

Babysitting Case Closed

LYNN, Mass. (AP) — The Nahan babysitting case was marked "closed" Thursday with the three schoolgirl principals under court sentence for the theft of \$18,000 from the home of a doctor.

Roberta McCauley, 16, the babysitter, and one of her two companions, Marilyn Curry, 16, were placed Wednesday under the jurisdiction of the Youth Service Board, a state agency which handles rehabilitation of juvenile offenders.

Eleven Jeffrey, 17, was placed on probation for two years with the condition that she spend one year at the House of the Good Shepherd, operated by Catholic Sisters for the rehabilitation of girls and women of all creeds.

The girls were accused of stealing \$18,000 from Dr. Albert Covner for whose baby Roberta was a sitter. They went to New York with the money. The girls admitted and spent \$3,000 of it on good clothes and entertainment. They were freed out of the rest of it by three men.

Dr. Albert Covner, apparently upset by the future caused by the theft of his money, committed suicide several weeks after the girls' spree.

Chalk River Canada Site Of One Of Busiest Atom Plants In Western World

(Editor's Note: This is the second in a series of four stories on Canada's Atomic Energy project and its possible importance in relation to American developments.)

By FRANK CAREY
Associated Press Science Reporter

CHALK RIVER, Ont., (AP) — If it weren't for its isolation—and the armed guards and high steel fence around it—you might mistake Canada's atomic project for some everyday industry manufacturing anything from chocolates to babies' rompers.

Situated in a picturesque spot along the Ottawa River in North-western Ontario, the plant consists of 100 buildings spread over 800 of a total of 10,000 forested acres—the extra acreage being for security.

A square, 100-foot high stone building which houses the "heart" of the Dominion's project is so-called enough externally.

And the device within that building for producing atomic energy has roughly the outside appearance of a vat for making beer or benzene.

But that device—a so-called "heavy water" reactor or furnace—is unique among all known atomic furnaces in the world.

The closed vat-like structure enclosing this reactor is about 35 feet

ment counselor and recently chief Secretary of State Acheson's policy planning staff, is now on leave with the University Institute for Advanced Studies at Princeton, N. J. He is expected to take over the ambassadorship probably in April.

Short said his nomination would be submitted to the Senate for confirmation soon after Congress convenes. There has been no indication of opposition to Kennan.

Kennan has had long experience in dealing with the Soviets, previous service in the embassy at Moscow, and speaks the Russian language fluently.

Some sun spots are believed to be 50,000 miles in diameter.

Reds Accept Kennan As Ambassador

By EDWARD E. BOMAR
WASHINGTON (AP) — Russia has agreed to accept George F. Kennan as the new U.S. ambassador to Russia, almost at the same time denouncing him as a foe of the Soviets.

President Truman announced at Kansas City Wednesday night the selection of the 47-year old career diplomat, who is credited with being a principal author of the present American policy of containment to counter the threat of Communist aggression.

Kennan will succeed former Rear Adm. Alan G. Kirk, whose request for retirement Presidential Secretary Joseph Short said Mr. Truman accepted with reluctance.

The announcement was made after the Kremlin orally informed the White House that Kennan would be acceptable. There had been some speculation that he would not be.

It arose after attacks on him by both Pravda and Radio Moscow, the latest only yesterday.

STARTING JANUARY 1, 1952

ON YOUR SAVINGS

That's for me! I work for a salary and want the money I save to earn for me, too. So you can bet that I'm going to keep my savings at The First National Bank where they earn 2%.

As a business executive I'm transferring my savings to First National because no matter what my balance—\$1.00 or \$100,000 or more—it will earn 2%. A business man has to look to the future.

My husband and I figure our savings are our future! Believe me, that 2% interest will make our dreams come true a lot quicker...a lot easier!

I'm a working man and I've got responsibilities...lots of 'em. With me every penny counts; that's why I'm starting saving at the First National Bank where it will earn 2%.

THERE'S NO SUBSTITUTE FOR A FIRST NATIONAL BANK SAVINGS ACCOUNT

Here's another good reason why it pays to save at First National. Beginning January 1, 1952, 2% interest will be paid on new and existing savings accounts in all branches of The First National Bank of Portland. This represents an increase of 33 1/3% in the interest you earn. Join the thousands of Oregonians who save regularly at First National Bank of Portland and earn this profitable 2% rate of interest regardless of the size of your account.
