New Hope For Wearers Of Elastic Hose

Here is wonderful news for women who must wear elastic stockings.

Research has again proved beneficial to the fair sex. The discoloration streaks for the wearers of elastic stockings has finally been eliminated. Through the combined talents of a famous drug manufacturing house and leading rubber manufacturers, a process has been developed to end this almost unbearable annoyance.

In the past, exposure to light formed darkened areas on the rubber in ordinary elastic stockings. The introduction of nylon hose made it doubly embarrassing for women forced to wear the elastics. As a result, the new sheer-deluxe nylon elastic stocking in a neutral shade can be worn with or without over hose. These light, color-fast hose actually flatter m'lady's legs. They are 30 to 50 percent lighter weight yet have the same dependable therapeutic support of the bungsomest older style support.

There is instant fashioning for wrinkle free fit and large, non-elastic heels for comfort and easy mending. . . open toes for freedom from foot cramping and stylishness with dame fashion's open-toed shoes.

Children Bail Father Out

DETROIT, (AP) — A 39-year-old father, sentenced to pay \$5 or go to jail for 10 days on a drunkenness charge, showed up in court yesterday with his five children.

The youngsters, ranging in age from 11 to 15, said they had been doing odd chores for several days to raise the \$5 to their dad. Merrill Bolster, wouldn't have to go to jail.

Recorder's Judge George Murphy was impressed by their show of devotion. He gave Bolster a suspended sentence and told the children to spend their money for Christmas presents.

ENJOY INEXPENSIVE PRIZE-WINNING ORANGE MARMALADE

It's Easy to Make Anytime with This Simple Recipe

- 6 Medium Sized Oranges (2 lbs. sliced)
- 6 Cups Water
- 1/2 Cup M.C.P. Lemon Juice (About 6 lemons)
- 1 Package (3 1/2-oz.) M.C.P. Jam and Jelly Pectin
- 9 1/2 Level Cups Sugar (Measured ready for use)

1. Cut oranges in cartrwheels with very sharp knife to make slices thin as possible. Discard the large flat peel ends. Sliced fruit should weigh 2 pounds.
2. Put sliced fruit in 8-quart kettle. Add the water and lemon juice.
3. Bring to a quick boil, boil gently for 1 hour (uncovered). If peel is not tender in 1 hour, boil until tender.

4. Measure the cooked material. Due to boiling, the volume will be reduced. Add water to make total peel and juice exactly 7 level cups.
5. Put back in kettle. Stir in M.C.P. Pectin, continue stirring and bring to a full boil.
6. Add sugar (previously measured). Stir gently until it has reached a full rolling boil, and BOIL EXACTLY 4 MINUTES. Remove from fire; skim and stir by turns for 5 minutes.
7. Pour into jars. If you use pint or quart jars, seal hot and invert jars on lids until Marmalade begins to set. Then, shake well and set jars upright. This keeps the peel evenly distributed throughout.

NOTE: This recipe works equally well with Navel Oranges or Valencia's. When either variety is over-ripe and peel is soft, use 3/4 cup lemon juice instead of 1/2 cup. (Be sure to discard any seeds.) Recipe Orange Marmalade. (Cut out and keep this recipe.)

New California Colors Brighten Spring Horizon

The California influence, spot-clear tone of pink in combination with rich colors and imaginative styling, will come into its own in almost every section of the country next spring, bringing with it a strong emphasis on lightweight wool in a wide range of textures.

In a salute to the importance of the California fashion market and the skill of its wool-conscious designers, twelve of the nation's leading woolen mills have created a sparkling array of new woolen and worsted colors especially for use by West coast manufacturers. These new fabrics have been put to use in hundreds of striking new fashions for spring—some of which were previewed at showings staged recently in Los Angeles by the wool bureau.

MANY More than 125 manufacturers new fabrics, and 80 of the outstanding modish showings in the Hotel Ambassador. As "California's best" in creative styling and tailoring came forth in this exclusive parade, department stores and specialty shops from coast to coast were already making plans to offer manufacturers these typically Californian styles, resplendent in their "Wool in California Colors."

A broad array of "Wool in California Colors" hats, shoes, bags, belts and other accessories have been created to complement the new fashions—all designed by leading California firms with the cooperation of national manufacturers.

One of the standout color families used with taste and imagination by California's designers is the pink-to-mauve color group, in California-inspired shades. These appear under such names as "Patio Rose," "Lemon Blossom Pink" and "Calrose." Shades include a

Yellow, another main color choice looks typically "California" in golden tones allied with gray for gabardines, separates and casuals, and in fleece and nubbed coatings. Blues make a strong impression, too, in a wide range of tones, from navy, the traditional spring shade, to teal, pastel and watery pale tones. From pale to spice shades, the beige to brown group gains wide representation.

Jersey maintains a standout position in the California fashions, together with fleece, nubby coatings, worsted suitings, lightweight wool crepe, gabardine suitings and suede cloth coating.

The wide range of apparel highlights full skirts, diamond and bar quilted for separates to go with sleeveless, blouses, and flared for suits with hip-banded jackets that round over the hip line. The coat designed to match or harmonize with its own dress, suit or separates is notable throughout, as well as ensembles that combine a suit or dress with a full casual fitting coat. In tailored suits and classic dresses the narrow silhouette prevails, and cape collars and cape sleeves are widely seen in coats, suits and dresses.
