ABOUT 40 PERSONS were attracted to the first night of fly-tying classes being held at the Gun Store, among them Stephen Bleak (left), 1782 Kane, and Larry Brown (right), 2007 Homedale, pictured getting instructions in the tricky art from Cecil Drew.

## Cupid Pushed, SCD Election Town Aroused Verdict Today

BUCKSPORT, Me. (AP)—Civic groups here want to help Dan Cupid push laggard celibates towards the altar.

They've arranged a 'Bachelors' Ball' at the high school gymnasium Feb. 19. Already the ball has aroused controversy in this town of 2,000 people.

Only 61 residents got married last year and Banker Ernest E. Baker said Monday night: "This is not a good situation for the bachelors, the bachelor girls, or for the general economy of the town."

"Married couples are the ones who buy and build homes. If we can increase home ownership by raising the marriage rate everyone will benefit."

But Town Manager L. W. O'Connor sees a dark side to the proposal.

"It's all right to promote marriages," he said. "But marriage leads to children and that means building more schools at the taxpayers' expense."

"I'm not the man to discourage Cupid—but I don't think he has to be pushed."

## Woman Killed, Five Injured Variety Store Reports Theft

Theft of about \$200 from Klamath Variety Store, 836 Main St., sometime over the weekend was reported to City Police late yesterday.

Store Mgr. Donald L. Barbeau told police the cash was kept in two registers and a cash drawer. No suspects were named by Police.

## Cripple Falls, Walks Again

GRAND RAPIDS, Mich. (AP)—Betty Postema, who six years ago thought she would never walk again, is out of her wheelchair Tuesday.

The pretty 22-year old Calvin College secretary had been paralyzed from the waist down from a fall while she was in high school.

Doctors held no hope for her recovery. But Betty completed her education and went to work.

Then, last April she fell from her wheelchair on the steps of a college building.

She landed on her spine, and Betty said, "He just seemed to flow into my legs. The more I exercised the stronger they got."

Surgeons said the second tumble apparently freed adhesions.

Now Betty, after months of practicing in secret, is walking again. She says: "It was something that happened in God's providence."

**AN EASY WAY TO HAVE A PIANO**  
 You can rent a lovely new spinet piano from the Louis B. Mann Piano Company, 129 N. 5th, at a low monthly rate. After a reasonable time you can, if you wish, change from rent to purchase agreement. The rent already paid is all credited to your purchase account and no other down payment is necessary. The monthly payments can be little higher than rent. Or, if you prefer, you can continue to rent.

**Heat Poses New Plane Problem**  
 CLEVELAND (AP)—A new hurdle for airplane designers, a "heat wall," has been mentioned by John F. Victory, executive secretary of the National Advisory Committee for Aeronautics.

He did not detail what he meant by a "heat wall," but it possibly is the speed at which planes would be stopped by the danger of friction from the air.

Victory declared in a talk to the Cleveland chapter of the American Society of Metals that planes capable of speeds better than twice the speed of sound were "within the foreseeable future."

He said the "sonic barrier"—the speed of sound—was once the goal, but that now getting through the "heat wall" was the problem.

To purify drinking water, use one Halasone tablet to a quart of water.—Sports Afield.
