AAUW Plans SOCE Parley

Young women of seven Southern Oregon and Northern California counties are being invited to attend a special conference at Ashland, March 29, to study personal problems and plan self improvement, according to Mrs. Charles Larkin, president of the Klamath Falls chapter, American Association of University Women.

The Ashland Conference for Young Women is being organized by the AAUW chapters of the seven counties and will be held on the campus of Southern Oregon college. Mrs. Larkin said, Counselors from each of the AAUW branches of the area will direct various phases of the session. Mrs. Zetta Spurling, chairman of the recent graduates committee of the Klamath Falls chapter, will head this city's participation.

Themes of the conference will be "Mirror to the Future," Mrs. Larkin announced. Invitations are being extended to two senior and two junior girls in each high school of the area through deans of women of the institutions. Each girl will be asked to bring her mother to the meeting, also, although mother-daughter teams will be split up for the separate discussion meetings.

Topics to be discussed include personal appearance and habits, the part played in the home, plans for future economic support, and study of moral and spiritual values. Guests will meet in small groups with AAUW consultants and then will meet in a single group to report decisions reached.

Mrs. Mabel W. Winslow, regional AAUW vice president will act as general chairman of the conference. Invitations are being sent to young women in Jackson, Josephine, Coos-Curry, Klamath and Lake Counties in Oregon and Siskiyou County in California.

Man Critical Serum Flown

NANAIMO, B. C. (U)—Two million units of anti-tetanus serum were rushed across Canada by plane Monday in dramatic effort to save the life of a Nanaimo man suffering from lockjaw.

George Raines, 24, was taken to the hospital Sunday. One million units of serum flown from Vancouver cleaned out the supplies there.

Monday, two million units of the serum, valued at \$1,600, was flown from Toronto to Vancouver by a Trans-Canada Air Lines plane. The serum was placed aboard an RCAF plane which immediately took off for Nanaimo.

The serum was dropped by parachute here Monday night, because there are no lights at the airfield. After some of the serum was injected into Raines' veins he was able to move his jaw slightly, although he was only semi-conscious.

2 Face Charge Of Kidnapping

PORTLAND (U)—Two men accused of kidnapping a Portland woman last year, are being held in Rome, Ga., according to police.

The pair, George Lester Womack, 27, and Ralph H. Rasmussen, 22, were picked up in Georgia on a car theft investigation, Detective Earl Purcell said.

Mrs. Edith A. Stearns, 40, was abducted from Portland last month as she was parking her car. She told police that two men drove her to a wooded area, one of them drove off in her car, and later they released her unharmed.

Big Beet Sugar Year Expected

WASHINGTON (U)—The Agriculture Department expects a bigger crop of beet sugar next year and smaller production in offshore cane areas.

This is indicated by President Truman's budget message sent to Congress Monday.

Payments to beet producers for compliance with the sugar act and its quotas are estimated at \$31,500,000 in the fiscal year beginning July 1, 1952. Estimates for the current year are \$27,792,802.

Rudderless Ship Saved by Tugs

ASTORIA (U)—A Liberty ship with its crew of 45 was towed to safety here Monday night after losing its rudder in rough waters at the mouth of the Columbia River.

The ship, the Winslow S. Homer, floundered helplessly for more than four hours in the mile-wide channel between Peacock Spit on the Washington Coast and Clifton Spit on the Oregon Coast, until tug boats got lines aboard and towed the ship back upriver to the Astoria Harbor.

The pilot schooner Peacock came to the stricken vessel's aid when it radiated for help after dropping its rudder at about 4 p.m.

OLD WORLD COMES TO SURFACE—The Agora (market place) of ancient Athens is being restored by American Archaeological Institute. Tombs 3,500 years old were uncovered.

Federal Aid For Anglers

State Game Director P. W. Schneider has announced that public access for fishing at Malheur reservoir between Burns and Vale will be provided through the Game Commission's first expenditure of federal aid for fish restoration funds.

Next trout season anglers will have access to Malheur reservoir on a road provided through an easement obtained with the federal aid funds.

Information on restrictions to public fishing on the Rogue, Nestucca and Deschutes Rivers and Unity and Higgins Reservoirs in Northeastern Oregon is now being compiled. This game commission program of providing fishing access through easements and acquisitions is termed a long range operation designed to meet a rapidly growing problem.

The 10 per cent federal excise tax on fishing tackle, under provisions of the recent Dingell-Johnson Act, is divided among the states on the basis of angling license holders and size.

Last November the game commission voted to use Oregon's share of federal sport fishery aid funds for providing public access to fishing waters. The commission's share in matching funds is 25 per cent of the project cost.

Malheur Reservoir was poisoned in 1950 by Commission fishery agents to destroy trash fish and last summer 176,000 advanced fry and fingerling rainbow trout were liberated in the reservoir. On Nov. 1, Fishery Agent Allan Lichens of Hines checked growth rates on 217 rainbow freed in the reservoir and found they already averaged 6.7 inches in length. At this rate of growth the trout should provide excellent angling for the 1951 trout season.

To complete its part of the reservoir access agreement the Game Commission will build a permanent cattle guard on the Carroll Lacey property and a 1-acre parking area at the reservoir edge controlled by the Orchard Water Company.

