'Dead' Woman Files Suit

SAN FRANCISCO (AP)—A 60-year-old widow is seeking damages from the hospital where she received after having been pronounced dead.

Mrs. Theresa K. Butler filed a \$533.70 claim against the city Thursday. She said staff members at Harbor Emergency hospital "used excessive heat without proper temperature control... and burned my back, right arm and leg and abdomen to bring me back to consciousness."

She said the \$53.70 represented doctor bills for treatments.

Mrs. Butler was found unconscious in her apartment Nov. 8, pronounced dead by a doctor of an overdose of sleeping pills, and sent to a morgue. An attendant noticed a faint pulse and sent her to a hospital. Eventually she regained her faculties and departed to complete writing a book.

Bakery, Tavern, Cafe Up In Smoke

ABERDEEN, Wash. (AP)—A general alarm fire destroyed a bakery, a tavern and a cafe in downtown Aberdeen late Thursday night.

The loss was estimated unofficially in excess of \$100,000.

Equipment from Aberdeen, Hoquiam and Cosmopolis responded to the general alarm sounded at 10:05 p.m., when flames broke out in a building housing the Olympic Bakery, Cozy Inn tavern and Colonia Cafe.

The loss included eight bakery trucks fully loaded for deliveries and new equipment. Bakery officials said cost more than \$75,000.

Firemen said the fire apparently was started by a boiler explosion.

Check Shows Nepotism

WASHINGTON (AP)—In 70 House members' offices, a study of payroll records showed Friday there is at least one employee having the same last name as the congressman.

House records do not identify the relationship of employees to the congressman in whose office they work. But in most of these cases, the employees are known to be relatives of the employing congressman.

Whether nepotism, or the practice of favoring one's relatives in dispensing jobs, is as widespread in the Senate is almost impossible to determine.

Senate payroll records are labeled confidential. The payroll records of each of the 455 House members are available for perusal by newsmen. They list employees by name.

Names of congressmen who had on their office payrolls for November were persons whose surnames were the same as the congressmen's included the amounts listed are the gross salary, before deductions, for November:

Walt Horan R.-Wash.—Helen L. Horan, \$128.06.
 Thor Tollefson R.-Wash.—E. M. Tollefson, \$590.59.

Victim Of Amnesia OK

SACRAMENTO (AP)—An amnesia victim, admitted to the county hospital here Christmas Eve, was identified by two former schoolmates Thursday after a newspaper ran his picture.

Richard Gau, 26, saw the picture called at the hospital and recognized it as Fred Markham, 27, an old high school friend from Irrigon, Ore. They had not seen each other for eight years.

Gau said his sister, Doreen called at the hospital and Markham recognized her and partially regained his memory.

The hospital called Markham's sister, who lives in Kennewick, Wash. She said Markham was an airman with the Fourth Troop Cavalier Command at McChord Field, Wash. The airman will be transferred to Mather Field Hospital.

Building Industry Hits New Peak

NEW YORK (AP)—Despite uncertainties and confusion, the construction industry during 1951 hit an all-time peak in dollar volume, Harold R. Berlin, Vice President of Johns-Manville Corp., declared in a year-end statement today.

New construction and other building activity ran to a record 37 billion dollars in 1951, he said, but physical volume of building declined about 5 percent from the previous year.

"It appears now, because of the metal shortages, that there will be an over-all decrease in the amount spent for all types of construction in 1952," the Johns-Manville official said.

Freighter Smacks Rocks In Canal

BALBOA, C. Z. (AP)—The French freighter Charles L. D., carrying wheat from Vancouver, B. C., to Brazil, hit a rocky bank in the Panama Canal Thursday night and was seriously damaged.

Three tugs rescued the 6,749-ton ship from the narrow Gillard Cut and towed her to a mooring at Camboa, midway point on the canal, early Friday.

Manley Wilson Seriously Ill

PORTLAND (AP)—Manley Wilson, state senator who underwent bladder operation last week, was reported seriously ill in a hospital here Friday.

Wilson attendants said only members of his family may visit him. Wilson is editor of the Woodworker, CIO Woodworkers Union Newspaper.

Social Security Office Stays Open

The local Social Security office, postoffice, will remain open the next two Saturdays—Dec. 29 and Jan. 5.

Mr. Don Sutcliffe announced the office would be open those days to make up for extra holidays being taken Christmas and New Year's Eve.

