though you pay only for what you use).
- ENOUGH BRANCH CIRCUITS having large enough wires to carry electricity at full power to serve efficiently all the needs of your home (which insures economical operation).
- ENOUGH CONVENIENCE OUTLETS to permit efficient and comfortable use of lamps, appliances, radios and other portable equipment.
- ENOUGH PERMANENT LIGHTS at the proper places to reduce eyestrain, prevent accidents, and add beauty indoors and out.
- ENOUGH SWITCHES, properly placed, to give you instant flick control over your electric servants.

ADEQUATE WIRING COSTS SO LITTLE—MEANS SO MUCH
