Man Hangs Self In Cell

DUNSMUIR — William Cecil Whelchel, 47, committed suicide by hanging himself from the bars of his cell at the city jail here last night according to city police.

Whelchel, booked on a vagrancy charge last Wednesday, was discovered hanging from cross bar of the cell door by a fellow prisoner, Sherman Douglas, in an adjoining cell. Douglas told officers he heard strange noises in Whelchel's cell and investigated. He called for aid in an attempt to cut Whelchel down but no police officers were within hearing. City Clerk Charles Huff finally responded to the calls and cut down Whelchel and both he and assistant police chief Clifford Schwegerl attempted artificial respiration without results.

The suicide had evidently been well planned. Whelchel had tied himself to the cell door bars with an extra shirt, had stuffed his mouth with toilet tissue to drown any possible cries and had carefully centered the buckle of his belt over his jugular vein.

Whelchel had reported to officers that his last job had been one at the state hospital at Salem, Ore. This had not been confirmed at the time of his death. He was serving a five day sentence on the vagrancy charge.

LEARNING A TRADE — In the Merrill High School shop, instructor Eldon Payzant (left) checks a manual with Mike Geraghty as Fred Ketcherside looks on.

NEW AERO Willy sedan, to go on display at the Lee Huff Motor Company, 603 S. 6th St., Friday, is said to have 90 new features and go 35 miles on a gallon of gasoline.

Louisiana Battle Grows

NEW ORLEANS (AP) — Six of the eight candidates who opposed Carlos Spahn, Gov. Earl K. Long's choice for governor, in Tuesday's Democratic primary combined Friday in an anti-Long coalition backing Judge Robert F. Kennon for the Feb. 19 runoff.

The combined total of the six anti-Longites in Tuesday's voting, including Kennon's 154,812 votes, was 547,546 of the record 706,385 votes cast in 1972 of the state's 2,112 precincts.

Arrayed against Spahn were Kennon; Rep. Hal Boggs of New Orleans; James McInerney, Alexandria cattleman; Lt. Gov. William D. Dwyer; Dudley LeBlanc, former patent medicine manufacturer and Lucille May Grace.

Also backing Kennon in the runoff was Mayor Desseps Morisson of New Orleans, who, with Sen. Russell Long, son of the late Huey P. Long, backed Boggs in the first primary.

Sen. Long was silent on whether he would take sides in the second race.

Sen. Long split with his uncle, Gov. Long, in the race.

Collins For UMT Proposal

WASHINGTON (AP) — Gen. J. Lawton Collins, Army Chief of Staff, said Friday the Korean campaign has proved "that we need a sound program of manpower mobilization."

This would be supplied by Universal Military Training, the general told the House Armed Services Committee.

He supported a Pentagon plan for beginning limited UMT with 60,000 volunteers between 17 and 19-year-olds. They would receive six months' training and would go immediately into active service for 18 months as reservists.

Secretary of Defense Lovett told the committee Thursday that military authorities could start this program by October or November, if Congress approved necessary legislation by April.

Collins said if UMT had been in effect before Korea, "we would not have had to disrupt the lives of thousands of men who served in World War II and who had since taken on greater responsibilities both at home and in their civilian pursuits."

German To Ask Huge U.S. Loan

BONN, Germany (AP) — The West German government plans to ask the United States for a big loan—probably several hundred million dollars—to help put German troops into the field with the proposed European army, Allied officials said Friday.

A formal request for the loan will be submitted to Washington when a "peace contract," now under negotiation, is signed with the three Western occupation powers—France, Britain and the U.S.—next spring, the officials said.

This "peace contract" will start German rearming inside the proposed unified European defense force and will return to them almost full control of their own affairs.

The Allied officials gave this picture of the loan request shaping up.

The Germans will contend they alone cannot finance formation of a new armed force from scratch after seven years of Allied demilitarization programs.

In addition, the Germans expect the United States to provide the bulk of military equipment—including tanks, artillery and planes needed by 12 divisions plus the tactical air force they plan to organize.

In "peace contract" talks, the Germans already have agreed to continue to pay part of the cost of keeping Allied occupation troops on in Germany as a defense force after the contract is signed. The exact sum has not been agreed on but the Germans want a substantial reduction in present occupation payments.

German participation in the European army faces bitter political disputing. The Socialist Party, the government's chief opposition, called Thursday for a general election to decide whether Germany should join.

The Socialists contend participation in the army is illegal under Germany's post-war constitution.

Murder Count Charged To Ex Marshal

MOUNT VERNON, Wash. (AP) — Harold G. Chase, former Darrington, Wash., town marshal held at Everett on arson charges, faced first degree murder counts in two counties Friday.

A warrant accusing Chase in the strangulation death of Leonard Lewis, a patient in the Northern State Hospital at Sedro Woolley, was filed in Skagit County Superior Court here Thursday.

A similar charge was filed in Snohomish County last week in connection with the death of Dr. Russell R. Bradley, an Everett optometrist.

The charge filed here by Prosecutor Reuben Youngquist accuses Chase of premeditated murder in the death of Lewis. It occurred Jan. 23, 1949 when both were patients at Northern State Hospital.