The office is on the third floor of the federal building.

Stassen Files For President On GOP Ticket; Pledges Defeat Of Reds But No War, High Moral Standard In U.S.

PHILADELPHIA (AP)—Harold E. Stassen, former Governor of Minnesota, is going to make a second attempt to win the Republican nomination for President of the United States.

Stassen, now president of the University of Pennsylvania, Thursday night joined two other seasoned GOP campaigners in the campaign to get U.S. Senator Robert A. Taft of Ohio and Gov. Earl Warren of California.

There was immediate speculation that Stassen's declaration would slow down the drive of a number of Republicans who have been campaigning to get Gen. Dwight D. Eisenhower into the field. However, backers of the General discounted such speculation.

Stassen said some time ago he would endorse the general's nomination—if Taft would do the same.

In fact, the Minnesotan recently asked Taft publicly to quit the race and support, with Stassen, the Eisenhower campaign.

But Thursday night, before addressing millions of Americans on a nationwide radio and television broadcast, Stassen disavowed the offer and said "It is all off now."

"I am in the race without a commitment to any other person," he declared.

He did admit, however, in a hastily called news conference in Washington—where he flew three hours before making his address here—that he declined to seek the Presidency after speaking with Eisenhower in Paris earlier this month.

Attacking the present administration's foreign and domestic policies as "failures" and "disastrous," Stassen said he would offer a "humanitarian and liberal program" to the American people.

This is his platform:

1. A new American foreign policy that would defeat Communism without war, and give freedom to all peoples of the world.
2. Higher moral standard in Washington "with plain honesty in public employes."
3. A modern gold standard, with a "solid dollar," to prevent inflation.
4. "Full employment, excellent farm income, conservation of natural resources and a balanced budget."

Banker Sees More Savings

NEW YORK (AP)—Savings banks can look for a continued upward trend in deposits in 1952, Carl C. Freese, president of the National Association of Mutual Savings Banks, declares in a year-end statement.

"Mutual savings bank deposits are approaching the \$21 billion mark for the first time in the 133-year history of these institutions," he said.

"The past year has witnessed a gain of more than \$800 million as compared with an increase of less than \$750 million in 1950. Dividends paid to savings bank depositors during 1951 totaling approximately \$400 million were at a higher rate than during the preceding year in some states."

Full employment will add to savings in 1952, he states.

'A' Exchange To Be Asked

WASHINGTON (AP)—Prime Minister Churchill probably will urge a greater exchange of atomic information between the United States and Britain during his far-reaching conference with President Truman.

Atomic energy is among the dozen topics he has told the American government he wants to take up in the course of his visit here, starting next week.

Both Britain and Canada, with which the U. S. had partnership in atomic bomb development during the war, have long felt tight American restrictions on atomic secrets were hampering development in that field.

Any change in these restrictions, however, would require not only approval by the President but action by congress. Whether either of these conditions will be met in the predictable future is something on which informed officials here will not even speculate.

Idaho To Buy Oregon Plates

SALEM (AP)—Idaho truckers who operate in Oregon must have Oregon license plates, Secretary of State Earl T. Newbry said Thursday.

The new regulation is the result of a new Idaho law which bans reciprocity with other states. Newbry said he had been informed that Washington and California, also would begin to collect fees from Idaho truckers.

He said that numerous conferences with Idaho motor vehicle authorities failed to bring about a continuation of the reciprocity arrangement.

Newbry said, however, that Oregon farm plates may be issued to Idaho trucks, even though their farms are not in Oregon. Farm plate fees are lower than those for other truckers.

Inch Of Rain Falls Here

More than one inch of rain fell in Klamath Falls yesterday, according to the Bureau of Reclamation rain gauges, and that pushed precipitation in rain and snow here this year ahead of the recorded amounts for the same time last year.

And last year's total precipitation as of Dec. 28 was 8.21 inches, as against a normal rainfall measurement at that date of 4.40 inches.

As of midnight last night, Bureau gauges showed a total of 8.33 inches of rain had fallen in Klamath Falls since the stream year began Oct. 1. Yesterday's rainfall alone amounted to 1.18 inches.

The 1950-51 stream year ran at a record pace until late last spring when a dry spell stopped it at about the 10.22 inch mark. A 139-day dry spell began May 13, and was not broken until almost the end of the stream year on Oct. 1.