Vital Info Said Leaking From Army Signal Corps

WASHINGTON (U)—At least eight investigating groups are reported looking into complaints that vital secrets may be seeping out of the Army Signal Corps intelligence agency.

This agency collects reports of fact and rumor from various U.S. agents around the world.

The inquiry was set off by complaints from 10 of the agency's employees, including three Army officers, Rep. Cox (D-Ga.) told the House Monday. The agency employs 90 civilian and 21 military personnel.

Cox said one of the three Army officers, Lt. Col. Ollie J. Allen, was transferred to California only last month and had expressed the fear this was done to silence him. Allen recorded his observations and requested an investigation, the congressman said.

The Chicago Tribune reported Saturday night that the ten Signal Corps employees had requested the inquiry. And the newspaper said the inquiry had uncovered there was no record of 57 "top secret" documents. It quoted Army intelligence officers as saying a check had accounted for all except 11 of the documents.

Army spokesmen here declined to say how many secret papers were missing. They said only that an investigation had been underway for several months and is continuing carefully and thoroughly.

Job Turnover Said Average

SALEM (U)—The turnover of state civil service employees last year averaged 4.1 per cent a month, State Civil Service Director James Clinton said Monday.

Clinton said that figure is about average for private employment throughout the country.

There was an average of 10,330 civil service employees working for the state last year. During the year there were 4,302 resignations and 283 dismissals.

Many positions remained vacant because of a shortage of nurses, doctors, engineers, and others in technical and professional classes.

Rusky Settlers Reach Kuriles

MOSCOW (U)—Dispatches being received from the Kurile Islands—that lie between the sea of Okhotsk and the Pacific—tell of arrival and settlement of Soviet citizens there.

The Soviet state is reported to be giving the new settlers generous help in establishing themselves. They are sold to receive loans in money, manufactured goods and timber.

In the last few months 32 fishermen's families have started up a new settlement on the islands of Iturup.

PRESTIGE LOW

SAN FRANCISCO (U)—Rep. Mack (D-Ill.), who flew Monday from Honolulu on the homeward leg of his globe-girdling flight in a small, single-engine plane, says American prestige in the Orient is low.

Big Beet Sugar Year Expected

WASHINGTON (U)—The Agriculture Department expects a bigger crop of beet sugar next year and smaller production in offshore cane areas.

This is indicated by President Truman's budget message sent to Congress Monday.

Payments to beet producers for compliance with the sugar act and its quotas are estimated at \$31,500,000 in the fiscal year beginning July 1, 1952. Estimates for the current year are \$27,792,802.

New Vet Home Fund Shapes

WASHINGTON (U)—A House subcommittee Monday approved a bill to make another 125 million dollars available to veterans during the next year for loans on new homes and farms.

The measure now goes to the Veterans' Affairs committee which will decide whether to submit it to the house. Approval of the bill is considered likely.

Snow Burdens Vancouver

VANCOUVER, B. C. (U)—A single cloud was blamed Monday for a freak storm which dumped seven to 10 inches of snow over Vancouver.

The Weather Bureau said the single cloud parked over the city early in the morning and dumped its load. Only a light fall was reported in suburban Burnaby while no snow fell in New Westminster, 12 miles away.

Twins Learn Of Heritage

VANCOUVER, B. C. (U)—Donald and Deatil Skiles, twin brothers living in suburban North Vancouver, have learned they are heirs to a timber tract in Idaho said to be worth \$100,000.

Vancouver police missing persons bureau contacted the brothers, after relatives in Sweet Plaine, Ore., asked for aid in locating them.

The timber holding was bought in 1918 by the twins' parents who died 25 years ago.

Logging interests are said to be dickering for timber rights on the property.

"We have never seen it," Donald said Monday, "but I doubt very much it is worth \$100,000."

The brothers, are musicians and "will go on playing music" while they investigate the reported fortune.

About three-fourths of the world's supply of sulphur comes from "domes" found during oil drilling on the coast of Louisiana and Texas.

Demos to Hear Sweetland

Monroe Sweetland, Oregon Democratic National Committeeman, is to address members of the Klamath County Demo Central Committee at a meeting Friday at the Winema.

Paul Buck, committee chairman has called the meeting for 8 p.m.

It is to be a kickoff session for the party organization's effort in the coming May primary elections, and a party program is to be discussed.

How to make good telephone service even better...

memo to a popular 'teen-ager'...

Dear Susan: We're leaving this little note for you to read the next time you're at the telephone. We want you to know we're delighted that the telephone rings so often for you these days... and that you have so many friends to call. But we hope you'll remember that we share this line with our telephone neighbors. They like to use it, too. And, of course, we know you'll keep in mind that no one can call us as long as the line is tied up. Lovingly, Mother and Dad.

look 'em up - jot 'em down - then call

You know, it's awfully easy to get telephone numbers mixed up. So to be sure of the right number, why not look it up... in your directory... jot it down... then call.

this free booklet for local and out-of-town telephone numbers is yours for the asking. Why not telephone, send a postcard, or drop in to your nearest Pacific Telephone business office for your free copy?
