**Union Shop Row Grows** WASHINGTON (AP)—The Wage Stabilization Board has no right to set a pattern for the union shop or productivity pay boosts, say the three industry members. They spoke out "very candidly" at a news conference Friday. The CIO steel workers, in a dispute before the board, are demanding a union shop — one in which employees must be union members—and productivity wage increases—those granted as output goes up. The industry members of the board are Richard P. Doherty, Hiram S. Hall and Milton M. Olander. Doherty said all three were strongly opposed to any board policy "superimposing on industry conditions they haven't voluntarily offered to take on themselves." Hall said an "extended formula for productivity wage increase is bound to be inflationary."

**Indian Boy Shoots Father** Indian officers at Beatty are looking for a 13-year-old Indian boy, who shot his father, Furmore Craine, 41, in the back and right shoulder with a 22 rifle. Craine was in fair condition this morning at Klamath Valley Hospital. At Beatty Indian Officer Carl Hill said the shooting happened about 10:30 p.m. Friday. Hill stated the boy, Craine, and an unidentified woman were at Craine's house and the boy "was doing arithmetic problems." Hill said the boy "apparently got mad, started raising heck and Craine rebuked him." "Then the boy went into a bedroom," Hill stated, "got the rifle and shot his father twice—in the left shoulder blade from the back and in the right shoulder." Hill brought the wounded Indian to the hospital here where he was given blood plasma. Hospital attendants said Crane was admitted to the hospital about 12:45 a.m. Saturday and had lost considerable amount of blood. Hill, this morning about 9 a.m., said he had not yet found the boy.

WASHINGTON (AP)—The Veterans Administration figures that one-third of the nation's population consists of veterans and their families. It estimates the figure will increase to 40 per cent by 1955. This means two out of every five men are war veterans. There are now about 3,418,000 veterans of World War I and 15,310,000 of World War II. Other veterans' records stretch back to the Civil War. The books were closed on the War of 1812 in 1926 when the last dependent died. The last veteran of the Mexican war died in 1929 at the age of 98.
