

Moscow Orders W. Europe Reds To Quicken Crippling of NATO

By LEON DENNEN
PARIS (NEA) — Communism orders which may give some clue to Moscow's latest strategy in the hot-cold war have been issued to all Red parties in the West, according to French Communist sources.

The fate of the dying capitalist order has finally been sealed, the Kremlin's instructions to its fifth columns state. "The relation of forces on the international arena is becoming increasingly unfavorable for the imperialist (Western) camp."

Faithful Reds are therefore urged to speed the "disintegration" of the North Atlantic Treaty countries through political strikes, violence and increased acts of sabotage.

MAIN TOPIC
The orders were the main topic of discussion at a secret meeting of the communists in East Berlin November 15. To encourage Western Reds, they listed four "major defeats" already "suffered by the international reactionaries":

1. The creation of the Chinese People's Republic and the "historic victory" of the Chinese people.
2. The establishment of the pro-Soviet German "Democratic" Republic.
3. The "victory of communism" in the countries behind the Iron Curtain.
4. The "national liberation upsurge" in Korea, Iran, Egypt, North Africa and other "colonial and dependent countries."

Moscow is obviously convinced that "the undermined position and growing weakness" of the West "add to the rage of the imperialists."

Western Communists have been ordered to exert every effort to cripple the armament program of the North Atlantic Treaty Organization. Above all, they must prevent at all costs the integration of West German troops into the European defense system.

A similar policy was recently outlined by Benoit Frachon, French Communist trade union leader, at a meeting of the pro-Soviet World Federation of Trade Unions held in East Berlin.

Addressing top WFTU leaders who met immediately after the communist session, Frachon called for the infiltration of Red agents into non-Communist labor groups in order to sabotage Western rearmament.

The way to do this in countries where the Communists are weak is to encourage political strikes for higher wages, Frachon indicated.

Since the disappearance of Maurice Thorez, Secretary of the French Communist party who went for a "cure" to Russia last year, Benoit Frachon is considered the number one Soviet spokesman in Western Europe.

He is the undisputed leader of the CGT, strongest trade union

federation in France, and is said to have more than 50,000 agents entrenched in the most strategic industries of the country.

PIVOT
Gen. Dwight D. Eisenhower is reported to regard France as the pivot around which the West European defense strategy—the whole concept of a European army, in fact—is being planned.

Continued Communist control of labor as well as of strategic economic centers in France and in other parts of Western Europe thus represents a serious threat to the NATO's program.

The communists' latest orders to the Western Reds also throw new light on the tactics pursued in the United Nations by Andrei Y. Vishinsky, Soviet Foreign Minister.

With the "capitalist West" already "doomed," to their way of

thinking, Soviet strategy is to use all means to push it along the path of destruction and await patiently the final crash.

Vets Apply For Farms

WASHINGTON, (U)—The chance to step into a ready-made farming career on the soon-to-be-opened Columbia basin reclamation project in Washington state has roused the interest of thousands of war veterans, the Veterans of Foreign Wars says.

The organization was asked by the state's Columbia basin commission to search out this country's "most worthy veterans" to receive a \$50,000 farm.

The award will be a high spot of the five-day celebration which the commission is arranging to mark delivery of the first Columbia river water to basin lands next May.

The day of the award, hundreds of workmen will swarm over the 80-acre farm and whip it into shape. They will build and furnish the house—right down to a cat and dog; erect the farm buildings; clear the land and plant the crops.

Although the deadline for entries isn't until Jan. 15, VFW spokesmen said they already have had to add new employees and create a new section to handle queries.

To qualify for consideration, an entrant need only be an honorably discharged veteran and citizen with the ability and willingness to run a farm. It isn't necessary to join the VFW.

Winners will be picked on the state level with the ultimate selection place in the hands of a national committee of judges soon to be appointed.

Oroville Firm Gets Contract

W. D. Zavala, Oroville, Calif., who already has work contracts with Bonneville Power administration on the Redmond-Klamath Falls transmission line, was apparent low bidder Thursday for clearing 15.1 miles of right of way.

The clearing is to be done from a point five miles south of Modoc Point to the Bonneville substation to be built south of town, and is to be 125 feet wide.

Zavala's bid was \$26,310. Second low bid came from Wixson and Crowe Inc., Redding. There were 15 bids altogether, and the highest came to \$125,633. Bonneville's Portland office reported.
