Bomber Hits House, 2 Die

SHREVEPORT, La., (AP)—A four-engine B-29 bomber crashed short of a Barksdale air force base runway tonight, killing two of the crew and injuring 11 others.

Capt. William Joplin, information officer at the air base, said two were known dead. The extent of the other crewmen's injuries are not known.

The big craft apparently was trying to land at Barksdale and fell short of the runway. It dug a 10-foot-deep hole where it fell, bounced once and then skidded 200 yards knocking a house off its foundation and shearing power and communication lines.

T. R. Fells, a witness who lives about six feet from where the wreckage finally came to rest said airmen "were laying all around the plane when I came out. Some of them had broken bones. We took five of them to the Barksdale hospital in the back of a pickup truck."

Fells said the plane burst into flame when it first struck and was still burning when the last of the 11 living crewmen were rescued. The plane shouldered the house of Mr. and Mrs. W. C. McDaniel off its foundation. The couple was asleep at the time and had to be hospitalized for shock and minor injuries.

The crash area is sparsely dotted

with houses that surround the air force base—four miles southeast of Shreveport.

Air force officials did not say immediately where the B-29 was based—but said it was not based at Barksdale.

The names of the injured and dead were withheld.