Snohomish County authorities said Chase claimed responsibility in both deaths. He was held in Snohomish County on arson charges filed in connection with a fire at Darrington when he was marshal.

The Skagit County murder charge followed an autopsy by Dr. Gale Wilson, Seattle surgeon. He said Lewis died of strangulation after a larynx fracture. Hospital authorities had reported the death was a suicide by hanging.

Dr. Wilson said in his report he had "never seen such a fracture without a direct blow to the larynx."

French Boss Tackles Job

PARIS (AP) — Edgar Faure, 43, France's youngest premier since 1875, worked Friday to put together another center-coalition Cabinet that would end his nation's political crisis, now in its 11th day.

Behind him was a big 401-101 confirmation vote Thursday night from the National Assembly. The result drew heavy applause from the benches of the Center parties, but Faure still must form a several-party team.

His victory margin on the confidence vote was so large because Gen. Charles de Gaulle's RPF (rally of the French People), largest single party bloc in the Assembly, abstained from the vote. The Communists voted against Faure, and the extreme-right Gaullists were tired of being in the same voting column with their extreme-left arch enemies, the Reds.

The debate before the vote indicated the premier would have one of the same troubles that brought the downfall of his predecessor, Rene Pleven — uncertain support from the big Socialist bloc of 104 members.

US Attorney Not Guilty

SHREVEPORT, La. (AP) — Whether suspended U.S. Attorney Harvey L. Carey, acquitted on bribe-asking charges, will be allowed to resume his duties remains a question that only U.S. Attorney General J. Howard McGrath can answer.

Carey, accused of soliciting a \$60,000 bribe from Texas Oilman Hart, was acquitted Thursday night by a federal district court jury after seven hours of deliberation.

McGrath suspended Carey from office in December, 1950, after an investigation by the Justice Department.

Carey was indicted by a federal grand jury in March on charges he asked a \$60,000 bribe from Hart to "settle" 30 perjury counts pending against Hart and four of his employees.

Carey denied that he suggested a bribe. He testified that he "strung Hart along in hopes of catching a briber" and to see if the Federal Petroleum Board was involved.

Reds Willing To Buy U.S. Magazines

NEW YORK (AP) — Gen. Walter Bedell Smith, director of the Central Intelligence Agency, said Thursday night the Russian people pay black market prices to get hold of an American magazine.

They are "so eager to learn of the outside world," Smith said, that they pay \$1.50 a page for copies of the magazine "America" on "the black market."

The State Department distributes the magazine to persons approved by the Soviet government, he said, but somehow copies eventually reach non-approved persons.

COOPERATION

ROCHESTER, N.Y. (AP) — Before they go to work in the morning, No. 87 has to tie No. 514's tie. No. 87 of the Fire Department is Walter Milne, No. 514 of the Police Department is his wife, a school traffic officer.

Infirmary Now KF Nursing Home

The name of the Klamath County Infirmery has been changed to Klamath Nursing Home, by order of the County Court.

L. A. Smith, superintendent, said he suggested the name change to get away from the "inmate" connotation of the name infirmery, that the people at the county home should be considered "patients."

It has a 119-inch wheelbase and is a lower-priced running mate to the Hudson Hornet. Pictured is the Wasp in Hollywood styling.

Economist Speaks At Kiwanis

Prof. James H. Gilbert, a long-time professor of economics at the University of Oregon, told Klamath Falls Kiwanis club members that the present inflation Americans are suffering through is a result of deficit government financing.

He pointed out that the U.S. budget today calls for 100 million dollars—37 per cent of the total national annual income.

"That many dollar bills placed into circulation," he said, "would reach four times around the world."

To cover the deficit, the government has been selling bonds; however, Dr. Gilbert said, the people have not been purchasing bonds the way they once were.

He said the government started price controls too late to halt the inflationary trend.

"The government right now is trying to doctor the symptoms," he said, "not control the causes of inflation."

He said what he calls a "radical" remedy, the doctor declared—one that will get to the root of the trouble.

He suggested three means of escape from inflation:

1. Price controls rightly administered.
2. Raising of cash reserve requirements in banking for credit.
3. A voluntary or compulsory restriction of consumers' "installment plan" credit.

"We must balance the budget and pay as we go," the economist said, "beyond anything we have gone through so far."

Last night, Professor Gilbert and

three other university leaders, addressed an alumni dinner meeting here. Besides Gilbert, there were: Dean Theodore Kraft, University Music School; Dr. Edwin Ebbighausen, Associate professor of physics; and Bill Bowermann, track coach.

Sweden Works Out Trade With Russia

STOCKHOLM, Sweden (AP) — Sweden and Russia plan to double their trade—largely Russian wheat for Swedish machinery and metal goods—under a new trade agreement announced Thursday night by the Swedish Foreign Office.

Sweden will send the Soviet Union steam turbines, electricity generators, iron, steel, metal products, machinery, instruments and butter worth about 23 million dollars. About one-third of this will be in electrical goods which the Russians previously bought on credit but now will pay for in cash.

Sweden expects to get goods worth between 17 and 19 million dollars.
